encompassing the central portion of
Wells Harbor.
(b) Anchorage “B”. All of the waters
enclosed by a line beginning at latitude
43°19’11.1” N, longitude 070°33’49.8”
W; thence to latitude 43°19’10.5” N,
longitude 070°33’47.3” W; thence to
latitude 43°19’8.7” N, longitude
070°33’50.6” W; thence to latitude
43°19’8.3” N, longitude 070°33’47.3” W;
thence to the point of beginning. This
area is approximately 25,000 sq. yards,
encircling the western portion of
Wells Harbor.
(c) Anchorage “C”. All of the waters
enclosed by a line beginning at latitude
43°19’17.7” N, longitude 070°33’34.0”
W; thence to latitude 43°19’18.4” N,
longitude 070°33’32.9” W; thence to
latitude 43°19’13.0” N, longitude
070°33’26.2” W; thence to latitude
43°19’13.8” N, longitude 070°33’25.5”
W; thence to the point of beginning.
This area is approximately 8,200 sq.
yards, encompassing the eastern portion
of Wells Harbor.
(d) Regulations: This area is
principally for use by yachts and other
recreational craft. Temporary floats or
buoys for marking anchors or moorings
in place are allowed in this area. Fixed
mooring piles or stakes are not allowed.
All moorings or anchors shall be placed
well within the anchorage areas so that
no portion of the hull or rigging will at
any time extend outside of the
anchorage.

Note: All anchoring in the areas is under
the supervision of the Wells Harbor Master
or other such authority as may be designated
by the authorities of the Town of Wells,
Maine. All coordinates referenced use datum:
NAD 83.

Dated: Aug. 9, 2011.

Rear Admiral, U.S. Coast Guard, Commander,
First Coast Guard District.

DEPARTMENT OF HOMELAND
SECURITY

Coast Guard

33 CFR Part 117
[Docket No. USCG–2011–0591]
RIN 1625–AA09

Drawbridge Operation Regulation;
Anacostia River, Washington, DC

AGENCY: Coast Guard, DHS.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Coast Guard proposes to
change the regulations governing the
operation of the CSX Railroad Vertical
Lift Bridge across the Anacostia River,
mile 3.4 at Washington, DC. The
proposed change will alter the eight
hour advance notice requirement for a
bridge opening to a 48 hour advance
notice requirement for a bridge opening.
The operating regulation change will
provide more notice for trains and vessels
to adjust their schedules accordingly to
ensure safe and efficient transits across
and through the bridge.

DATES: Comments and related material
must reach the Coast Guard on or before
December 21, 2011.

ADDRESSES: You may submit comments
identified by docket number USCG–
2011–0591 using any one of the
following methods:
(1) Federal eRulemaking Portal:
http://www.regulations.gov
(2) Fax: 202–493–2251.
(3) Mail: Docket Management Facility
(M–30), U.S. Department of
Transportation, West Building Ground
Floor, Room W12–140, 1200 New Jersey
Avenue, SE., Washington, DC 20590–
0001.

(4) Hand delivery: Same as mail
address above, between 9 a.m. and
5 p.m., Monday through Friday, except
Federal holidays. The telephone number
is 202–366–9329.

To avoid duplication, please use only
one of these four methods. See the
“Public Participation and Request for
Comments” portion of the
SUPPLEMENTARY INFORMATION
section below for instructions on submitting
comments.

FOR FURTHER INFORMATION CONTACT:
If you have questions on this proposed
rule, call or e-mail Lindsey Middleton,
Coast Guard; telephone 757–398–6629,
e-mail Lindsey.R.Middleton@uscg.mil.
If you have questions on viewing or
submitting material to the docket, call
Renee V. Wright, Program Manager,
Docket Operations, telephone 202–366–
9826.

SUPPLEMENTARY INFORMATION:
Public Participation and Request for
Comments

We encourage you to participate in this
rulemaking by submitting comments and
related materials. All comments received
will be posted, without change to http://
www.regulations.gov and will include
any personal information you have
provided.

Submitting Comments

If you submit a comment, please
include the docket number for this
rulemaking (USCG–2011–0591), indicate
the specific section of this document to
which each comment applies, and
provide a reason for each suggestion or
recommendation. You may submit your
comments and material online (http://
www.regulations.gov), or by fax, mail or
hand delivery, but please use only one
of these means. If you submit a
comment online via http://
www.regulations.gov, it will be
considered received by the Coast Guard
when you successfully transmit the
comment. If you fax, hand deliver, or
mail your comment, it will be
considered as having been received by
the Coast Guard when it is received at
the Docket Management Facility. We
recommend that you include your name
and a mailing address, an e-mail
address, or a phone number in the body
of your document so that we can contact
you if we have questions regarding your
submission.

