

RETRIEVABILITY:

Records are retrievable by database management systems software designed to retrieve data elements based upon role-based (e.g., law enforcement or non-law enforcement) user access privileges.

SAFEGUARDS:

The Board has minimized the risk of unauthorized access to the system by establishing a secure environment for exchanging electronic information. Physical access uses a defense in-depth approach restricting access at each layer closest to where the actual system resides. The entire complex is patrolled by security during non-business hours. Physical access to the data system housed within the facility is controlled by a computerized badge-reading system. Multiple levels of security are maintained via dual factor authentication for access using biometrics. The computer system offers a high degree of resistance to tampering and circumvention. This system limits data access to Board and contract staff on a need-to-know basis, and controls individuals' ability to access and alter records within the system. All users of the system of records are given a unique user identification (ID) with personal identifiers, and those user IDs are consistent with the above referenced role-based access privileges to maintain proper security of law enforcement and any other sensitive information. All interactions between the system and the authorized individual users are recorded.

RETENTION AND DISPOSAL:

Board personnel will review records on a periodic basis to determine whether they should be retained or modified. Further, the Board will retain and dispose of these records in accordance with Board Records Control Schedules approved by the National Archives and Records Administration.

SYSTEM MANAGER AND ADDRESS:

Michael Wood, Recovery Accountability and Transparency Board, 1717 Pennsylvania Avenue, NW., Suite 700, Washington, DC 20006.

NOTIFICATION PROCEDURE:

Any individual who wants to know whether this system of records contains a record about him or her acting in a personal capacity, who wants access to such records, or who wants to contest the contents of such records should make a written request to the system manager.

RECORD ACCESS PROCEDURES:

A request for record access shall follow the directions described under Notification Procedure and will be addressed to the system manager at the address listed above. To the extent a portion of this system contains law enforcement records, such records are exempt from this requirement pursuant to 5 U.S.C. 552a(j)(2) and (k)(2). To the extent that such law enforcement records are not subject to exemption, they are subject to access. A determination as to exemption shall be made at the time a request for access is received. Access requests shall be directed to the

System Manager listed above.

CONTESTING RECORDS PROCEDURES:

If you wish to contest a record in the system of records, contact the system manager and identify the record to be changed, identify the corrective action sought, and provide a written justification.

RECORD SOURCE CATEGORIES:

Information may be obtained from recipients and subrecipients (including vendors) of Recovery Act funds or other Federal funds for which the Board has been assigned oversight responsibilities; Federal, state, and local agencies; public-source and/or commercially available materials.

DATES: Comments on this proposed new system of records must be received by the Board on or before September 13, 2011. The Privacy Act, at 5 U.S.C. 552a(e)(11), requires that the public be provided a 30-day period in which to comment on an agency's intended use of information in a system of records. Appendix I to Office of Management and Budget Circular A-130 requires an additional 10-day period, for a total of 40 days, in which to make such comments. The system of records will be effective, as proposed, at the end of the comment period unless the Board determines, upon review of the comments received, that changes should be made. In that event, the Board will publish a revised notice in the **Federal Register**.

ADDRESSES: Comments on the proposed new system of records should be clearly identified as such and may be submitted:
