

update the environmental mailing list as the analysis proceeds to ensure that we send the information related to this environmental review to all individuals, organizations, and government entities interested in and/or potentially affected by the planned project. If you previously returned an Information Request from the initial notice or submitted a comment on the project, you are and will remain on our mailing list.

Copies of the EA will be sent to the environmental mailing list for public review and comment. If you would prefer to receive a paper copy of the document instead of the CD version or would like to remove your name from the mailing list, please return the attached Information Request (appendix 2).

Becoming an Intervenor

Once Sawgrass files its application with the Commission, you may want to become an "intervenor" which is an official party to the Commission's proceeding. Intervenor play a more formal role in the process and are able to file briefs, appear at hearings, and be heard by the courts if they choose to appeal the Commission's final ruling. An intervenor formally participates in the proceeding by filing a request to intervene. Instructions for becoming an intervenor are included in the User's Guide under the "e-filing" link on the Commission's Web site. Please note that the Commission will not accept requests for intervenor status at this time. You must wait until a formal application for the project is filed with the Commission.

Additional Information

Additional information about the project is available from the Commission's Office of External Affairs, at (866) 208-FERC, or on the FERC Web site (<http://www.ferc.gov>) using the eLibrary link. Click on the eLibrary link, click on "General Search" and enter the docket number, excluding the last three digits in the Docket Number field (*i.e.*, PF10-20). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659. The eLibrary link also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of

time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to <http://www.ferc.gov/esubscribenow.htm>.

Public meetings or site visits will be posted on the Commission's calendar located at <http://www.ferc.gov/EventCalendar/EventsList.aspx> along with other related information.

Finally, to request additional information on the project or to provide comments directly to the project sponsor, you can contact Sawgrass directly by calling toll free at 877-309-8624. Also, Sawgrass has established a Web site at <http://www.sawgrassgas.com>. The Web site includes a description of the project, an overview map of the planned facilities, and links to related documents. Sawgrass will update the Web site as the environmental review of the project proceeds.

Dated: May 6, 2011.

Kimberly D. Bose,
Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 2850-015 New York]

Hampshire Paper Company, Inc.; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed the application for license for the Emeryville Hydroelectric Project, located on the Oswegatchie River in St. Lawrence County, New York, and has prepared an Environmental Assessment (EA) for the project.

The EA contains the staff's analysis of the potential environmental impacts of the project and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the EA is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link.

Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at 1-866-208-3676, or for TTY, (202) 502-8659.

You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances related to this or other pending projects. For assistance, contact FERC Online Support.

Any comments should be filed within 30 days from the date of this notice. Comments may be filed electronically via the Internet. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support. Although the Commission strongly encourages electronic filing, documents may also be paper-filed. To paper-file, mail an original and seven copies to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

For further information, contact John Baummer at (202) 502-6837.

Dated: May 6, 2011.

Kimberly D. Bose,
Secretary.

[Docket No. AD10-12-001]

Increasing Market and Planning Efficiency Through Improved Software; Notice of Technical Conference: Increasing Real-Time and Day-Ahead Market Efficiency Through Improved Software

Take notice that Commission staff will convene a technical conference on June 28-30, 2011, from 8:30 a.m. to 4:30 p.m., to discuss opportunities for increasing real-time and day-ahead market efficiency through improved software.

This conference will bring together diverse experts from ISOs/RTOs, non-

market utilities, the software industry, government, research centers and academia for the purposes of stimulating discussion and sharing of information about the technical aspects of these issues and identifying fruitful avenues for research. This conference is intended to build on the discussions initiated in the Commission's June 2010 staff technical conferences on increasing market and planning efficiency through improved software. As a result of the June 2010 conferences and progress over the past year, Commission staff is focusing in this conference on the following specific topics.

On June 28–29, presentations will focus on improving performance of day-ahead markets, including general unit-commitment software and algorithm advancements, asset flexibility, potential improvements to pricing, efficient modeling of uncertainty, optimal transmission switching, and large-scale test problem development, as well as other related topics.

