

submission, FMCSA for the first time estimates the extent of *voluntary* EOBR use by motor carriers, and subtracts that same number from its estimate of the extent of the use of written RODS. The Agency maintains its OMB-approved estimates of the total number of CMV drivers subject to the HOS rules, and the total number of CMV drivers subject to an Agency remedial HOS directive.

By this notice, the Agency seeks public comment on its revised estimate of the paperwork burden of the HOS rules.

Title: Hours of Service (HOS) of Drivers Regulations.

OMB Control Number: 2126-0001.

Type of Request: Revision and extension of a currently-approved information collection.

Respondents: Motor Carriers, Drivers of CMVs.

Estimated Annual Respondents: 4.93 million [4.60 million drivers + 0.33 million active motor carriers = 4.93 million respondents].

Estimated Time per Response: A driver employing a paper RODS takes an average of 6.5 minutes to complete it; a driver employing an EOBR takes an average of 2 minutes to complete it. A driver takes an average of 5 minutes to forward a paper RODS to the motor carrier; a driver employing an EOBR is relieved of this task by automation. Whether using a paper or EOBR RODS, a motor carrier takes 2 minutes to review a RODS and its corresponding supporting documents, and 1 additional minute to maintain those supporting documents. For those motor carriers using an EOBR, the ICR burden of maintaining the RODS is eliminated by automation; for those motor carriers using paper RODS, 1 minute is required to maintain the RODS.

Expiration Date: 8/31/2011.

Estimated Frequency of Response:

Drivers: 240 days per year, on average.

Motor Carriers: 240 days per year, on average.

Estimated Annual Responses: 3,843.59 million—the sum of the following:

A. Driver Tasks

(1) Filling out the RODS: 1,104 million, and

(2) Forwarding the RODS to the motor carrier: 102.23 million.

B. Motor Carrier Tasks

(1) Reviewing the RODS: 552 million,

(2) Maintaining the RODS: 981.36 million, and

(3) Maintaining the supporting documents: 1,104 million.

Estimated Total Annual Burden: 172.08 million burden hours [118.92

million driver hours + 53.16 million carrier hours = 172.08].

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the performance of FMCSA's functions; (2) the accuracy of the estimated burden; (3) ways for the FMCSA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized without reducing the quality of the information collected. The Agency will summarize or include your comments in the request for OMB's clearance of this ICR.

Transportation, 1200 New Jersey Avenue, SE., Washington, DC 20590, (202) 385-2395, mcsac@dot.gov.

SUPPLEMENTARY INFORMATION:

I. Background

MCSAC

Section 4144 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) (Pub. L. 109-59, 119 Stat. 1144, August 10, 2005) required the Secretary of Transportation to establish a Motor Carrier Safety Advisory Committee. The committee provides advice and recommendations to the FMCSA Administrator on motor carrier safety programs and regulations, and operates in accordance with the Federal Advisory Committee Act (5 U.S.C. App 2).

Patterns of Safety Violations Task

SAFETEA-LU Section 4133 allows the Secretary to suspend, amend, or revoke any part of a motor carrier's registration if the Secretary finds that an officer of a motor carrier engages, or has engaged, in a pattern or practice of avoiding compliance, or masking or otherwise concealing noncompliance, with the Federal Motor Carrier Safety Regulations and Hazardous Materials Regulations, while serving as an officer of any motor carrier. The section defines an officer as "an owner, director, chief executive officer, chief financial officer, safety director, vehicle maintenance supervisor, and driver supervisor of a motor carrier, regardless of title attached to these functions, and any person, however designated, exercising controlling influence over the operations of a motor carrier." Following deliberations of the Committee, the MCSAC will submit written recommendations in the form of a report to the FMCSA Administrator on this topic following its June 2011 meeting.

Roadside Violation Severity Weightings Task

FMCSA's new compliance and enforcement program, Compliance, Safety, Accountability (CSA), includes a new measurement system to assess carriers' safety performance. One of the core purposes of the CSMS is to identify poor motor carrier safety behavior. Building upon FMCSA's previous Safety Status Measurement System (SafeStat), CSMS quantifies the on-road safety performance of carriers to identify candidates for interventions, determine the specific safety problems exhibited by a carrier and its drivers, and monitor whether safety problems are improving or worsening. FMCSA requests that

MCSAC provide the CSA team with its observations and recommendations regarding the violation groups and their associated crash risk by reviewing the tables of violation groups. The Committee will designate a subcommittee to address this task and subsequently report back to the full MCSAC.

Long-Haul Cross Border Trucking Pilot Program Task

During the MCSAC's March 2011 meeting, FMCSA tasked the Committee with designating a subcommittee to provide independent monitoring for the program. The subcommittee would then report back to the full committee.

II. Meeting Participation

Oral comments from the public will be heard during the last hour of each day of this meeting. Members of the public may submit written comments on this topic by Wednesday, June 15, 2011, to Federal Docket Management System (FDMS) Docket Number FMCSA-2006-26367 using any of the following methods:
