The petitioner submitted a request for postponing the preliminary determinations in the investigations of bottom mount combination refrigerator-freezers from the Republic of Korea and Mexico. The petitioner stated that a postponement of these preliminary determinations is necessary because of the complexity of the investigations, the novelty of the issues raised, and because the Department is still involved in gathering and analyzing data from the respondents.

Under section 733(c)(1)(A) of the Act, if the petitioner makes a timely request for an extension of the period within which the preliminary determination must be made under subsection (b)(1), then the Department may postpone making the preliminary determination under subsection (b)(1) until not later than the 190th day after the date on which the administering authority initiated the investigation. Therefore, because there are no compelling reasons to deny its requests, the Department is postponing the preliminary determinations in these investigations until October 26, 2011, which is 190 days from the date on which the Department initiated these investigations.

The deadline for the final determinations will continue to be 75 days after the date of the preliminary determinations, unless extended.

This notice is issued and published pursuant to section 733(c)(2) of the Act and 19 CFR 351.205(f)(1).
