Federal Railroad Administration
[Docket Number FRA–2006–24647]

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), this document provides the public notice that by a document dated April 11, 2011, the Hoosier Valley Railroad Museum, Inc. (HVRM) has petitioned the Federal Railroad Administration (FRA) for a waiver of compliance with certain provisions of the Federal railroad safety regulations contained at 49 CFR Part 219. FRA assigned the petition Docket Number FRA–2006–24647.

HVRM requests that its existing waiver dated October 23, 2006, be extended. The existing waiver grants relief from the requirements of Control of Alcohol and Drug Use, 49 CFR Part 219 Subparts D through J, which require a railroad to conduct reasonable suspicion alcohol and/or drug testing, pre-employment drug testing, random alcohol and drug testing, and to have voluntary referral and co-worker report policies, and which also specify drug and alcohol testing procedures and recordkeeping requirements.

In addition, HVRM seeks a modification to the existing waiver’s Condition Number 1 to extend their tourist train’s operation 0.4 miles west from the LaCrosse wye at Milepost (MP) 223 to MP 223.4 (Wade) to the site of a former C&O cabin; and to extend their tourist train’s operation 6.1 miles north from the LaCrosse wye at MP 223 to MP 6.1 (South Thomaston) to a pumpkin patch pasture-picnic area. HVRM tourist trains would occasionally operate the additional 0.4 miles to Wade and the additional 6.1 miles to South Thomaston.

HVRM has less than 16 hours of service employees, and presently operates tourist trains on 10 miles of the 33 miles of track owned by the Incorporated Town of North Judson, Indiana between North Judson and LaCrosse, IN. The Chesapeake & Indiana Railroad (CKIN) conducts freight operations on 23 miles of this 33-mile rail line; and presently the only common track use is the wye track in LaCrosse. HVRM’s tourist train operations are normally conducted on weekends and would not operate at the same time as CKIN freight trains. The new petition states that the modifications requested above would follow the existing protocols such as good communication between HVRM and CKIN prior to the occasional weekend visits to the sites of Wade at MP 223.4 and/or South Thomaston at MP 6.1. CKIN maintains the involved trackage to Class I track conditions and the operation of trains is under Yard Limit Rules with good visibility conditions. The new petition states that HVRM operates on specific dates and times and communicates with CKIN with its schedules to avoid conflicts.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at http://www.regulations.gov and in person at the Department of Transportation’s Docket Operations Facility, 1200 New Jersey Ave., SE., W12–140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted by any of the following methods:

• Hand Delivery: 1200 New Jersey Avenue, SE., Room W12–140, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

Communications received by August 15, 2011 will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable.

SUPPLEMENTARY INFORMATION:

Title: Consumer Financial Protection Bureau Consumer Response Intake Fields.

OMB Control Number: New.

Abstract: The Dodd-Frank Wall Street Reform and Consumer Protection Act, Public Law 111–203, Title X, established the CFPB. Among the CFPB’s functions is to facilitate the centralized collection of, monitoring of, and response to complaints concerning consumer financial products and services. In order to collect data about the consumer financial market and facilitate the appropriate routing of, handling of, and response to complaints, questions, and other information concerning consumer financial products and services, the CFPB is developing online and paper intake methods which will have fields for persons to complete. The forms will help document information such as the type of contact; the substance of the complaint, question, or other information; contact information for the person making the contact and/or related persons; information about any subject incident and institution; and identifying information about the consumer or consumer’s household.

Type of Review: New collection.

Affected Public: Individuals and households with questions, complaints, and other information about consumer financial products and services.

Estimated Number of Respondents: Approximately 1–3 million per year.

The CFPB’s intake of complaints, questions, and other information relating to consumer financial products and services is a new collection that may centralize intake now performed by existing agencies. As such, the projections of the number of respondents have a high level of uncertainty.

Estimated Average Time per Respondent: 7 to 10 minutes per response. The time to complete the form will depend on the nature of the contact and the intake method. Simple feedback may take as little as a few minutes to complete while more complicated complaints could take longer to describe.

Estimated Total Annual Burden: Approximately 387,500 burden hours.

Treasury Department PRA Clearance Officer: Robert Dahl, Department of the Treasury, Room 11000, 1750 Pennsylvania Avenue, NW., Washington, DC 20220.

Robert Dahl,
