c. A single 1/2 inch semi-circular die cut thumb notch, used in conjunction with an opening device, may be on the trailing edge of the addressed or nonaddressed outer panel.

3.14.7 Perforated Strips and Panes

Folded self-mailers may be prepared with strips or panes that are pulled open to reveal the contents. These design elements are placed on the unaddressed side of the mailpiece and may be rectangular, circular, or oval shaped. Perforations, a row of small holes punched in a sheet of paper so that a part can be torn easily, are used to create the openings. They may be pull-open strips, pop-out, or pop-open panes subject to the following prepared requirements:

a. Two perforated lines creating a pull open strip must be parallel and spaced at least 1/2 inch apart. Position perforated strips parallel to the height (the short side) of the mailpiece at least 5 inches from the leading and 2 inches from the trailing edge. Position perforated strips parallel to the length (the long side) of the mailpiece at least 1 inch from the top. Perforations have a 2mm cut (max)/4mm tie (min) ratio or a 3mm cut (max)/3mm tie (min) ratio.

b. Pop-out panes have perforations around the entire perimeter. The full perimeter of the pop-out is a maximum of 4 inches long by 4 inches high, and:
   1. Have panes placed at least 1 inch from any edge.
   2. Are 2mm cut (max)/2mm tie (min) ratio.
   3. When using two panes, must be spaced at least 1 inch apart.
   4. May not have any address elements appear in perforated openings.

c. Pop-open panes have perforations on three sides and meet the following conditions:
   1. The full perimeter of the pull-open panel is a maximum of 4 inches long by 4 inches high.
   2. If prepared with multiple panes, they must be spaced at least 1 inch apart.
   3. Panes must be placed at least 1 inch from all edges.
   4. Perforation patterns have 2 mm cut (max)/2 mm tie (min) ratio.
   d. Perforated panes may not be on mailpieces with die-cut design elements or on any mailpiece made of newsprint.

3.14.8 Loose Enclosures

Loose enclosures included within a folded self-mailer must be made of paper under the following conditions:

a. Must be secured within a folded self-mailer to ensure containment and prevent excessive shift during processing.

b. May be inserted in an interior pocket or secured by any other method that prevents excessive shift during processing. Pockets are not counted as panels.

c. Enclosures are fully covered by the outer panels of the mailpiece.

d. Folded self-mailers with die-cut openings may contain enclosures if the inserted material is larger than the die cut opening.

e. Enclosed material does not exceed the maximum thickness of:
   1. 0.05 inch thick for weights up to 1 ounce.
   2. 0.09 inch thick for weights over 1 ounce.

3.14.9 Attachments

Attachments may be secured on the outside of a folded self-mailer under 3.13. Attachments may be secured within folded self-mailers under the following conditions:

a. The attachment is affixed to an inside panel and secured at least 1/2 inch from any edge.

b. The attached material may not exceed a maximum thickness of:
   1. 0.05 inch thick for weights up to 1 ounce.
   2. 0.09 inch thick for weights over 1 ounce.

c. Multiple attachments must remain nearly uniform in thickness.

d. When multiple attachments are affixed to separate panels in stacked alignment, the combined thickness of the attachments must be equal to or less than the maximum thickness.

e. When multiple attachments are affixed adjacent to each other across the length of a mailpiece, the thickest attachment must be equal to or less than the maximum thickness.

3.15 Unenveloped Mailpieces

3.15.1 Lunch-Bag Style

Lunch-bag style mailpieces consists of two symmetrical horizontal panels sealed together along top and bottom edges. Lunch-bag style mailpieces must meet the following conditions:

a. Join panels using ½ (0.125) inch continuous glue lines.

b. If flaps are used, they must be a minimum of at least 1 1/2 inches wide and created as inner flaps adhered at the leading and trailing edges to the panel from which the flap is formed.

c. All paper weight and sealing requirements in 3.14.5c and 3.14.5d must be met.

3.15.2 Tear-Off Strips

When mailpieces have tear-off openings devices on the leading or trailing edge, the unfolded edges must be sealed with an adhesive (glue) or by a cohesive method. Unlike glue that will adhere to any surface, a cohesive seal requires two fixative patterns placed on top of each other to create a bond. The top-sealed edges may have a perforated horizontal line no lower than 9/16 (0.5625) inch from the top that joins the leading and trailing edge perforations. Mailpieces with sealed sides must meet the following conditions:

a. Tear off strips may be up to 9/16 inch (0.5625) wide.

b. Tear lines (single lines of perforations) on pieces that weigh one ounce or less, must be 1 mm cut (max)/1 mm tie (min) ratio.

c. Tear lines (single lines of perforations) on pieces that weigh more than one ounce must be 1 mm cut (max)/2 mm tie (min) ratio.

