Department Regulatory Agenda; Semiannual Summary**AGENCY:** Office of the Secretary, DOT.**ACTION:** Semiannual regulatory agenda.

SUMMARY: The regulatory agenda is a semiannual summary of all current and projected rulemakings, reviews of existing regulations, and completed actions of the Department. The agenda provides the public with information about the Department of Transportation's regulatory activity. It is expected that this information will enable the public to be more aware of and allow it to more effectively participate in the Department's regulatory activity. The public is also invited to submit comments on any aspect of this agenda.

FOR FURTHER INFORMATION CONTACT:**General**

You should direct all comments and inquiries on the agenda in general to Neil R. Eisner, Assistant General Counsel for Regulation and Enforcement, Department of Transportation, 1200 New Jersey Avenue, SE., Washington, DC 20590; (202) 366–4723.

Specific

You should direct all comments and inquiries on particular items in the agenda to the individual listed for the regulation or the general rulemaking contact person for the operating administration in Appendix B. Individuals who use a telecommunications device for the deaf (TDD) may call (202) 755–7687.

SUPPLEMENTARY INFORMATION:**Background**

Improvement of our regulations is a prime goal of the Department of Transportation (Department or DOT). Our regulations should be clear, simple, timely, fair, reasonable, and necessary. They should not be issued without appropriate involvement of the public; once issued, they should be periodically reviewed and revised, as needed, to assure that they continue to meet the needs for which they originally were designed. To view additional information about the Department of Transportation's regulatory activities online, go to <http://regs.dot.gov>. Among other things, this website provides a report, updated monthly, on the status of the DOT significant rulemakings listed in the semi-annual Agenda.

To help the Department achieve these goals and in accordance with Executive Order (EO) 12866, "Regulatory Planning and Review," (58 FR 51735; Oct 4, 1993) and the Department's Regulatory Policies and Procedures (44 FR 11034; Feb 26, 1979), the Department prepares a semiannual regulatory agenda. It summarizes all current and projected rulemaking, reviews of existing regulations, and completed actions of the Department. These are matters on which action has begun or is projected during the succeeding 12 months or such longer period as may be anticipated or for which action has been completed since the last agenda.

The agendas are based on reports submitted by the offices initiating the rulemaking and are reviewed by the Department Regulations Council. The Department's last agenda was published in the **Federal Register** on December 20, 2010 (75 FR 79812). The next one is scheduled for publication in the **Federal Register** in fall 2011.

The Internet is the basic means for disseminating the Unified Agenda. The complete Unified Agenda is available online at www.reginfo.gov, in a format that offers users a greatly enhanced ability to obtain information from the Agenda database.

Because publication in the **Federal Register** is mandated for the regulatory flexibility agendas required by the Regulatory Flexibility Act (5 U.S.C. 602), DOT's printed agenda entries include only:

1. The Agency's agenda preamble;

2. Rules that are in the Agency's regulatory flexibility agenda, in accordance with the Regulatory Flexibility Act, because they are likely to have a significant economic impact on a substantial number of small entities; and

3. Any rules that the Agency has identified for periodic review under section 610 of the Regulatory Flexibility Act.

Printing of these entries is limited to fields that contain information required by the Regulatory Flexibility Act's Agenda requirements. These elements are: Sequence Number; Title; Section 610 Review, if applicable; Legal Authority; Abstract; Timetable; Regulatory Flexibility Analysis Required; Agency Contact; and Regulation Identifier Number (RIN). Additional information (for detailed list see section heading "Explanation of Information on the Agenda") on these entries is available in the Unified Agenda published on the Internet.

Significant/Priority Rulemakings

The agenda covers all rules and regulations of the Department. We have classified rules as a DOT agency priority in the agenda if they are, essential, very costly, controversial, or of substantial public interest under our Regulatory Policies and Procedures. All DOT agency priority rulemaking documents are subject to review by the Secretary of Transportation. If the Office of Management and Budget (OMB) decides a rule is subject to its review under Executive Order 12866, we have classified it as significant in the agenda.

Explanation of Information on the Agenda

An Office of Management and Budget memorandum, dated January 21, 2011, requires the format for this agenda.

