Needs and Uses: The Census Bureau requests continued OMB approval for the BC–170A, BC–170B, and the BC–170D, Census Employment Inquiry. We are also requesting minor modifications to the data collected. The BC–170 is used to collect information such as personal data and work experience from job applicants. Selecting officials review the information shown on the form to determine the best qualified applicants to fill Census jobs. The BC–170 is completed by job applicants before or at the time they are tested. Selecting officials will review the information shown on the form and determine the applicant’s employment suitability. Failure to collect this information could result in the hiring of unsuitable and/or unqualified workers.

The BC–170 is used throughout the census and intercensal periods for the special census, pretests, and dress rehearsals for short-term time limited appointments. Applicants completing the form BC–170D for a census related position are applying for temporary jobs in office and field positions (clerks, enumerators, crew leaders, supervisors). In addition, as an option to the OF–612, Optional Application for Federal Employment, the BC–170A may be used when applying for temporary/ permanent office and field positions (clerks, field representatives, supervisors) on a recurring survey in one of the Census Bureau’s 12 Regional Offices (ROs) throughout the United States. The Form BC–170B is used for special censuses for temporary field positions (enumerators).

The use of this form is limited to only situations which require the establishment of a temporary office and/or involve special, one-time or recurring survey operations at one of the ROs. In preparation for the next decennial census, the BC–170 is intended to expedite hiring and selection in situations requiring large numbers of temporary employees for assignments of a limited duration. The form has been demonstrated to meet our recruitment needs for temporary workers and requires significantly less burden than the Office of Personnel Management (OPM) Optional Forms that are available for use by the public when applying for Federal positions.

The form has been slightly modified for specific usage by each of the three areas of usage. The variation of forms by operation is to collect specific data needed based on the nature of the operation. The area of difference relates to the collection of work history. A cover sheet is attached to each respective BC–170 to provide applicants with a brief description of their prospective job duties with the Census Bureau; the cover sheet message will vary for decennial, special censuses, or recurring survey positions.

Affected Public: Individuals.

Frequency: One time.

Respondent’s Obligation: Required to obtain benefits.

Legal Authority: Title 13 U.S.C. 23a and c.

Background

Each year during the anniversary month of the publication of an antidumping or countervailing duty order, finding, or suspension of investigation, an interested party, as defined in section 771(9) of the Tariff Act of 1930, as amended (“the Act”), may request, in accordance with 19 CFR 351.215 of the Department of Commerce (“the Department”) regulations, that the Department conduct an administrative review of that antidumping or countervailing duty order, finding, or suspended investigation.

All deadlines for the submission of comments or actions by the Department discussed below refer to the number of calendar days from the applicable starting date.

Respondent Selection

In the event the Department limits the number of respondents for individual examination for administrative reviews initiated pursuant to requests made for the orders identified below, the Department intends to select respondents based on U.S. Customs and Border Protection (“CBP”) data for U.S. imports during the period of review. We intend to release the CBP data under Administrative Protective Order (“APO”) to all parties having an APO within five days of publication of the initiation notice and to make our decision regarding respondent selection within 21 days of publication of the initiation Federal Register notice. Therefore, we encourage all parties interested in commenting on respondent selection to submit their APO applications on the date of publication of the initiation notice, or as soon thereafter as possible. The Department invites comments regarding the CBP data and respondent selection within five days of placement of the CBP data on the record of the review.

In the event the Department decides it is necessary to limit individual examination of respondents and conduct respondent selection under section 777A(c)(2) of the Act:

In general, the Department has found that determinations concerning whether particular companies should be “collapsed” (i.e., treated as a single entity for purposes of calculating antidumping duty rates) require a substantial amount of detailed information and analysis, which often require follow-up questions and analysis. Accordingly, the Department will not conduct collapsing analyses at the respondent selection phase of this review and will not collapse companies at the respondent selection phase unless there has been a determination to collapse certain companies in a previous segment of this antidumping proceeding (i.e., investigation, administrative review, new shipper review or changed circumstances review). For any company subject to this review, if the Department determined, or continued to treat, that company as collapsed with others, the Department will assume that such companies continue to operate in the same manner and will collapse them for respondent selection purposes. Otherwise, the Department will not-collapse companies for purposes of respondent selection. Parties are requested to (a) Identify which companies subject to review previously were collapsed, and (b) provide a citation to the proceeding in which they were collapsed. Further, if companies are requested to complete the Quantity and Value Questionnaire for purposes of respondent selection, in general each company must report volume and value data separately for itself. Parties should not include data for any other party, even if they believe they should be treated as a single entity with that other party. If a company was collapsed with another company or companies in the most recently completed segment of this proceeding where the Department considered collapsing that entity, complete quantity and value data for that collapsed entity must be submitted.

Opportunity To Request a Review: Not later than the last day of July 2011,1 interested parties may request administrative review of the following orders, findings, or suspended investigations, with anniversary dates in July for the following periods:

---

1 Or the next business day, if the deadline falls on a weekend, Federal holiday or any other day when the Department is closed.
