Adoption of Updated EDGAR Filer Manual

AGENCY: Securities and Exchange Commission.

ACTION: Final rule.

SUMMARY: The Securities and Exchange Commission (the Commission) is adopting revisions to the Electronic Data Gathering, Analysis, and Retrieval System (EDGAR) Filer Manual to reflect updates to the EDGAR system. The revisions are being made primarily to retire the offline EDGARLink tool and the associated templates; to support the electronic filing of submission form types 13H, 13H–A, 13H–Q, 13H–I, 13H–T, 13H–R, for large trader registration, and N–PX–CR, N–PX–FM, N–PX–NT, N–PX–VR and their amendments; to update submission form types N–PX and N–PX/A; to update the OMB information on Forms 3, 4, 5, and 25–NSE; to support minor validation updates for Form N–MFP submissions; and to add four new applicant types to the Form ID. The EDGAR system is scheduled to be upgraded to support this functionality on August 1, 2011. The Filer Manual is also being revised to address changes previously made in EDGAR.

DATES: Effective Date: August 5, 2011. The incorporation by reference of the EDGAR Filer Manual is approved by the Director of the Federal Register as of August 5, 2011.

SUPPLEMENTARY INFORMATION: We are adopting an updated EDGAR Filer Manual, Volume I, Volume II, and Volume III. The Filer Manual describes the technical formatting requirements for the preparation and submission of electronic filings through the EDGAR system. It also describes the requirements for filing using EDGARLink Online, and the Online Forms/XML Web site.

The Filer Manual contains all the technical specifications for filers to submit filings using the EDGAR system. Filers must comply with the applicable provisions of the Filer Manual in order to assure the timely acceptance and processing of filings made in electronic format. Filers may consult the Filer Manual in conjunction with our rules governing mandated electronic filing when preparing documents for electronic submission.

The EDGAR system will be upgraded to Release 11.2 on August 1, 2011 and will retire the offline EDGARLink tool and the associated templates. As communicated in a notice posted on April 26, 2011 on the Information for EDGAR Filers Web page (http://www.sec.gov/info/edgar.shtml), starting August 1, 2011, filings created by the offline tool EDGARLink client or those constructed by filers according to the EDGAR XFDS Technical Specification will no longer be accepted by EDGAR. The EDGARLink Online Application, available from the EDGAR Filing Web site (https://www.edgarfiling.sec.gov/), must be used to file all submissions previously supported by the offline EDGARLink tool. Those filers that use the EDGAR XFDS Technical Specification to create filer-constructed submissions without the use of the EDGARLink tool, and wish to do the same outside of the EDGARLink Online Application, can do so by following the EDGARLink Online XML Technical Specification, available from the Information for EDGAR Filers Web page. New submission form types 13H, 13H–A, 13H–Q, 13H–I, 13H–T, and 13H–R will be added to the EDGAR Filing Web site and will be available for use if the Commission adopts a final rule associated with Proposal Release

2 This is the filer assistance software we provide filers filing on the EDGAR system.

3 See Rule 301 of Regulation S–T (17 CFR 232.301).

4 See Release No. 33–9169 (January 5, 2011) [76 FR 1514] in which we implemented EDGAR Release 10.4. For additional history of Filer Manual rules, please see the cites therein.
No. 34–61908. If adopted by the Commission, the submission form types will be accessible by selecting a “File 13H” link on the EDGAR Filing Web site. These non-public submissions will not be disseminated by EDGAR.

The Commission has proposed rulemaking that would amend Form N–PX so that institutional investment managers would be able to use Form N–PX to report their proxy votes on certain executive compensation matters. For institutional investment managers, new submission form types N–PX–CR, N–PX–NT, N–PX–VR and their amendments will be added on EDGARLink Online for use if the proposed amendments are adopted.

The Commission has also proposed rulemaking that would amend Form N–PX to add a new submission form type N–PX–FM for use by registered management investment companies that include proxy votes of institutional investment managers. New submission form type N–PX–FM will be added to EDGARLink Online for use if the proposed amendments are adopted. Additionally, existing EDGARLink Online submission form types N–PX and N–PX/A, will no longer support co-registrants and can only be filed by registered management investment companies. These amendments will be available to filers on November 1, 2011, or later, pending additional Commission rulemaking related to the amendments to Form N–PX.

The validation rules for submission form type N–MFP and its variants have been updated to require “Item 5” (Name of Administrator) and “Item 6” (Name of Transfer Agent) and to allow “Report Date” to be the last business day of the month or any calendar day of the month after the last business day of the month. Previously, the “Report Date” had to be the last business day of the month. In addition, Form N–MFP submissions will be disseminated 60 calendar days after the last calendar day of the Report Date month. Previously, they were disseminated 60 calendar days after the Report Date listed in the submission.

The OMB expiration date on Forms 3, 4, 5, and 25–NSE will be updated. Forms 3 and 4 will be updated to November 30, 2011; Form 5 will be updated to January 31, 2014; and Form 25–NSE will be updated to January 31, 2012.

The Point-to-Point Protocol transmission method, used to connect to the EDGAR Filing Web site using direct dial lines via modem in case Internet is not available, will be terminated. Filers will use the EDGAR Filing Web site, via the Internet, to submit filings in EDGAR.

Four additional applicant types will be available for the filers to select when completing the Form ID to apply for EDGAR access codes. These additional applicant types are Institutional Investment Manager (Form 13F Filer), Investment Company (or insurance product separate account) or Business Development Company, Large Trader, and Non-Investment Company Applicant under the 1940 Act.