First, the agenda is divided by initiating offices. Then, the agenda is divided into five categories: (1) Prerule stage, (2) proposed rule stage, (3) final rule stage, (4) long-term actions, and (5) completed actions. For each entry, the agenda provides the following information: (1) its "significance"; (2) a short, descriptive title; (3) its legal basis; (4) the related regulatory citation in the Code of Federal Regulations; (5) any legal deadline and, if so, for what action (e.g., NPRM, final rule); (6) an abstract; (7) a timetable, including the earliest expected date for a decision on whether to take the action; (8) whether the rulemaking will affect small entities and/or levels of government and, if so, which categories; (9) whether a Regulatory Flexibility Act (RFA) analysis is required (for rules that would

have a significant economic impact on a substantial number of small entities); (10) a listing of any analyses an office will prepare or has prepared for the action (with minor exceptions, DOT requires an economic analysis for all its rulemakings); (11) an agency contact office or official who can provide further information; (12) a Regulation Identifier Number (RIN) assigned to identify an individual rulemaking in the agenda and facilitate tracing further action on the issue; (13) whether the action is subject to the Unfunded Mandates Reform Act; (14) whether the action is subject to the Energy Act; and (15) whether the action is major under the congressional review provisions of the Small Business Regulatory Enforcement Fairness Act. If there is information that does not fit in the other categories, it will be included under a separate heading entitled "Additional Information."

For nonsignificant regulations issued routinely and frequently as a part of an established body of technical requirements (such as the Federal Aviation Administration's Airspace Rules), to keep those requirements operationally current, we only include the general category of the regulations, the identity of a contact office or official, and an indication of the expected number of regulations; we do not list individual regulations.

In the "Timetable" column, we use abbreviations to indicate the particular documents being considered. ANPRM stands for Advance Notice of Proposed Rulemaking, SNPRM for Supplemental Notice of Proposed Rulemaking, and NPRM for Notice of Proposed Rulemaking. Listing a future date in this column does not mean we have made a decision to issue a document; it is the earliest date on which we expect to make a decision on whether to issue it. In addition, these dates are based on current schedules. Information received subsequent to the issuance of this agenda could result in a decision not to take regulatory action or in changes to proposed publication dates. For example, the need for further evaluation could result in a later publication date; evidence of a greater need for the regulation could result in an earlier publication date.

Finally, a dot (•) preceding an entry indicates that the entry appears in the agenda for the first time.

Request for Comments

General

Our agenda is intended primarily for the use of the public. Since its inception, we have made modifications

and refinements that we believe provide the public with more helpful information, as well as make the agenda easier to use. We would like you, the public, to make suggestions or comments on how the agenda could be further improved.

Reviews

We also seek your suggestions on which of our existing regulations you believe need to be reviewed to determine whether they should be revised or revoked. We particularly draw your attention to the Department's review plan in Appendix D.

Regulatory Flexibility Act

The Department is especially interested in obtaining information on requirements that have a "significant economic impact on a substantial number of small entities" and, therefore, must be reviewed under the Regulatory Flexibility Act. If you have any suggested regulations, please submit them to us, along with your explanation of why they should be reviewed.

In accordance with the Regulatory Flexibility Act, comments are specifically invited on regulations that we have targeted for review under section 610 of the Act. The phrase (Section 610 Review) appears at the end of the title for these reviews. Please see Appendix D for the Department's section 610 review plans.

Consultation With State, Local, and Tribal Governments

Executive orders 13132 and 13175 require us to develop an accountable process to ensure "meaningful and timely input" by State, local, and tribal officials in the development of regulatory policies that have federalism or tribal implications. These policies are defined in the Executive orders to include regulations that have "substantial direct effects" on States or Indian tribes, on the relationship between the Federal Government and them, or on the distribution of power and responsibilities between the Federal Government and various levels of government or Indian tribes. Therefore, we encourage State and local governments or Indian tribes to provide us with information about how the Department's rulemakings impact them.

Purpose

The Department is publishing this regulatory agenda in the **Federal Register** to share with interested members of the public the Department's preliminary expectations regarding its future regulatory actions. This should enable the public to be more aware of

the Department's regulatory activity and should result in more effective public participation. This publication in the **Federal Register** does not impose any binding obligation on the Department or any of the offices within the Department with regard to any specific item on the agenda. Regulatory action, in addition to the items listed, is not precluded.

Dated: March 28, 2011.

Ray LaHood,

Secretary of Transportation.

Appendix C—Public Rulemaking Dockets

All comments via the Internet are submitted through the Federal Docket Management System (FDMS) at the following address: <http://www.regulations.gov>. The FDMS allows the public to search, view, download, and comment on all Federal agency rulemaking documents in one central online system. The above referenced Internet address also allows the public to sign up to receive notification when certain documents are placed in the dockets.

The public also may review regulatory dockets at, or deliver comments on proposed rulemakings to, the Dockets Office at 1200 New Jersey Avenue SE., Room W12-140, Washington, DC 20590, 1-800-647-5527. Working Hours: 9-5.

Appendix D—Review Plans for Section 610 and Other Requirements

Part I—The Plan

General

The Department of Transportation has long recognized the importance of regularly reviewing its existing regulations to determine whether they need to be revised or revoked. Our 1979 Regulatory Policies and Procedures require such reviews. We also have responsibilities under Executive Order 12866, “Regulatory Planning and Review,” and section 610 of the Regulatory Flexibility Act to conduct such reviews. This includes the use of plain language techniques in new rules and considering its use in existing rules when we have the opportunity and resources to permit its use. We are committed to continuing our reviews of existing rules and, if needed, will initiate rulemaking actions based on these reviews.

As part of its implementation of Executive Order 13563, “Improving Regulation and Regulatory Review,” issued by the President on January 18, 2011, the Department has added another element to its review plans. On February 16, 2011, we published a notice seeking public comments and information from interested parties to assist DOT in improving its methods for reviewing existing rules to determine whether any such regulations should be modified, streamlined, expanded, or repealed and helping us identify any specific, existing rules that may be outmoded, ineffective, insufficient, or excessively burdensome. These new actions are in addition to the other steps described in this Appendix.

Section 610 Review Plan

Section 610 requires that we conduct reviews of rules that (1): Have been published within the last 10 years and, (2) have a “significant economic impact on a substantial number of small entities” (SEIOSNOSE). It also requires that we publish in the **Federal Register** each year a list of any such rules that we will review during the next year. The Office of the Secretary and each of the Department’s Operating Administrations have a 10-year review plan. These reviews comply with section 610 of the Regulatory Flexibility Act.

Other Review Plan(s)

All elements of the Department, except for the Federal Aviation Administration (FAA), have also elected to use this 10-year plan process to comply with the review requirements of the Department’s Regulatory Policies and Procedures and Executive Order 12866.

Changes to the Review Plan

Some reviews may be conducted earlier than scheduled. For example, to the extent resources permit, the plain language reviews will be conducted more quickly. Other events, such as accidents, may result in the need to conduct earlier reviews of some rules. Other factors may also result in the need to make changes; for example, we may make changes in response to public comment on this plan or in response to a Presidentially mandated review. If there is any change to the review plan, we will note the change in the following agenda. For any section 610 review, we will provide the required notice prior to the review.

Part II—The Review Process

The Analysis

Generally, the agencies have divided their rules into 10 different groups and plan to analyze one group each year. For purposes of these reviews, a year will coincide with the fall-to-fall schedule for publication of the agenda. Thus, Year 1 (2008) begins in the fall of 2008 and ends in the fall of 2009; Year 2 (2009) begins in the fall of 2009 and ends in the fall of 2010, and so on. We request public comment on the timing of the reviews. For example, is there a reason for scheduling an analysis and review for a particular rule earlier than we have? Any comments concerning the plan or particular analyses should be submitted to the regulatory contacts listed in Appendix B, General Rulemaking Contact Persons.

Section 610 Review

The Agency will analyze each of the rules in a given year’s group to determine whether any rule has a SEIOSNOSE and, thus, requires review in accordance with section 610 of the Regulatory Flexibility Act. The level of analysis will, of course, depend on the nature of the rule and its applicability. Publication of agencies’ section 610 analyses listed each fall in this agenda provides the public with notice and an opportunity to comment consistent with the requirements of the Regulatory Flexibility Act. We request that public comments be submitted to us early in the analysis year concerning the small entity impact of the rules to help us in making our determinations.

In each fall agenda, the Agency will publish the results of the analyses it has completed during the previous year. For rules that had a negative finding on SEIOSNOSE, we will give a short explanation (e.g., “these rules only establish petition processes that have no cost impact” or “these rules do not apply to any small entities”). For parts, subparts, or other discrete sections of rules that do have a SEIOSNOSE, we will announce that we will be conducting a formal section 610 review during the following 12 months. At this stage, we will add an entry to the Agenda in the prerulemaking section describing the review in more detail. We also will seek public comment on how best to lessen the impact of these rules and provide a name or docket to which public comments can be submitted. In some cases, the section 610 review may be part of another unrelated review of the rule. In such a case, we plan to clearly indicate which parts of the review are being conducted under section 610.

Other Reviews

The Agency will also examine the specified rules to determine whether any other reasons exist for revising or revoking the rule or for rewriting the rule in plain language. In each fall agenda, the Agency will also publish information on the results of the examinations completed during the previous year.

The FAA, in addition to reviewing its rules in accordance with the Section 610 Review Plan, has established a tri-annual process to comply with the review requirements of the Department's Regulatory Policies and Procedures, Executive Order 12866, and Plain Language Review Plan. The FAA's latest review notice was published

November 15, 2007 (72 FR 64170). In that notice, the FAA requested comments from the public to identify those regulations currently in effect that it should amend, remove, or simplify. The FAA also requested the public to provide any specific suggestions where rules could be developed as performance-based rather than prescriptive, and any specific plain language that might be used, and provide suggested language on how those rules should be written. The FAA will review the issues addressed by the commenters against its regulatory agenda and rulemaking program efforts and adjust its regulatory priorities consistent with its statutory responsibilities. At the end of this process, the FAA will publish a

summary and general disposition of comments and indicate, where appropriate, how it will adjust its regulatory priorities.

