You may also contact Cheryl Blundon to obtain a copy, at no cost, of the regulation that requires the subject collection of information.

SUPPLEMENTARY INFORMATION:

Title: 30 CFR part 281, Leasing of Minerals Other Than Oil, Gas, and Sulphur in the Outer Continental Shelf. OMB Control Number: 1010–0082.

Abstract: Section 8(k) of the Outer Continental Shelf (OCS) Lands Act, as amended (43 U.S.C. 1337), authorizes the Secretary of the Interior (Secretary) to grant to the qualified persons, offering the highest cash bonuses on a basis of competitive bidding, leases of any mineral other than oil, gas, and sulphur in any area of the OCS not then under lease for such mineral upon such royalty, rental, and other terms and conditions as the Secretary may prescribe at the time of offering the area for lease. The Secretary is to administer the leasing provisions of the Act and prescribe the rules and regulations necessary to carry out those provisions.
Regulations implementing these responsibilities are under 30 CFR part 281. Responses are mandatory or required to obtain or retain a benefit. No questions of a sensitive nature are asked. The MMS protects information considered proprietary according to the Freedom of Information Act (5 U.S.C. 552) and its implementing regulations (43 CFR part 2, and 30 CFR parts 280 and 282).

BOEMRE uses the information required by 30 CFR part 281 to determine if statutory requirements are met prior to the issuance of a lease. Specifically, BOEMRE would use the information to:

- Evaluate the mineral(s) deposits requested by the lessee to ensure that the Federal government receives fair market value for the mineral(s) leased.
- Request the State(s) to initiate the establishment of a joint working group or task force to assess the proposed action and provide input.
- Ensure excessive overriding royalty interests are not created that would put economic constraints on all parties involved.
- Document that a leasehold or geographical subdivision has been surrendered by the record title holder.
- Determine if activities on the proposed lease area(s) will have significant impact on the environment.

There has been no activity in the OCS for minerals other than oil, gas and sulphur for many years. However, because these are regulatory requirements, the potential exists for information to be collected.

**Frequency:** On occasion.

**Description of Respondents:** There are no active respondents; therefore, we estimated the potential annual number of respondents to be one.

**Estimated Reporting and Recordkeeping Hour Burden:** The estimated annual hour burden for this information collection is a total of 1,248 hours. The following chart details the individual components and estimated hour burdens. In calculating the burdens, we assumed that respondents perform certain requirements in the normal course of their activities. We consider these to be usual and customary and took that into account in estimating the burden.

### Estimated Reporting and Recordkeeping Non-Hour Cost Burden:
We have identified one non-hour cost burden. In § 281.41, respondents would pay a $50 application fee for any instrument to be filed (see burden table). We have identified no other non-hour cost burdens for this collection of information.

### Public Disclosure Statement:
The PRA (44 U.S.C. 3501, et seq.) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information unless it displays a currently valid OMB control number for the information.

We have identified one non-hour cost burden. In § 281.41, respondents would be required to file (see burden table).

We have identified no other non-hour cost burdens for this collection of information.

### Recordkeeping Non-Hour Cost Burden:
We have identified one non-hour cost burden. In § 281.41, respondents would be required to file the following forms (see burden table).

We have identified no other non-hour cost burdens for this collection of information.

### Paperwork Burden:
Comments: Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3501, et seq.) requires each agency *“* * * * to provide notice *“* * * * and otherwise consult with members of the public and affected agencies concerning each proposed collection of information *“* * * * Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

To comply with the public consultation process, on April 15, 2011, we published a Federal Register notice (76 FR 21393) announcing that we would submit this ICR to OMB for approval. The notice provided the required 60-day comment period. In addition, § 282.0 provides the OMB control number for the information collection requirements imposed by the 30 CFR 282 regulations. The PRA (5 U.S.C. 1320) informs the public that they may comment at any time on the collections of information and BOEMRE provides the address to which they should send comments. We have received one comment in response to this effort and it was not germane to the paperwork burden.

If you wish to comment in response to this notice, you may send your comments to the offices listed under the ADDRESSES section of this notice. The OMB has up to 60 days to approve or disapprove the information collection but may respond after 30 days. Therefore, to ensure maximum consideration, OMB should receive public comments by September 19, 2011.

### Public Availability of Comments:
Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

### SUPPLEMENTARY INFORMATION:

**Introduction**

With this notice, we continue the CCP process for the Refuges. We started this process through a notice in the Federal Register (74 FR 53755; October 20, 2009).

The Kealāia Pond and Kakahai’a Refuges are part of the Maui National Wildlife Refuge Complex. Kealāia Pond Refuge is located along the southern shore of the island of Maui. It was established in 1992 for the purpose of providing habitat for endangered Hawaiian waterbirds, specifically, the endangered Hawaiian stilts (ae‘o), and endangered Hawaiian coot (’alae ke’oke’o). Kealāia Pond is one of the largest natural wetlands remaining in the Hawaiian Islands. The 704-acre Kealāia Pond Refuge is administered under a perpetual conservation easement provided by Alexander and Baldwin, Inc. The Refuge encompasses open water, fresh to brackish water marsh, mudflat, grassland, upland shrub, and coastal beach strand habitats.
