air quality and element (4), interference with any other state’s required measures to protect visibility, in a separate action. EPA will also take action on the portion of Oregon’s SIP that addresses the 2006 PM$_2.5$ NAAQS and the 2008 8-hour ozone NAAQS in a separate action.

V. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA’s role is to approve state choices, provided that they meet the criteria of the Clean Air Act.

Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a “significant regulatory action” subject to review by the Office of Management and Budget under Executive Order 12898 (59 FR 7629, February 16, 1994).
- Is not an economically significant regulatory action based on health or environmental effects, using appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).
- Is not a significant regulatory action subject to Executive Order 13045 (62 FR 8885, April 23, 1997).
- Is not a significant regulatory action subject to Executive Order 13132 (64 FR 43255, August 10, 1999).
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 8885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001); and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this rule does not have Tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on Tribal governments or preempt Tribal law.

The Congressional Review Act, 5 U.S.C. 801 et seq., as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the Federal Register. A major rule cannot take effect until 60 days after it is published in the Federal Register.

This action is not a “major rule” as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by August 8, 2011. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Carbon monoxide, Incorporation by reference, Intergovernmental relations, Lead, Nitrogen dioxide, Ozone, Particulate matter, Reporting and recordkeeping requirements, Sulfur oxides, Volatile organic compounds.

Dated: May 27, 2011.
Michelle L. Pirzadeh,
Acting Regional Administrator Region 10.

Chapter I, title 40 of the Code of Federal Regulations is amended as follows:

PART 52—[AMENDED]

1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 et seq.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

Approval and Promulgation of Implementation Plans; ID

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is approving revisions to the Idaho State Implementation Plan (SIP) that were submitted to EPA by the State of Idaho on April 16, 2007. This SIP submittal includes new and revised rules which provide the Idaho Department of Environmental Quality (IDEQ) the regulatory authority to address regional haze and to implement Best Available Retrofit Technology (BART) requirements.

DATES: This action is effective on July 11, 2011.

ADDRESSES: EPA has established a docket for this action under Docket Identification No. EPA–R10–OAR–2007–0406. All documents in the docket are listed on the http://www.regulations.gov Web site. Although listed in the index, some information may not be publicly available, i.e., Confidential Business Information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through http://
Supplementary Information:
Throughout this document, wherever “we,” “us,” or “our” is used, we mean the EPA.

Information is organized as follows:

Table of Contents
I. Background
II. Public Comments on the Proposed Action
III. Final Action
IV. Limitations in Indian Country
V. Statutory and Executive Order Reviews

I. Background

On January 5, 2011, EPA published in the Federal Register, a proposal to approve new and revised Idaho administrative rules:

IDAPA58.01.01.006.04.a,b,c; 006.14.a through z; 006.16; 006.28; 006.42; 006.63.d; 006.65; 006.67; 006.81; 006.91; 006.92.b; 006.99; 006.101.b; 006.124; 006.125; 007.02a.iv; 007.02.d; 651; 665; 666; 667; and 668. These rules provide the Idaho Department of Environmental Quality (IDEQ) the regulatory authority to address regional haze and to implement BestAvailable Retrofit Technology (BART) requirements. See 76 FR 508. Included in Idaho’s SIP revision submittal were several other visibility-related rule revisions which are not specifically related to regional haze or BART requirements. One revision related to open burning is not being addressed in this action because it was superseded by a subsequent SIP revision on May 28, 2008, which was approved in a separate rulemaking on August 1, 2008. Other revisions related to permitting are not being addressed in this action because they were superseded by subsequent SIP revisions which were approved in a separate revision related to open burning.

Rule revisions were submitted in accordance with the requirements of section 110 and part D of the Clean Air Act.

II. Public Comments on the Proposed Action

EPA provided a 30-day review and comment period and solicited comments on our proposal published in the January 5, 2011, Federal Register (76 FR 508). EPA received no comments on this proposed action.