Part III—List of Pending Section 610 Reviews

The Agenda identifies the pending DOT Section 610 Reviews by inserting "(Section 610 Review)," after the title for the specific entry. For further information on the pending reviews, see the agenda entries at www.reginfo.gov. For example, to obtain a list of all entries that are Section 610 Reviews under the Regulatory Flexibility Act, a user would select the desired responses on the search screen (by selecting "advanced search") and, in effect, generate the desired "index" of reviews.

- 14 CFR part 207—Charter Trips by U.S. Scheduled Air Carriers
- 14 CFR part 208—Charter Trips by U.S. Charter Air Carriers
- 14 CFR part 211—Applications for Permits to Foreign Air Carriers
- 14 CFR part 212—Charter Rules for U.S. and Foreign Direct Air Carriers

Year 2 (fall 2009) List of rules analyzed and a summary of results

- 48 CFR part 1201—Federal Acquisition Regulations System
 - Section 610: There is no SEIOSNOSE.
 - General: This rule prescribes Agency control and compliance procedures concerning the proliferation of acquisition

- regulations and any revisions. M-60's plain language review of this rule indicates minor editorial changes are needed but no need for substantial revision.
- 48 CFR part 1202—Definitions of Words and Terms
 - Section 610: There is no SEIOSNOSE.
 - General: This rule provides definitions of words and terms concerning acquisitions in DOT. M-60's plain language review of this rule indicates no need for substantial revision.
- 48 CFR part 1203—Improper Business Practices and Personal Conflicts of Interest
 - Section 610: There is no SEIOSNOSE.
 - General: This rule provides process for reporting suspected violations of the Gratuities clause. M-60's plain language review of this rule indicates minor editorial changes are needed but no need for substantial revision.
- 48 CFR part 1204—Administrative Matters
 - Section 610: There is no SEIOSNOSE.
 - General: This rule provides

- procedures for closing out contract files and supporting closeout documents. M-60's plain language review of this rule indicates no need for substantial revision.
- 48 CFR part 1205—Publicizing Contract Actions
- Section 610: There is no SEIOSNOSE.
 - General: This rule provides methods of disseminating information. M-60's plain language review of this rule indicates no need for substantial revision.
- 48 CFR part 1206—Competition Requirements
- Section 610: There is no SEIOSNOSE.
 - General: This rule provides information concerning competition advocates. M-60's plain language review of this rule indicates no need for substantial revision.
- 48 CFR part 1207—Acquisition Planning
- Section 610: There is no SEIOSNOSE.
 - General: This rule provides information concerning requirements which will be followed when cost comparisons between Government and Contractor performance are conducted. M-60's plain language review of this rule indicates no need for substantial revision.
- 48 CFR part 1211—Describing Agency Needs
- Section 610: There is no SEIOSNOSE.
 - General: This provides information concerning the need to include, as applicable, safeguards to ensure safety, security, and environmental protection in requirements documents. M-60's plain language review of this rule indicates no need for substantial revision.
- 48 CFR part 1213—Simplified Acquisition Procedures
- Section 610: There is no SEIOSNOSE.
 - General: This provides DOT procedures for acquiring training services. M-60's plain language review of this rule indicates no need for revision.
- 48 CFR part 1214—Sealed Bidding
- Section 610: There is no SEIOSNOSE.
 - General: This rule provides for telegraphic bids to be communicated provided procedures have been established by the COCO. M-60's plain language review of this rule indicates no need for revision.
- 48 CFR part 1215—Contracting By Negotiation
- Section 610: There is no SEIOSNOSE.
 - General: This rule provides information concerning the solicitation and receipt of proposals and information including evaluation. M-60's plain language review of this rule indicates no need for substantial revision.
- 48 CFR part 1216—Types of Contracts
- Section 610: There is no SEIOSNOSE.
 - General: This rule provides information concerning Fixed-Price Contracts, Incentive Contracts, Indefinite-Delivery Contracts, and Time-and-Materials, Labor-Hour, and Letter Contracts. M-60's plain language review of this rule indicates no need for substantial revision.
- 48 CFR part 1217—Special Contracting Methods
- Section 610: There is no SEIOSNOSE.
 - General: This rule provides procedures for fixed price contracts for vessel repair, alteration, or conversion. M-60's plain language review of this rule indicates no need for substantial revision.
- 48 CFR part 1219—Small Business Programs
- Section 610: There is no SEIOSNOSE.
 - General: This rule addresses contracting issues associated with subcontracting with Small Business, Small Disadvantaged Business, and Women-Owned Small Business concerns. It also provides some discussion of small business competitiveness demonstration program.
- 48 CFR part 1222—Application of Labor Laws to Government Acquisitions
- Section 610: There is no SEIOSNOSE.
 - General: This rule covers aspects of basic labor policies and labor standards. Particular focus is directed to labor standards involving construction.
- 48 CFR part 1223—Environment, Energy and Water Efficiency, Renewable Energy Technologies, Occupational Safety, and Drug-Free Workplace

