III. Ordering Clauses

29. Accordingly, it is ordered that pursuant to sections 1, 2, 4(i), 4(o), 301, 303(r), 303(v), 307, 309, 335, 403, 624(g),706 and 715 of the Communications Act of 1934, as amended, 47 U.S.C. 151, 152, 154(i) and (o), 301, 303(r), 303(v), 307, 309, 335, 403, 544(g), 606, and 615, this Third Report and Order is adopted.

30. It is further ordered that the Commission's Consumer and Governmental Affairs Bureau, Reference Information Center, shall send a copy of this Third Report and Order, including the Final Regulatory Flexibility Analysis, to the Chief Counsel for Advocacy of the Small Business Administration.

Bulah P. Wheeler,

Deputy Manager.

Final Rule

For the reasons discussed in the preamble, the Federal Communications Commission amends 47 CFR part 11 as follows:

PART 11—EMERGENCY ALERT SYSTEM (EAS)

§ 11.61 Tests of EAS procedures.

1. The authority citation for part 11 continues to read as follows:

Authority: 47 U.S.C. 151, 154(i) and (o), 303(e), 544(g) and 606.

2. Revise § 11.61(a)(3) to read as follows:

§ 11.61 Tests of EAS procedures.

(a) * * *

(3) National Tests. (i) All EAS Participants shall participate in national tests as scheduled by the Commission in consultation with the Federal Emergency Management Agency (FEMA). Such tests will consist of the delivery by FEMA to PEP/NE stations of a coded EAS message, including EAS header codes, Attention Signal, Test Script, and EOM code. All other EAS Participants will then be required to relay that EAS message. The coded message shall utilize EAS test codes as designated by the Commission's rules.

(ii) A national test shall replace the required weekly and monthly tests for all EAS Participants, as set forth in paragraphs (a)(1) and (a)(2) of this section, in the week and month in which it occurs.

(iii) Notice shall be provided to EAS Participants by the Commission at least two months prior to the conduct of any such national test.

(iv) Test results as required by the Commission shall be logged by all EAS Participants and shall be provided to the Commission's Public Safety and Homeland Security Bureau within forty five (45) days following the test.

[FR Doc. 2011–5222 Filed 3–7–11; 8:45 am]

BILLING CODE 6712–01–P
(Magnuson-Stevens Act) by regulations at 50 CFR part 622.

On April 27, 2000, NMFS implemented the final rule (65 FR 16336, March 28, 2000) that divided the Florida west coast subzone of the Gulf of Mexico eastern zone into northern and southern subzones, and established their separate quotas. The king mackerel quota for the hook-and-line component of the commercial sector in the southern Florida west coast subzone is reduced to the area boundary, i.e., the area off Collier and Lee/Collier County, Florida, west coast of Florida to 87°31′W. Monroe County, FL boundary) along the EEZ in the southern Florida west coast subzone is further divided into northern and southern subzones. From November 1 through March 31, the southern subzone is designated as the area extending south and west from 25°20.4′N. lat. to 26°19.8′N. lat. (a line directly east from the Miami-Dade/Monroe County, FL boundary) along the west coast of Florida to 87°31′06″W. long. (a line directly south from the Alabama/Florida boundary). The Florida west coast subzone is further divided into northern and southern subzones. From November 1 through March 31, the southern subzone is designated as the area extending south and west from 25°20.4′N. lat. to 26°19.8′N. lat. (a line directly west from the Lee/Collier County, Florida, boundary), i.e., the area off Collier and Monroe Counties. Beginning April 1, the southern subzone is reduced to the area off Collier County, Florida, between 25°48′N. lat. and 26°19.8′N. lat.

Classification

This action responds to the best available information recently obtained from the fisheries. The Assistant Administrator for Fisheries, NOAA (AA), finds that the need to immediately implement this trip limit reduction for the king mackerel hook-and-line component of the commercial sector in the southern Florida west coast subzone constitutes good cause to waive the requirements to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such prior notice and opportunity for public comment is unnecessary and contrary to the public interest. Such procedures would be unnecessary because the rule implementing the quota and the associated requirement for closure of the commercial harvest when the quota is reached or projected to be reached has already been subject to notice and comment, and all that remains is to notify the public of the closure.

Allowing prior notice and opportunity for public comment on this action would be contrary to the public interest because any delay in the trip limit reduction of the commercial harvest could result in the commercial quota being exceeded. There is a need to immediately implement this action to protect the king mackerel resource because the capacity of the fishing fleet allows for rapid harvest of the quota. Prior notice and opportunity for public comment would require time and would potentially result in a harvest well in excess of the established quota.

For the aforementioned reasons, the AA also finds good cause to waive the 30-day delay in the effectiveness of this action under 5 U.S.C. 553(d)(3).

This action is taken under 50 CFR 622.43(a) and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 et seq.

Emily H. Menashes,
Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510–22–P

[Docket No. 0907271173–1137–04]

RIN 0648–AY11

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Snapper-Grouper Fishery Off the Southern Atlantic States; Amendment 17B; Correction

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Correcting amendments.

SUMMARY: This document contains corrections to the final rule that implemented Amendment 17B to the Fishery Management Plan (FMP) for the Snapper-Grouper Fishery of the South Atlantic Region (Amendment 17B), which was published in the Federal Register on December 30, 2010.

DATES: This correction is effective March 8, 2011.

FOR FURTHER INFORMATION CONTACT: Anik Clemens, 727–824–5305; e-mail: Anik.Clemens@noaa.gov.

SUPPLEMENTARY INFORMATION:

Background

On December 30, 2010, a final rule was published to implement Amendment 17B (75 FR 82280). That final rule established annual catch limits and accountability measures for nine snapper-grouper species in the South Atlantic region. One of these accountability measures prohibits the possession of deep-water snapper-grouper species in or from the South Atlantic exclusive economic zone in depths greater than 240 ft (73 m). After the regulations implementing Amendment 17B became effective on January 31, 2011, it was determined that two of the waypoints defining the 240-ft (73-m) depth contour were in State waters.

Need for Correction

As published, the final rule contains errors in a table of coordinates in the regulatory text. In § 622.35, paragraph (o) contains a table of coordinates for the depth closure implemented in Amendment 17B for deep-water snapper-grouper. Within this table, an incorrect longitudinal coordinate was implemented for point K, and the coordinates for points O and U are within State boundaries. Through this