We will publish an appropriate amendment to 39 CFR part 111 to reflect these changes if our proposal is adopted.

Stanley F. Mires,
Chief Counsel, Legislative.

BILLING CODE 7710-12-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 300

National Oil and Hazardous Substance Pollution Contingency Plan; National Priorities List: Deletion of the Sayreville Landfill Superfund Site

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA), Region 2 is issuing a Notice of Intent to Delete the Sayreville Landfill Superfund Site (Site) located in Borough of Sayreville, Middlesex County, New Jersey from the National Priorities List (NPL) and requests public comments on this proposed action. The NPL, promulgated pursuant to section 105 of the Comprehensive
Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, is an appendix of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP). The EPA and the State of New Jersey, through the New Jersey Department of Environmental Protection, have determined that all appropriate response actions under CERCLA, other than operation, maintenance, and five-year reviews, have been completed. However, this deletion does not preclude future actions under Superfund.

DATES: Comments concerning this Site must be received by September 14, 2011.

ADDRESSES: Submit your comments, identified by Docket ID no. EPA–HQ–SFUND—1983–0002, by one of the following methods:

- E-mail: salkie.diane@epa.gov Diane Salkie, Remedial Project Manager.
- Fax: (212) 637–4393.
- Mail: Diane Salkie, Remedial Project Manager, Emergency and Remedial Response Division, U.S. Environmental Protection Agency, Region 2, 290 Broadway, 19th Floor, New York, NY 10007–1866
- Hand delivery: Superfund Records Center, 290 Broadway, 18th Floor, New York, NY 10007–1866 (telephone: 212–637–4308). Such deliveries are only accepted during the Docket’s normal hours of operation (Monday thru Friday from 9 a.m. to 5 p.m.). Special arrangements should be made for deliveries of boxed information.

Instructions: Direct your comments to Docket ID No. EPA–HQ–SFUND—1983–0002. EPA’s policy is that all comments received will be included in the public docket without change and may be made available online at http://www.regulations.gov, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through http://www.regulations.gov or e-mail. The http://www.regulations.gov Web site is an “anonymous access” system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through http://www.regulations.gov, your e-mail address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD–ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses.

Docket

All documents in the docket are listed in the http://www.regulations.gov index. Although listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, will be publicly available only in the hard copy. Publicly available docket materials are available either electronically at http://www.regulations.gov or in hard copy at: U.S. Environmental Protection Agency, Region 2, Superfund Records Center, 290 Broadway, Room 1828, New York, New York 10007–1866, Phone: 212–637–4308; Hours: Monday through Friday from 9 a.m. to 5 p.m., and New Jersey Department of Environmental Protection, 401 East State Street, Trenton, New Jersey 08625–0402, Phone: 609–777–3373.

For further information contact:
Diane Salkie, Remedial Project Manager, by mail at Emergency and Remedial Response Division, U.S. Environmental Protection Agency, Region 2, 290 Broadway, 19th Floor, New York, NY 10007–1866; telephone at 212–637–4370; fax at 212–637–4393; or e-mail at salkie.diane@epa.gov.

Supplementary information:
In the “Rules and Regulations” Section of today’s Federal Register, we are publishing a direct final Notice of Deletion of the Sayreville Landfill Superfund Site without prior Notice of Intent to Delete because we view this as a noncontroversial revision and anticipate no adverse comment. We have explained our reasons for this deletion in the preamble to the direct final Notice of Deletion, and those reasons incorporated herein. If we receive no adverse comment(s) on this deletion action, we will not take further action on this Notice of Intent to Delete. If we receive adverse comment(s), we will withdraw the direct final Notice of Deletion and it will not take effect. We will, as appropriate, address all public comments in a subsequent final Notice of Deletion based on this Notice of Intent to Delete. We will not institute a second comment period on this Notice of Intent to Delete. Any parties interested in commenting must do so at this time.

For additional information, see the direct final notice of deletion which is located in the Rules section of this Federal Register.

List of Subjects in 40 CFR Part 300

Environmental protection, Air pollution control, Chemicals, Hazardous waste, Hazardous substances, Intergovernmental relations, Penalties, Reporting and recordkeeping requirements, Superfund, Water pollution control, Water supply.

Dated: August 4, 2011.

Judith Enck,
Regional Administrator, Region 2.
