exported subject merchandise to the United States during the POI, including those respondents not individually examined during the investigation. As required by section 351.214(b)(2)(ii)(B) of the Department’s regulations, Tiong Thuan also certified that its export activities were not controlled by the central government of Vietnam.

In addition to the certifications described above, pursuant to section 351.214(b)(2)(iv) of the Department’s regulations, Tiong Thuan submitted documentation establishing the following: (1) The date on which Tiong Thuan first shipped subject merchandise for export to the United States and; (2) the volume of its first shipment; and (3) the date of its first sale to an unaffiliated customer in the United States.2

Initiation of New Shipper Review

Pursuant to section 751(a)(2)(B) of the Act and section 351.214(d)(1) of the Department’s regulations, we find that the request submitted by Thong Thuan meets the threshold requirements for initiation of a NSR for shipments of shrimp from Vietnam produced and exported by Thong Thuan.3 The POR is February 1, 2010—January 31, 2011.4 The Department intends to issue the preliminary results of this NSR no later than 180 days from the date of initiation, and the final results no later than 270 days from the date of initiation.5

It is the Department’s usual practice, in cases involving non-market economies, to require that a company seeking to establish eligibility for an antidumping duty rate separate from the NME entity-wide rate provide evidence of de jure and de facto absence of government control over the company’s export activities. Accordingly, we will issue questionnaires to Tiong Thuan, which will include a section requesting information with regard to Tiong Thuan’s export activities for separate rate purposes. The NSR will proceed if the response provides sufficient indication that Tiong Thuan is not subject to either de jure or de facto government control with respect to its export of subject merchandise.

We will instruct U.S. Customs and Border Protection to allow, at the option of the importer, the posting, until the completion of the review, of a bond or security in lieu of a cash deposit for each entry of the subject merchandise from Tiong Thuan in accordance with section 751(a)(2)(B)(ii) of the Act and section 351.214(e) of the Department’s regulations. Because Tiong Thuan certified that it both produced and exported the subject merchandise, the sale of which is the basis for this new shipper review request, we will apply the bonding privilege to Tiong Thuan only for subject merchandise which Tiong Thuan both produced and exported.

Interested parties requiring access to proprietary information in this NSR should submit applications for disclosure under administrative protective order in accordance with sections 351.305 and 351.306 of the Department’s regulations. This initiation and notice are in accordance with section 751(a)(2)(B) of the Act and sections 351.214 and 351.221(c)(1)(i) of the Department’s regulations.

Dated: March 14, 2011.

Christian Marsh,
Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

NOAA Policy on Prohibited and Approved Uses of the Asset Forfeiture Fund

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Magnuson-Stevens Fishery Conservation and Management Act authorizes the Secretary of Commerce through NOAA to pay certain enforcement related costs from sums received as fines, penalties, and forfeitures of property for violations of any marine resource law enforced by the Secretary, fines, penalties, and forfeitures of property received by NOAA are deposited in an enforcement asset forfeiture fund. NOAA finalized its policy on March 16, 2011, to clearly articulate prohibited and approved uses of these funds to ensure no conflict of interest—either real or perceived—associated with the use while continuing to promote a sound enforcement program dedicated to conserving and protecting our nation’s marine resources.

SUPPLEMENTARY INFORMATION:

I. NOAA Policy on Prohibited and Approved Uses of the Asset Forfeiture Fund

Strong management and oversight of the Asset Forfeiture Fund (AFF) is essential to ensuring the public’s trust in the National Oceanic and Atmospheric Administration’s (NOAA) Enforcement Program. While the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) provides broad statutory authority for use of the AFF, the Department of Commerce and NOAA are implementing this policy limiting approved uses as a means of ensuring no conflict of interest—real or perceived—is associated with the use of the AFF while continuing to promote a sound enforcement program dedicated to conserving and protecting our Nation’s marine resources. To this end, the policy provides guidance on the prohibited and approved uses of the AFF that are consistent with but narrower than that authorized under applicable legal authorities. The AFF will also be used for compliance assistance activities, consistent with legal authorities, to better serve the needs of our stakeholders and improve the way NOAA engages and interacts with its regulated community.

The Department believes, as did Congress in establishing the AFF and specifying the authorized uses, that it is appropriate to use the proceeds of NOAA’s enforcement program to offset in part the costs of administering that program. Those who violate these laws should help offset the cost of protecting our marine resources in lieu of those costs being borne by taxpayers. Further, the availability of these funds for enforcement reduces the requirement for additional appropriations and expands NOAA’s ability to respond to violations of the laws it is charged with enforcing.

To ensure accountability and transparency in AFF accounting, NOAA has taken a number of actions to improve oversight, management, and tracking of the AFF in addition to this policy. NOAA has identified and is tracking AFF monies received and expended, and has centralized the AFF approval processes for expenditures. In the FY 2012 budget submission, NOAA will identify and account for the AFF in its annual budget. For FY 2011, an annual operating budget has been developed for the AFF based upon this policy, and modifications to that budget must be approved by the NOAA Chief Financial Officer.