Section 610 Review Plan

The FAA has elected to use the two-step, two-year process used by most DOT modes in past plans. As such, the FAA has divided its rules into 10 groups as displayed in the table below. During the first year (the “analysis year”), all rules published during the previous 10 years within a 10% block of the regulations will be analyzed to identify those with a SEIOSNOSE. During the second year (the “review year”), each rule identified in the analysis year as having a SEIOSNOSE will be reviewed in accordance with Section 610(b) to determine if it should be continued without change or changed to minimize impact on small entities. Results of those reviews will be published in the DOT Semiannual Regulatory Agenda.

Year 3 (fall 2010) List of rules analyzed and summary of results

- 14 CFR part 141—Pilot Schools
 - Section 610: The agency conducted a Section 610 review of this part and found no SEIOSNOSE.
 - General: No changes are needed. These regulations are cost effective and impose the least burden. FAA’s plain language review of these rules indicates no need for substantial revision.
- 14 CFR part 142—Training Centers
 - Section 610: The agency conducted a Section 610 review of this part and found no SEIOSNOSE.
 - General: No changes are needed. These regulations are cost effective and impose the least burden. FAA’s plain language review of these rules indicates no need for substantial revision.
- 14 CFR part 145—Repair Stations

- Section 610: The agency conducted a Section 610 review of this part and found no SEIOSNOSE.
- General: No changes are needed. These regulations are cost effective and impose the least burden. FAA’s plain language review of these rules indicates no need for substantial revision.
- 14 CFR part 147—Aviation Maintenance Technician Schools
 - Section 610: The agency conducted a Section 610 review of this part and found no SEIOSNOSE.
 - General: No changes are needed. These regulations are cost effective and impose the least burden. FAA’s plain language review of these rules indicates no need for substantial revision.
- 14 CFR part 170—Establishment and Discontinuance Criteria for Air

- Traffic Control Services and Navigational Facilities
 - Section 610: The agency conducted a Section 610 review of this part and found no SEIOSNOSE.
 - General: No changes are needed. These regulations are cost effective and impose the least burden. FAA’s plain language review of these rules indicates no need for substantial revision.
- 14 CFR part 171—Non-Federal Navigation Facilities
 - Section 610: The agency conducted a Section 610 review of this part and found no SEIOSNOSE.
 - General: No changes are needed. These regulations are cost effective and impose the least burden. FAA’s plain language review of these rules indicates no need for substantial revision.
- 14 CFR part 183—Representatives of the Administrator
 - Section 610: The agency conducted a Section 610 review of this part and found no SEIOSNOSE.

- General: No changes are needed. These regulations are cost effective and impose the least burden. FAA’s plain language review of these rules indicates no need for substantial revision.
- 14 CFR part 185—Testimony by Employees And Production of Records in Legal Proceedings, and Service of Legal Process and Pleadings
 - Section 610: 14 CFR part 185 does not affect small entities. Therefore, amendments to it cannot have a SEIOSNOSE.
 - General: No changes are needed. These regulations are cost effective and impose the least burden. FAA’s plain language review of these rules indicates no need for substantial revision.
- 14 CFR part 187—Fees
 - Section 610: The agency conducted a Section 610 review of this part and found no SEIOSNOSE.
 - General: No changes are needed. These regulations are cost effective

and impose the least burden. FAA’s plain language review of these rules indicates no need for substantial revision.

Federal-Aid Highway Program

The FHWA has adopted regulations in title 23 of the CFR, chapter I, related to the Federal-Aid Highway Program. These regulations implement and carry out the provisions of Federal law relating to the administration of Federal aid for highways. The primary law authorizing Federal aid for highways is chapter I of title 23 of the U.S.C. section 145 of title 23 expressly provides for a federally assisted State program. For this reason, the regulations adopted by the FHWA in title 23 of the CFR primarily relate to the requirements that States must meet to receive Federal funds for the construction and other work related to highways. Because the regulations in title 23 primarily relate to States, which are not defined as small entities under the Regulatory Flexibility Act, the FHWA believes that its regulations in title 23 do not have a significant economic impact on a

substantial number of small entities. The FHWA solicits public comment on this preliminary conclusion.

