Help America Vote Act—0960–0706.

H.R. 3295, the Help America Vote Act of 2002, mandates that States verify the identities of newly registered voters. When newly registered voters do not have drivers’ licenses or State-issued identification cards, they must supply the last four digits of their Social Security number to their local State election agencies for verification. The election agencies forward this information to their State Motor Vehicle Administration (MVA), who inputs the data into the American Association of MVAs, a central consolidation system that routes the voter data to SSA’s Help America Vote Verification (HAVV) system. Once SSA’s HAVV system has confirmed the identity of the voter, the information will return along the same route in reverse until it reaches the State election agency. The official respondents for this collection are the State MVAs.

Type of Request: Revision of an OMB-approved information collection.

Number of Respondents: 2,352,204.

Average Burden per Response: 2 minutes.

Estimated Annual Burden: 78,407 hours.
