Amend Registrations to Terminate Certain Uses

Under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, EPA is issuing a Notice of Withdrawal/Vacation of Order to Amend Registrations To Terminate Certain Uses in accordance with section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. EPA is issuing a notice of receipt of requests for amendments by registrants to terminate uses in certain pesticide registrations. Section 6(f)(1) of FIFRA provides that, before acting on the requests, EPA must publish a notice of receipt of any request in the Federal Register. The Agency is also issuing a Notice of Withdrawal/Vacation of the “2-(Hydroxymethyl)-2-nitro-1,3-propanediol (Tris Nitro) Order to Amend Registrations to Terminate Certain Uses” published in the Federal Register on September 22, 2010 (75 FR 57780). The Final Order dated September 22, 2010 was issued in error and EPA is withdrawing/vacating that Order.

The terminations are effective July 8, 2011, unless the Agency receives a written withdrawal request on or before July 8, 2011. The Agency will consider a withdrawal request postmarked no later than July 8, 2011. Users of these products who desire continued use on crops or sites being terminated should contact the applicable registrant on or before July 8, 2011.

II. What action is the agency taking?

This notice announces receipt by the Agency of requests for amendments from a registrant to terminate uses in certain pesticide registrations. These registrations are listed in Table 1 of this unit by registration number, product name, active ingredient, and specific uses requested to be terminated.

In this Federal Register Notice, the Agency is also issuing a Notice of Withdrawal/Vacation of the “2-(Hydroxymethyl)-2-nitro-1,3-propanediol (tris nitro) Order to Amend Registrations to Terminate Certain Uses” published in the Federal Register on September 22, 2010 (75 FR 57780). In letters dated November 19, 2009, Dow Chemical Company requested to amend to terminate certain uses of its affected Tris Nitro pesticide product registrations. On June 23, 2010 (75 FR 35807), the Agency published a Federal Register Notice announcing receipt of the requests from the registrant to amend to terminate certain uses. After a 30-day comment period in which no comments were received, the Agency published the “2-(Hydroxymethyl)-2-nitro-1,3-propanediol (Tris Nitro); Order to Amend Registrations to Terminate Certain Uses” in the Federal Register on September 22, 2010. However, a letter from Dow Chemical Company dated February 25, 2010 requesting to officially withdraw the use termination requests was not processed in a timely manner; therefore, the September 22, 2010 Order, which included all uses listed in Table 1 of this unit in addition to use in or on livestock and poultry premises, was issued in error. In this Federal Register notice, the September 22, 2010 Order is being withdrawn/vacated by the Agency.

Users of these products who desire continued use on crops or sites being terminated should contact the applicable registrant before July 8, 2011, to discuss withdrawal of the application for amendment. This 30-day period will also permit interested members of the public to intercede with registrants prior to the Agency’s approval of the terminations.

Table 2 of this unit includes the name and address of record for the registrant of the products listed in Table 1 of this unit, in sequence by EPA company number.

III. What is the agency’s authority for taking this action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be amended to terminate one or more uses. The FIFRA further provides that, before acting on the requests, EPA must publish a notice of receipt of any such requests in the Federal Register. Thereafter, the Administrator may approve such requests.

FIFRA section 6(f)(1)(C) requires that EPA provide a 180-day comment period on a request for voluntary cancellation or termination of any minor agricultural use before granting the request, unless:

1. The registrant requests a waiver of the comment period, or
2. The EPA Administrator determines that continued use of the pesticide would pose an unreasonable adverse effect on the environment.

The 2-(hydroxymethyl)-2-nitro-1,3-propanediol (tris nitro) registrant has requested that EPA waive the 180-day comment period. Accordingly, EPA will provide a 30-day comment period on the requests to amend to terminate uses.

IV. Procedures for Withdrawal of Requests

Any registrant who chooses to withdraw a request for use termination must submit the withdrawal in writing to Rebecca von dem Hagen using the methods in ADDRESSES. The Agency will consider written withdrawal requests postmarked no later than July 8, 2011.

V. Provisions for Disposition of Existing Stocks

If the requests for amendments to terminate uses are granted, the Agency will publish a cancellation order in the Federal Register. As part of any cancellation order, the Agency would expect to authorize the registrant to sell or distribute product under the previously approved labeling for a period of 18 months after the effective date of the use terminations, unless other restrictions have been imposed, as in special review actions.

List of Subjects

Environmental protection, Pesticides and pests, Antimicrobials, 2-(hydroxyethyl)-2-nitro-1,3-propanediol, Tris Nitro.

Dated: May 26, 2011.

Joan Harrigan-Farrelly,
Director, Antimicrobials Division, Office of Pesticide Programs.

FEDERAL COMMUNICATIONS COMMISSION

Information Collections Being Submitted for Review and Approval to the Office of Management and Budget

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995. Comments are requested concerning: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission’s burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and (e) ways to further reduce the information collection burden for small business concerns with fewer than 25 employees.