The filer manual is also being revised to address software changes made previously in EDGAR. The updates include addition of new 8–K Item 1.04 (Mine Safety—Reporting of Shutdowns and Patterns of Violations) and addition of new Exhibit 95 (Mine Safety Disclosure Exhibit) for submission form types 10–K, 10–K/A, 10–K, 10–K/A, 10–Q, 10–Q/A, 10–QT, 10–QT/A, 20–F, 20–F/A, 40–F, and 40–F/A/A. The 8–K Item and the Exhibit 95 will be available for use if the Commission adopts a final rule associated with Proposing Release No. 34–63548.

 Filers may upload the required notarized authentication document in PDF when completing the process to “Convert Paper Only Filer to Electronic Filer” from the EDGAR Filer Management Web site (https://www.filer management.edgarfiling.sec.gov).

Because the Commission establishes a company record on EDGAR for approved Broker-Dealer Registration Applications and creates a central index key (CIK) for that company, Broker-dealers, who may be required to file certain forms electronically on EDGAR, should complete the process to “Convert Paper Only Filer to Electronic Filer”, from the EDGAR Filer Management Web site, instead of completing the Form ID (see EDGAR Filer Manual, Volume I, General Information for details). This is because the Form ID should be completed by those for which a CIK has not already been established on EDGAR. Once a Broker-Dealer has completed this process and received the necessary access codes, they will be able to file electronically on EDGAR.

In addition, EDGAR was previously updated to support the US GAAP 2011 Taxonomy. And, Appendix G has been revised to give clearer guidance to Form 13F filers to facilitate the correct preparation, assembling, and submission of these filings. Along with adoption of the Filer Manual, we are amending Rule 301 of Regulation S–T to provide for the incorporation by reference into the Code of Federal Regulations of today’s revisions. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51.

You may obtain paper copies of the updated Filer Manual at the following address: Public Reference Room, U.S. Securities and Exchange Commission, 100 F Street, NE., Room 1543, Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. We will post electronic format copies on the Commission’s Web site; the address for the Filer Manual is http://www.sec.gov/info/edgar.shtml.

Since the Filer Manual relates solely to agency procedures or practice, publication for notice and comment is not required under the Administrative Procedure Act (APA). It follows that the requirements of the Regulatory Flexibility Act do not apply.

The effective date for the updated Filer Manual and the rule amendments is August 5, 2011. In accordance with the APA, we find that there is good cause to establish an effective date less than 30 days after publication of these rules. The EDGAR system upgrade to Release 11.2 is scheduled to become available on August 1, 2011. The Commission believes that establishing an effective date less than 30 days after publication of these rules is necessary to coordinate the effectiveness of the updated Filer Manual with the system upgrade.

33 CFR Part 117
[Docket No. USCG–2011–0598]

Drawbridge Operation Regulations;
Passaic River, Jersey City, NJ

AGENCY: Coast Guard, DHS.

ACTION: Notice of temporary deviation from regulations.

SUMMARY: The Commander, First Coast Guard District, has issued a temporary deviation from the regulation governing the operation of the Route 1 & 9 Bridge across the Passaic River, mile 1.8, at Jersey City, New Jersey. The deviation is necessary to facilitate bridge painting operations at the bridge. This deviation allows the bridge to remain in the closed position for 58 days.

DATES: This deviation is effective from August 1, 2011 through September 27, 2011.

ADDRESSES: Documents mentioned in this preamble as being available in the docket are part of docket USCG–2011–0598 and are available online at http://www.regulations.gov, inserting USCG–2011–0598 in the “Keyword” and then clicking “Search”. They are also available for inspection or copying at the Docket Management Facility (M–30), U.S. Department of Transportation, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue, SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions on this rule, call or e-mail Mr. Joe Arca, Project Officer, First Coast Guard District, joe.m.arca@uscg.mil or telephone (212) 668–7165. If you have questions on viewing the docket, call Renee V. Wright, Program Manager, Docket Operations, telephone 202–366–9826.

SUPPLEMENTARY INFORMATION: The Route 1 & 9 Bridge has a vertical clearance of 40 feet at mean high water, and 45 feet at mean low water in the closed position. The existing drawbridge operating regulations are listed at 33 CFR 117.739(b). The waterway is predominantly used by commercial operators.

On December 13, 2010, the owner of the bridge, New Jersey Department of Transportation, requested a temporary deviation to facilitate bridge painting operations.

On January 27, 2011, the Coast Guard published a temporary deviation (76 FR 4819) from the operation regulations. The temporary deviation allowed the bridge owner to require a two hour advance notice for bridge openings and several closures of short duration to facilitate bridge painting.

As a result of severe winter weather in 2011, the bridge painting project fell behind schedule; therefore, the bridge painting work will not be completed by July 31, 2011, when the first temporary deviation will expire.

We received a request for a second temporary deviation from the bridge owner on June 13, 2011, requesting authorization to allow the bridge to remain in the closed position from August 1, 2011 through September 30, 2011, to facilitate completion of the bridge painting work. We were not able to grant a temporary deviation for the additional 60 days requested because that would exceed the maximum of 180 days allowable for temporary deviations from the operation regulations.

Therefore, under this temporary deviation the bridge may remain in the closed position for 58 days from August 1, 2011 through September 27, 2011, to facilitate completion of the bridge painting work. Vessels able to pass under the closed draw may do so at any time.

The waterway users were advised of the second 58 day temporary deviation necessary to complete the bridge painting. No objections were received.

In accordance with 33 CFR 117.35(e), the bridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Gary Kassof,
Bridge Program Manager, First Coast Guard District.
