SUMMARY: This notice provides public announcement of CDC’s intent to award two awards to eligible applicants of State or Territorial Public Health Newborn Bloodspot Screening Programs. These activities are proposed by the above-mentioned grantees in their FY 2011 applications submitted under funding opportunity CDC–RFA–EH11–001, “Program to Support New Implementation of State or Territorial Public Health Laboratory Capacity for Newborn Bloodspot Screening of Severe Combined Immune Deficiency (SCID) (U01).” Catalog of Federal Domestic Assistance Number (CFDA): 93.070. Approximately $900,000 in funding will be awarded to the grantees for the implementation of newborn screening for SCID.

Accordingly, CDC adds the following information to the previously published funding opportunity announcement of EH11–001:

Authority: Authorized under Section 301 of the Public Health Service Act, [42 U.S.C. 241], as amended.

CFDA #: 93.070 Environmental Public Health Emergency Response.

Statement of Organization, Functions, and Delegations of Authority

Section C–B, Organization and Functions, is hereby amended as follows: After the title and functional statements for the Division of Global Disease Detection and Emergency Response (CWD), insert the following: Global Immunization Division (CWW). The Global Immunization Division (GID) protects the health of Americans and global citizens by preventing disease, disability, and death worldwide from vaccine-preventable diseases. In carrying out its mission, GID: (1) Provides national leadership and coordination of the CGH efforts to eradicate polio, control or eliminate measles, strengthen routine immunization programs, introduce new and under-utilized vaccines, and promote safe injection practices, in collaboration with international organizations and CDC Centers/Institute/OFFices; (2) provides short- and long-term consultation and technical assistance to the WHO, UNICEF, and foreign countries involved in global immunization activities and participates in international advisory group meetings on immunization issues; (3) administers grants to WHO, Pan American Health Organization (PAHO), UNICEF, and other international partners as appropriate for the provision of technical, programmatic, and laboratory support, and vaccine procurement for initiatives to support global immunization targets; (4) designs and participates in international research, monitoring, and evaluation projects to increase the effectiveness of immunization strategies as may be developed; (5) develops strategies to improve the technical skills and problem-solving abilities of program managers and health care workers in other countries; (6) refines strategies developed for the eradication or control of vaccine-preventable diseases in the Western Hemisphere for implementation in other parts of the world; (7) assists other countries, WHO, and other partners to improve surveillance for polio, measles, and other vaccine preventable diseases (VPDs); (8) prepares articles based on findings for publication in international professional journals and presentation at international conferences; (9) collaborates with other countries, WHO, UNICEF, and advocacy groups to ensure the availability of sufficient funds to purchase an adequate supply of polio, measles, and other vaccines, and funds for technical support for use in eradication and control efforts; and (10) provides technical and operational leadership for CDC’s activities in support of the immunization initiatives such as Global Alliance for Vaccines and Immunization and the Global Immunization Vision and Strategies.

Office of the Director (CWK1). (1) Provides leadership, management, and oversight for all division activities; (2) provides coordination of budgeting and liaison with CGH, and EMG on budget and spending; (3) provides coordination and oversight of the division’s...
