District of Columbia have developed, or are developing, a SACWIS with Federal financial participation.

45 CFR 1355.55 provides for continuing review, assessment and inspection of SACWIS. The purpose of this review is to determine whether the system, as described in the approved Advance Planning Document has been adequately completed and conforms to applicable regulations and policies.

To initiate a review, States complete and submit the SACWIS Assessment Review Guide (SARG) and other system documentation when they have completed system development and the system is operational statewide. The SARG template provides a format for State description of system functionality, operation, and outputs such as reports. The additional materials submitted as part of this process, such as system design documentation, are typically readily available to the State as a result of good project management practices.

The information collected in the SACWIS Assessment Review Guide will allow Federal reviewers to determine if the State’s SACWIS meets the requirements for title IV–E Federal Financial Participation (FFP) defined at 45 CFR 1355.50, and that systems meet the goals and objectives of the approved Advance Planning Documents (APD) and conforms to the schedule, budget, and other conditions of their approved APDs. Additionally, other States may be able to use the documentation provided as part of their preparation for the review process of their own system development efforts.

**Respondents:** Title IV–E Agencies.

**National Institutes of Health**

**Submission for OMB Review; Comment Request; NCI Cancer Genetics Services Directory Web-Based Application Form and Update Mailer**

**Summary:** Under the provisions of Section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the National Cancer Institute (NCI), and the National Institutes of Health (NIH), have submitted to the Office of Management and Budget (OMB) a request to review and approve the information collection listed below. This proposed information collection was previously published in the Federal Register on March 15, 2011 (76 FR 14034) and allowed 60-days for public comment. No public comments were received. The purpose of this notice is to allow an additional 30 days for public comment. The National Institutes of Health may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

**Proposed Collection:** Title: NCI Cancer Genetics Services Directory Web-based Application Form and Update Mailer.

**Type of Information Collection Request:** Existing Collection in Use Without an OMB Number. **Need and Use of Information Collection:** The purpose of the online application form and the Web-based update mailer is to collect information about genetics professionals to be included in the NCI Cancer Genetics Services Directory on NCI’s Cancer.gov Web site. The information collected includes name, practice locations, professional qualifications, and areas of specialization. **Frequency of Response:** Information is collected once via the online application form, and then updated annually via the Web-based mailer. **Affected Public:** Individuals. **Type of Respondents:** Genetics professionals including nurses, physicians, genetic counselors, and other professionals who provide services related to cancer genetics. The annual reporting burden is estimated at 180 hours (see Table below). There are no Capital Costs, Operating Costs, and/or Maintenance Costs to report.