Year 2 (fall 2009) List of rules analyzed and a summary of results

- 23 CFR part 1—General
 - Section 610: No SEIOSNOSE. No small entities are affected.
 - General: No changes are needed. These regulations are cost effective and impose the least burden. FHWA’s plain language review of these rules indicates no need for substantial revision.
- 23 CFR part 140—Reimbursement
 - Section 610: No SEIOSNOSE. This section applies primarily to State transportation agencies that are not small entities.
 - General: No changes are needed. These regulations are cost effective and impose the least burden. FHWA’s plain language review of these rules indicates no need for

- substantial revision.
- 23 CFR part 172—Administration of Engineering and Design-Related Service Contracts
 - Section 610: No SEIOSNOSE. This section applies primarily to State transportation agencies that are not small entities.
 - General: No changes are needed. These regulations are cost effective and impose the least burden. FHWA’s plain language review of these rules indicates no need for substantial revision.
- 23 CFR part 180—Credit Assistance for Surface Transportation Projects
 - Section 610: No SEIOSNOSE. This section applies primarily to State transportation agencies that are not small entities.
 - General: No changes are needed. These regulations are cost effective and impose the least burden. FHWA’s plain language review of these rules indicates no need for

- substantial revision.
- 23 CFR part 190—Incentive Payments for Controlling Outdoor Advertising on the Interstate System
 - Section 610: No SEIOSNOSE. This section applies primarily to State transportation agencies that are not small entities.
 - General: No changes are needed. These regulations are cost effective and impose the least burden. FHWA’s plain language review of these rules indicates no need for substantial revision.
- 23 CFR part 192—Drug Offender’s Driver’s License Suspension
 - Section 610: No SEIOSNOSE. This section applies primarily to State transportation agencies that are not small entities.
 - General: No changes are needed. These regulations are cost effective and impose the least burden. FHWA’s plain language review of

- these rules indicates no need for substantial revision.
- 23 CFR part 200—Title VI Program and Related Statutes—Implementation and Review procedures
 - Section 610: No SEIOSNOSE. This section applies primarily to State transportation agencies that are not small entities.
 - General: No changes are needed. These regulations are cost effective and impose the least burden. FHWA’s plain language review of these rules indicates no need for substantial revision.
- 23 CFR part 230—External Programs
 - Section 610: No SEIOSNOSE. Some small entities may be affected, but the economic impact on small entities will not be significant.
 - General: No changes are needed. These regulations are cost effective and impose the least burden. FHWA’s plain language review of

- these rules indicates no need for substantial revision.
- 23 CFR part 260—Education and Training Programs
 - Section 610: No SEIOSNOSE. No small entities are affected.

Year 2 (fall 2009) List of rules analyzed and a summary of results

- 49 CFR part 178—Specifications for Packagings
- Section 610: There is no SEIOSNOSE. A substantial number of small entities, particularly those that use performance oriented packagings, may be affected by this rule, but the economic impact on those entities is not significant.
 - General: This rule prescribes minimum Federal safety standards for the construction of DOT specification packagings, these requirements are necessary to protect transportation workers and the public and to ensure the survivability of DOT specification packagings during transportation incidents. PHMSA’s plain language review of this rule indicates no need for substantial revision.
- 49 CFR part 179—Specifications for Tank Cars
- Section 610: There is no SEIOSNOSE. This rule prescribes

- specification requirements as minimum safety standards for rail tank cars used to transport hazardous materials in commerce. Some small entities may be affected, but the economic impact on small entities is not significant.
- General: Specification requirements for tank cars are considered minimum Federal safety standards that are necessary to protect transportation workers and the public and to ensure the survivability of DOT specification packagings during transportation incidents. PHMSA’s plain language review of this rule indicates no need for substantial revision.
- 49 CFR part 180—Continuing Qualification and Maintenance of Packagings
- Section 610: There is no SEIOSNOSE. This rule impacts a substantial number of small entities, but when the survivability, durability, and service life of DOT specification packagings covered

- under this rule are fully considered, the economic impact on those entities is not significant.
- General: This rule prescribes requirements for maintaining and verifying the integrity of DOT specification packagings used for the transportation of hazardous materials in commerce. This rule ensures that DOT specification packagings continue to conform to the specifications to which they were originally manufactured and designed. PHMSA’s plain language review of this rule indicates no need for substantial revision.

241. +Operation and Certification of Small Unmanned Aircraft Systems (SUAS)

Legal Authority: 49 U.S.C. 44701

Abstract: This rulemaking would enable small unmanned aircraft to safely operate in limited portions of the national airspace system (NAS). This action is necessary because it addresses the novel legal or policy issues about the minimum safety parameters for operating recreational remote control model and toy aircraft in the NAS. The intended effect of this action is to develop requirements and standards to ensure that risks are adequately mitigated, such that safety is maintained for the entire aviation community.

Abstract: This rulemaking would require operators of certain airplanes used in air carrier service and certificated for flight in icing conditions to: 1. enable the flightcrew to determine when the airplane is in large drop icing conditions, and 2. require follow-on flightcrew action in these conditions for certain airplanes with reversible flight controls for the pitch and/or roll axis. This rulemaking is the result of information gathered from a review of icing accidents and incidents, and it is intended to improve the level of safety when airplanes are operated in icing conditions.