On June 29–30, presentations will focus on improving performance of real-time optimal power flow modeling, including general real-time optimal power flow software and algorithm advancements, adaptive transmission ratings and generator modeling, full or partial AC optimal power flow models, preventive and corrective resource and transmission dispatch, improved regulation services, dynamic line ratings, and large-scale test problem development, as well as other related topics.

Through these presentations, Commission staff seeks to explore advancements related to these technologies, the potential benefits or costs associated with these advancements, and how such advancements may be incorporated into power market operations.

The technical conference will be held in the Commission Meeting Room at the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. All interested participants are invited to attend, and participants with ideas for relevant presentations are invited to nominate themselves to speak at the conference.

Speaker nominations must be submitted on or before May 26, 2011 through the Commission's Web site¹ by providing the proposed speaker's contact information along with a title and abstract of the proposed presentation. Proposed presentations should be directly or closely related to

the topics discussed above. Speakers and presentations will be selected to ensure relevant topics and to accommodate time constraints.

Although registration is not required for general attendance, we encourage those planning to attend the conference to register through the Commission's Web site.² We will provide printed nametags for those who register on or before June 23, 2011.

A detailed agenda with the list of and times for the selected speakers will be published on the Commission's Increasing Market and Planning Efficiency Web site³ by May 31, 2011. Following the conferences, a comment date will be set for the filing of post-conference comments.

There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

A free webcast of this event will be available through the FERC Web site. Webcast viewers will not be able to participate during the technical conference. Anyone with Internet access interested in viewing the webcast of this conference can do so by navigating to Calendar of Events at <http://www.ferc.gov>. The events will contain a link to the Webcast. The Capitol Connection provides technical support for the webcasts and offers the option of listening to the conferences via phone-bridge for a fee. If you have any questions, visit <http://www.CapitolConnection.org> or call (703) 993–3100.

FERC conferences are accessible under section 508 of the Rehabilitation Act of 1973. For accessibility accommodations please send an e-mail to accessibility@ferc.gov or call toll free (866) 208–3372 (voice) or (202) 502–8659 (TTY), or send a fax to (202) 208–2106 with the required accommodations.

For further information about these conferences, please contact:

Sarah McKinley (Logistical Information), Office of External Affairs, (202) 502–8004, Sarah.McKinley@ferc.gov,
Eric Krall (Technical Information), Office of Energy Policy and Innovation, (202) 502–6214, Eric.Krall@ferc.gov.

Tom Dautel (Technical Information), Office of Energy Policy and Innovation, (202) 502–6196, Thomas.Dautel@ferc.gov.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 2232–522; Project No. 516–459]

Duke Energy Carolinas, LLC, South Carolina Electric & Gas Company; Notice of Meetings

On March 18, 2011, the National Marine Fisheries Service (NMFS) requested a meeting with Duke Energy Carolinas, LLC (Duke), licensee for the Catawba-Wateree Hydroelectric Project No. 2232, and Commission staff to discuss information needed to complete formal consultation for shortnose sturgeon (*Acipenser brevirostrum*) under section 7 of the Endangered Species Act. NMFS requested a similar meeting with South Carolina Electric & Gas Company (SCE&G), licensee for the Saluda Hydroelectric Project No. 516, and Commission staff on March 25, 2011.

Accordingly, Commission staff will meet with representatives of NMFS and Duke, the Commission's non-federal representative for the Catawba-Wateree Project, on Tuesday, May 24, 2011. Similarly, Commission staff will meet with representatives of NMFS and SCE&G, the Commission's non-federal representative for the Saluda Project, on Wednesday, May 25, 2011. Both meetings will start at 9 a.m. at NMFS' office at 253 13th Avenue South, St. Petersburg, Florida. All local, state, and federal agencies, and interested parties, are hereby invited to attend and observe either, or both, meeting(s). Questions concerning these meetings should be directed to Ms. Karla Reece of NMFS at (727) 824–5348.

Dated: May 6, 2011.