III. Final Action

Pursuant to section 110 of the CAA, EPA is approving as a SIP revision Idaho rules: IDAPA58.01.01.006.04.a,b,c; 006.14.a through z; 006.16; 006.28; 006.42; 006.63.d; 006.65; 006.67; 006.81; 006.91; 006.92.b; 006.99; 006.101.b; 006.124; 006.125; 007.02a.iv; 007.02.d; 651; 665; 666; 667; and 668, that provide the State of Idaho authority to impose the BART provisions of 40 CFR 51.308(e). These revisions are described in detail in EAA’s proposed action, published in the Federal Register on January 5, 2011, (76 FR 508).

IV. Limitations in Indian Country

Idaho has not demonstrated authority to implement and enforce IDAPA chapter 58 within “Indian Country” as defined in 18 U.S.C. 1151. Therefore, this SIP approval does not extend to “Indian Country” in Idaho. See CAA section 110(a)(2)(A) (SIP shall include enforceable emission limits), 110(a)(2)(E) (State must have adequate authority under State law to carry out SIP), and 172(c)(6) (nonattainment SIPs shall include enforceable emission limits). This is consistent with EPA’s previous approval of Idaho’s SIP revisions, in which EPA specifically disapproved the program for sources within Indian Reservations in Idaho because the State had not shown it had authority to regulate such sources. See 40 CFR 52.683(b). It is also consistent with EPA’s approval of Idaho’s title V air operating permits program.

See 61 FR 64622, 64623 (December 6, 1996) (interim approval does not extend to Indian Country); 66 FR 50574, 50575 (April 10, 2001) (full approval does not extend to Indian Country).

V. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a).

Thus, in reviewing SIP submissions, EPA’s role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

• Is not a “significant regulatory action” subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
• Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 et seq.);
• Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.);
• Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
• Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
• Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
• Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
• Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
• Does not provide the EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this rule does not have Tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000) (full approval does not extend to Indian country located in the state, and the EPA notes...
that it will not impose substantial direct costs on Tribal governments or preempt
Tribal law.

The Congressional Review Act, 5 U.S.C. 801 et seq., as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides
that before a rule may take effect, the agency promulgating the rule must
submit a rule report, which includes a copy of the rule, to each House of the
Congress and to the Comptroller General of the United States. The EPA will
submit a report containing this action and other required information to the
U.S. Senate, the U.S. House of Representatives, and the Comptroller
General of the United States prior to publication of the rule in the Federal
Register. A major rule cannot take effect until 60 days after it is published in the
Federal Register. This action is not a
"major rule" as defined by 5 U.S.C.
804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this
action must be filed in the United States Court of Appeals for the appropriate
circuit by August 8, 2011. Filing a
petition for reconsideration by the Administrator of this final rule does not
affect the finality of this action for the purposes of judicial review nor does it
extend the time within which a petition for judicial review may be filed, and
shall not postpone the effectiveness of such rule or action. This action may not
be challenged later in proceedings to enforce its requirements. (See section
307(b)(2).)

List of Subjects in 40 CFR Part 52

Environmental protection, Air
pollution control, Incorporation by
reference, Intergovernmental relations,
and Reporting and recordkeeping
requirements.

Dated: May, 25, 2011.

Dennis J. McLerran,
Regional Administrator, Region 10.

40 CFR part 52 is amended as follows:

PART 52—[AMENDED]

1. The authority citation for Part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 et seq.

Subpart N—Idaho

2. In §52.670(c), the table in paragraph (c) is amended:

a. By revising entries 006 and 007.

b. By revising entry 651.

c. By adding entries 665 through 668.

§52.670 Identification of plan.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Parts 2, 80 and 90

[WT Docket No. 04–344; FCC 11–80]

Maritime Communications

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: In this document, the Federal Communications Commission
Commission or FCC) denies a petition for reconsideration of the period in
which inland VPCSA incumbents must vacate Channel 87B, and declines to
extend this period generally to non-AIS operations because such an extension
would undermine the primary goal of this proceeding. Further, the
Commission determines that rechannelizing the VPC frequency band