Abstract: This rulemaking would require all part 121 air carriers to implement a safety management system (SMS). Congress passed Public Law 111-216 instructing FAA to conduct a rulemaking to require all part 121 air carriers to implement an SMS. The proposed rule must include the following safety management elements: Requirements based on risk management, quality management techniques to develop safety assurance, use of interrelated systems to measure effectiveness of safety measures, and promotion of an organization-wide safety culture. Congress further required that the FAA consider at a minimum

each of the following as part of the SMS rulemaking: (1) An Aviation Safety Action Program (ASAP), (2) A Flight Operational Quality Assurance Program (FOQA), (3) A Line Operations Safety Audit, and (4) An Advance Qualification Program.

248. +Air Ambulance and Commercial Helicopter Operations; Safety Initiatives and Miscellaneous Amendments

Legal Authority: 49 U.S.C. 106(g); 49 U.S.C. 1155; 49 U.S.C. 40101 to 40103; 49 U.S.C. 40120; 49 U.S.C. 41706; 49 U.S.C. 41721; 49 U.S.C. 44101; 49 U.S.C. 44106; 49 U.S.C. 44111; 49 U.S.C. 46306; 49 U.S.C. 46315; 49 U.S.C. 46316; 49 U.S.C. 46504; 49 U.S.C. 46506; 49 U.S.C. 46507; 49 U.S.C. 47122; 49 U.S.C. 47508; 49 U.S.C. 47528 to 47531

Abstract: This rulemaking would change equipment and operating requirements for commercial helicopter operations, including many specifically

for helicopter air ambulance operations. This rulemaking is necessary to increase crew, passenger, and patient safety. The intended effect is to implement National Transportation Safety Board, Aviation Rulemaking Committee, and internal FAA recommendations.

Legal Authority: 49 U.S.C. 106(g); 49 U.S.C. 40113; 49 U.S.C. 40119; 49 U.S.C. 41706; 49 U.S.C. 44101; 49 U.S.C. 44701 to 44702; 49 U.S.C. 44705; 49 U.S.C. 44709 to 44710; 49 U.S.C. 44711; 49 U.S.C. 44712; 49 U.S.C. 44713; 49 U.S.C. 44715; 49 U.S.C. 44716; 49 U.S.C. 44717; 49 U.S.C. 44722; 49 U.S.C. 45101 to 45105; 49 U.S.C. 46105

Abstract: This rulemaking would amend existing flight, duty, and rest regulations applicable to certificate holders and their flightcrew members. The new requirements would eliminate the current distinctions between domestic, flag, and supplemental operations. Also, the rulemaking would provide different requirements based on the time of day, whether an individual is acclimated to a new time zone, and the likelihood of being able to sleep under different circumstances. This rulemaking is necessary to improve aviation safety by providing applicable persons with the opportunity for sufficient rest. This rulemaking is related to the following: an NPRM (RIN 2120-AF63), and a Withdrawal (RIN 2120-AI93).

Legal Authority: Pub. L. 104-88; 109 Stat 803, 888 (1995); 49 U.S.C. 13908; Pub. L. 109-159, sec 4304

Abstract: This rulemaking would replace three current identification and registration systems: the US DOT number identification system, the commercial registration system, and the financial responsibility system, with an online Federal unified registration system (URS). This program would serve as a clearinghouse and depository of information on, and identification of, brokers, freight forwarders, and others required to register with the Department of Transportation. The Agency is revising this rulemaking to address amendments directed by Safe, Accountable, Flexible, Efficient, Transportation Equity Act: A Legacy for Users (SAFETEA-LU). The replacement system for the Single State Registration System, which the ICC Termination Act originally directed be merged under URS, was addressed separately in RIN 2126-AB09. The cargo insurance portion of this rulemaking has been split off into RIN 2126-AB21.

Legal Authority: 49 U.S.C. 31502; 31136(a); Pub. L. 103.311; 49 U.S.C. 31137(a)

Abstract: This rulemaking will consider revisions to RIN 2126-AA89 (Electronic On-Board Recorders for Hours of Service Drivers) to expand the number of motor carriers required to install and operate Electronic On-Board Recorders (EOBRs). FMCSA is consolidating this follow-up to the EOBR rule with the Hours Of Service Of Drivers: Supporting Documents rulemaking for development of a single NPRM in RIN 2126-AB20. In addressing Hours of Service Supporting Documents requirements in this new rulemaking, FMCSA will consider reducing or eliminating current paperwork burdens associated with supporting documents in favor of expanded EOBR use.

