The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a currently valid OMB control number.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before July 1, 2011. If you anticipate that you will be submitting PRA comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the FCC contact listed below as soon as possible.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-1064.

Title: Regulatory Fee Assessment True-Ups.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit organizations.

Number of Respondents and Responses: 280 respondents; 280 responses.

Estimated Time per Response: 15 minutes (0.25 hours).

Frequency of Response: Annual reporting requirements.

Obligation To Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in Communications Law of 1934, as amended, 47 U.S.C. 4(i)-4(j), 8, 9, 303(r).

Total Annual Burden: 70 hours.

Total Annual Cost: None.

Privacy Act Impact Assessment: No impacts.

Nature and Extent of Confidentiality: There is no need for confidentiality; however, respondents may request that materials or information submitted to the Commission be withheld from public inspection under 47 CFR Section 0.459 of FCC rules.

Needs and Uses: Section 9 of the Communications Act of 1934, as amended, 47 CFR Section 9, mandates that the Commission collect annual regulatory fees from its regulatees. To facilitate this effort, the Commission publishes various Public Notices and Fact Sheets each year that (1) announce when fees payments are due; (2) provide the current schedule of fee amounts for all service categories; and (3) provide guidance for making fee payments to the Commission.

The Commission mails fee assessment notifications to broadcast licensees and commercial mobile radio service (CMRS) licensees on an annual basis. (Note that beginning in Fiscal Year (FY) 2004, the Commission mailed fee assessment notifications to cable television operators. The Commission stopped this practice in FY 2007

because the method was ineffective and the data sent out on the notifications were unreliable. In OMB 3060-0855, Telecommunications Reporting Worksheet and Related Collections, FCC Form 499-A, FCC499-Q, the Commission has required regulatees to provide e-mail address and revenue amount as the fee assessment basis. The Commission plans to use these e-mail addresses collected in OMB 3060-0855 to transmit the fee assessment notifications in the future.

With these fee assessment notifications, we also provide regulatees with a "true-up" (*i.e.*, which is to fit, place or shape accurately), opportunity to contact the FCC to update or otherwise correct their assessed fee amounts well before the actual due date for payment of regulatory fees. Providing a "true-up" opportunity is necessary because the data sources that were used to generate the fee assessments may not be complete or accurate.

The Commission offers several ways for regulatees to "true-up" their assessed fee amount. Regulatees may (1) call the Commission's Financial Operations Help Desk; (2) return their amended assessment notification or otherwise send written correspondence to a designated Commission mailing address; and/or (3) use a Commission-authorized Web site at <http://www.fcc.fees.com> <<http://www.fcc.fees.com>> to key-in corrections to their assessment information.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0508.

Title: Part 1 and Part 22 Reporting and Recordkeeping Requirements.

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Individuals or households and state, local or tribal government.

Number of Respondents and Responses: 16,013 respondents; 16,013 responses.

Estimated Time per Response: .25 hours-10 hours

Frequency of Response: On occasion, quarterly, and semi-annual reporting requirement and recordkeeping requirement.

Obligation To Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. sections 151(i), 154(j), 303, 308, 309 and 310.

Total Annual Burden: 5,974 hours.

Total Annual Cost: \$518,800.

Privacy Act Impact Assessment: Yes.

The Commission has a System of Records, FCC/WTB-1, "Wireless Services Licensing Record," which covers the personally-identifiable information (PII) that individual applicants may include in their submissions for licenses or grants of equipment authorization.

Nature and Extent of Confidentiality:

There is a need for confidentiality with respect to filers who are individuals in this collection. Pursuant to section 208(b) of the E-Government Act of 2002, 44 U.S.C. 3501, in conformance with the Privacy Act of 1974, 5 U.S.C. 552(a), the Commission's Wireless Telecommunications Bureau (Bureau) instructs licensees to use the FCC's Universal Licensing System (ULS), Antenna Structure Registration (ASR), Commission Registration System (CORES), and related systems and subsystems to submit information. CORES is used to obtain a FCC Registration Number (FRN) and password, after which one must register all current call sign and ASR numbers associated with a FRN within the Bureau's system of records (ULS database). Although ULS stores all information pertaining to the individual licensee via the FRN, confidential information is accessible only by persons or entities that hold the password for each account and the Bureau's licensing staff. Upon the request for a FRN, the individual licensee is consenting to make publicly available, via the ULS database, all information that is not confidential in nature.

Needs and Uses: The Commission is requesting OMB approval for a revision of this information collection (IC). The Commission has significantly reduced the burden in this information collection because we have streamlined and eliminated outdated rule sections; eliminated rule requirements that are covered under other OMB control numbers, and eliminated rule sections that were part of this collection but are not information collections, but instead are policies the Commission published in the public interest. Finally, any duplicate information collections were also removed from this IC.

The information collected pursuant to rules in Part 22 of the Commission's rules is primarily used by Commission staff to determine, on a case-by-case basis, whether or not to grant licenses authorizing construction and operation of wireless telecommunications facilities to qualified applicants and licensees, who supply this information when apply for such licenses.
