Title of Collection: National Title I Study of Implementation and Outcomes: Early Childhood Language Development (ECLD)

OMB Control Number: 1850–0871
Agency Form Number(s): N/A
Frequency of Responses: once
Affected Public: Not-for-profit institutions

Abstract: The study is being conducted as part of the National Assessment of Title I, mandated by Title I, Part E, Section 1501 of the Elementary and Secondary Education Act. The study is designed to identify school programs and instructional practices associated with improved language development, background knowledge, and comprehension outcomes for children in prekindergarten through third grade. Analyses will estimate the associations between instructional programs and practices and student outcomes to inform future rigorous evaluation of strategies to improve language and comprehension outcomes for at-risk children in these early years of school. We will identify 10 locations
for the study, including seven-eight of the largest urban school districts and two-three states with large Title I populations. Within each of the 10 locations, we will select five high-performing and five low-performing schools. Within each school, we will randomly sample an average of three classrooms per grade. Within each classroom, we will randomly sample eight students. Students will be assessed in fall and spring. Principals, teachers, and parents will be surveyed once, and students’ classrooms will be observed twice in the fall and twice in the spring. Information from students’ school records will be extracted at the end of the school year.
