Proposed Project: 2012 National Survey on Drug Use and Health—(OMB No. 0930–0110)—Revision

The National Survey on Drug Use and Health (NSDUH) is a survey of the civilian, non-institutionalized population of the United States 12 years old and older. The data are used to determine the prevalence of use of tobacco products, alcohol, illicit substances, and illicit use of prescription drugs. The results are used by SAMHSA, ONDCP, Federal government agencies, and other organizations and researchers to establish policy, direct program activities, and better allocate resources.

The 2012 and 2013 NSDUHs will continue conducting a follow-up clinical interview with a subsample of approximately 1,500 respondents. The design of this Mental Health Surveillance Study (MHSS) is based on the recommendations from a panel of expert consultants convened by the Center for Mental Health Services (CMHS), SAMHSA, to discuss mental health surveillance data collection strategies. The goal is to create a statistically sound measure that may be used to estimate the prevalence of Serious Mental Illness (SMI) among adults (age 18+).

For the 2012 and 2013 NSDUHs, no questionnaire changes are proposed. As with all NSDUH/NHSDA surveys conducted since 1999, the sample size of the survey for 2012 and 2013 will be sufficient to permit prevalence estimates for each of the fifty states and the District of Columbia. The total annual burden estimate is shown below:

SUPPLEMENTARY INFORMATION:

Background and Purpose

Under Coast Guard regulation 33 CFR 151.53(b), the Coast Guard announces the May 1, 2011 date for entry into effect of discharge requirements from ships in the WCR SA. The WCR is defined in 33 CFR 151.06(a)(12). As of May 1, 2011, the discharge restrictions for SAs set forth in 33 CFR 151.71 will be applicable to the WCR SA.

In accordance with the provisions of regulation 541.7(b) found in MARPOL Annex V, the United States, along with a sufficient number of WCR States that are parties to MARPOL, submitted notices on the availability of adequate reception facilities in the region to the International Maritime Organization’s (IMO) Marine Environment Protection Committee (MEPC) at a meeting of the MEPC in March, 2010. During the meeting the WCR States requested that the MEPC establish a date for the entry into effect of the WCR SA. The MEPC noted the information provided by Member States in the WCR SA, to include the United States, and decided that the requirements for sufficient notification of adequate reception facilities for the WCR SA had been met.

The MEPC adopted resolution MEPC.191(60) and the IMO Secretariat transmitted the text of the resolution to all interested parties via Circular Letter No.3053 dated April 14, 2010. These documents are available on the IMO’s Web site at http://www.imo.org.

As a party to MARPOL Annex V, the United States proposed to the IMO’s MEPC to establish the Gulf of Mexico as an SA under MARPOL Annex V in September 1990. The country of Venezuela submitted an amendment to the proposal to include the WCR along with the Gulf of Mexico as an SA under MARPOL Annex V in November 1990. The MEPC adopted the proposal to establish the WCR SA, including the Gulf of Mexico and the Caribbean Sea, in July 1991. The SA entered into force in April 1993, and MARPOL Annex V discharge requirements for the SA will enter into effect May 1, 2011. When the discharge requirements in regulation 5 of MARPOL Annex V enter into effect for the WCR SA, the discharge restrictions in 33 CFR 151.71 will also enter into effect. These regulations state that no person may discharge garbage from a ship except food wastes. The disposal of food wastes into the sea shall be made as far as practicable from land, but in any case not less than 12 nautical miles from the nearest land. Food wastes comminuted or ground and capable of passing through a screen with openings no greater than 25 mm may be discharged not less than 3 nautical miles from the nearest land.

The Coast Guard intends to update the list of SAs, in accordance with 33 CFR 151.53(b), to include where discharge restrictions are effective in a separate rule change.

Dated: March 18, 2011.

Rear Admiral, U.S. Coast Guard, Director of Prevention Policy.