On January 15, 2010, the American Trucking Associations (ATA) filed a Petition for a Writ of Mandamus in the United States Court of Appeals for the District of Columbia Circuit (D.C. Cir. No. 10-1009). ATA petitioned the court to direct FMCSA to issue an NPRM on supporting documents in conformance with the requirements set forth in section 113 of the HMTAA within 60 days after the issuance of the writ and a final rule no later than 6 months after the issuance of the NPRM. The court granted the petition for writ of mandamus on September 30, 2010, ordering FMCSA to issue an NPRM on the supporting document regulations by December 30, 2010. At the request of the agency, the DC Circuit extended the deadline to January 31, 2011.

252. +Hours of Service

Legal Authority: 49 U.S.C. 31502(b)

Abstract: This rulemaking would propose changes to the hours of service requirements for drivers operating a commercial motor vehicle transporting property. The requirement for this rulemaking was established on October 26, 2009, when Public Citizen, et al. (Petitioners) and FMCSA entered into a settlement agreement under which Petitioners' petition for judicial review of the November 19, 2008, Final Rule on drivers' hours of service will be held in abeyance pending the publication of an NPRM reevaluating the Hours of Service rule.

Legal Authority: Pub. L. 109-59 (2005), sec 4116

Abstract: This rulemaking would establish training, testing and certification standards for medical examiners responsible for certifying that interstate commercial motor vehicle drivers meet established physical qualifications standards; provide a database (or National Registry) of medical examiners that meet the prescribed standards for use by motor carriers, drivers, and Federal and State enforcement personnel in determining whether a medical examiner is qualified to conduct examinations of interstate truck and bus drivers; and require medical examiners to transmit electronically to FMCSA the name of the driver and a numerical identifier for each driver that is examined. The rulemaking would also establish the process by which medical examiners that fail to meet or maintain the minimum standards would be removed from the National Registry. This action is in response to section 4116 of Safe, Accountable, Flexible, Efficient, Transportation Equity Act: A Legacy for Users (SAFETEA-LU).

Abstract: This rule would implement a safety monitoring system and compliance initiative designed to evaluate the continuing safety fitness of all Mexico-domiciled carriers within 18 months after receiving a provisional Certificate of Registration or provisional authority to operate in the United States. It also would establish suspension and revocation procedures for provisional Certificates of Registration and operating authority, and incorporate criteria to be used by FMCSA in evaluating whether Mexico-domiciled carriers exercise basic safety management controls. The interim rule included requirements that were not proposed in the NPRM but which are necessary to comply with the FY-2002 DOT Appropriations Act. On January 16, 2003, the Ninth Circuit Court of Appeals remanded this rule, along with two other NAFTA-related rules, to the agency, requiring a full environmental impact statement and an analysis required by the Clean Air Act. On June 7, 2004, the Supreme Court reversed the Ninth Circuit and remanded the case, holding that FMCSA is not required to prepare the environmental documents. FMCSA originally planned to publish a final rule by November 28, 2003. FMCSA will determine the next steps to be taken after enactment of any pending legislation authorizing cross border trucking.

Abstract: This rulemaking would establish revisions to the commercial driver's license knowledge and skills testing standards as required by section 4019 of TEA-21, implement fraud detection and prevention initiatives at the State driver licensing agencies as required by the SAFE Port Act of 2006, and establish new minimum Federal standards for States to issue commercial learner's permits (CLPs), based in part on the requirements of section 4122 of Safe, Accountable, Flexible, Efficient, Transportation Equity Act: A Legacy for Users (SAFETEA-LU). In addition to ensuring the applicant has the appropriate knowledge and skills to operate a commercial motor vehicle, this rule would establish the minimum information that must be on the CLP document and the electronic driver's

record. The rule would also establish maximum issuance and renewal periods, establish a minimum age limit, address issues related to a driver's State of Domicile, and incorporate previous regulatory guidance into the Federal regulations. This rulemaking would also address issues raised in the SAFE Port Act.

Abstract: This rulemaking would create a new Federal Motor Vehicle Safety Standard (FMVSS) for reducing occupant ejection. Currently, there are over 52,000 annual ejections in motor vehicle crashes, and over 10,000 ejected fatalities per year. This rulemaking would propose new requirements for reducing occupant ejection through passenger vehicle side windows. The requirement would be an occupant containment requirement on the amount of allowable excursion through passenger vehicle side windows. The Safe, Accountable, Flexible, Efficient, Transportation Equity Act (SAFETEA-LU) requires that "[t]he Secretary shall also initiate a rulemaking proceeding to establish performance standards to

reduce complete and partial ejections of vehicle occupants from outboard seating positions. In formulating the standards the Secretary shall consider various ejection mitigation systems. The Secretary shall issue a final rule under this paragraph no later than October 1, 2009." SAFETEA-LU also requires that, if the Secretary determines that the subject final rule deadline cannot be met, the Secretary shall notify and provide an explanation to the Senate Committee on Commerce, Science and Transportation and the House of Representatives Committee on Energy and Commerce of the delay. On September 24, 2009, the Secretary provided appropriate notification to Congress that the final rule will be delayed until January 31, 2011.