To submit your comment online, go to
http://www.regulations.gov, click on the
“submit a comment” box, which will
then become highlighted in blue. In the
“Document Type” drop down menu
select “Proposed Rules” and insert
“USCG–2011–0591” in the “Keyword”
box. Click “Search” then click on the
balloon shape in the “Actions”
column. If you submit your comments by
mail or hand delivery, submit them in an
unbound format, no larger than 8 1/2 by
11 inches, suitable for copying and
electronic filing. If you submit them by
mail and would like to know that they
reached the Facility, please enclose a
stamped, self-addressed postcard or
envelope. We will consider all
comments and material received during
the comment period and may change
the rule based on your comments.

Viewing Comments and Documents

To view comments, as well as
documents mentioned in this preamble
as being available in the docket, go to
http://www.regulations.gov, click on the
“read comments” box, which will then
become highlighted in blue. In the
“Keyword” box insert “USCG–2011–
0591” and click “Search.” Click the
“Open Docket Folder” in the “Actions”
column. You may also visit the Docket
Management Facility in Room W12–140
on the ground floor of the Department
of Transportation West Building,
1200 New Jersey Avenue, SE.,
Washington, DC 20590, between 9 a.m.
and 5 p.m., Monday through Friday,
except Federal holidays. We have an agreement with
the Department of Transportation to use
the Docket Management Facility.

Privacy Act

Anyone can search the electronic
form of comments received into any of
our dockets by the name of the
individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review a Privacy Act notice regarding our public docket in the January 17, 2008, issue of the Federal Register (73 FR 3316).

Public Meeting
We do not now plan to hold a public meeting. But you may submit a request for one using one of the four methods specified under ADDRESSES. Please explain why one would be beneficial. If we determine that one would aid this rulemaking, we will hold one at a time and place announced by a later notice in the Federal Register.

Basis and Purpose
The CSX Railroad Company has requested a change in the operating regulation for the CSX Railroad Vertical Lift Bridge, across the Anacostia River, mile 3.4 at Washington, DC. The change will replace the current eight hour advance notice requirement for a bridge opening to a 48 hour advance notice requirement for a bridge opening. The bridge is part of a rail line that is used for regular passenger service and there are 21 train transits a day across this bridge. Therefore, it is necessary that ample time is given to maintain an accurate schedule for trains and vessels for a safe and efficient travel across and through the bridge.

The current operating schedule for the bridge is set out in 33 CFR 117.253(b). The regulation was established in August 2004 and allows the bridge to be operated from a remote location, the Benning Yard office. The draw of the bridge shall open on signal at all times for public vessels of the United States, state and local government vessels, commercial vessels and any vessels in an emergency involving danger to life or property; between 9 a.m. and 12 p.m., and between 1 p.m. and 6 p.m. from May 15 through September 30; and between 6 p.m. and 7 p.m. from May 15 through September 30 if notice is given to the controller no later than 6 p.m. on the day for which the opening is requested. At all other times the bridge will open if at least 8 hours notice is given.

The vertical clearance of the bridge is 5 feet at Mean High Water in the closed position and 29 feet at Mean High Water in the open position. There are 21 train transits across this bridge every day. There have been two bridge openings in the past two years for vessels taller than five feet.

We are testing the potential operating regulation adjustment for 180 days in conjunction with this notice of proposed rulemaking to discover any impacts on train transit or water navigation as a result of the adjustment. During the test deviation period a bridge opening count has been requested from the CSX Railroad Company.

Discussion of Proposed Rule
The Coast Guard proposes to revise 33 CFR 117.253(b) for the CSX Railroad Bridge, mile 3.4 at Washington, DC. Paragraph (b)(1)(iv) would change to state the following: At all other times, if at least 48 hours notice is given to the controller at the Benning Yard Office. The remainder of paragraph (1) and paragraphs (2) through (6) would remain the same as currently published.

Vessels that are able to pass through the bridge in the closed position may do so at any time. There are no alternate routes for vessels that cannot pass through the bridge in the closed position. The Coast Guard will inform waterway users through the Local and Broadcast Notices to Mariners.

Regulatory Analyses
We developed this proposed rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on 13 of these statutes or executive orders.

Regulatory Planning and Review
This proposed rule is not a "significant regulatory action" under section 3(f) of Executive Order 12866. Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order.

The proposed change is expected to have only a minimal impact on maritime traffic transiting the bridge. Mariners can plan their trips in accordance with the scheduled advance notice requirement for a bridge opening to minimize delay.

Small Entities
Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered whether this proposed rule would have a significant economic impact on a substantial number of small entities. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule would not have a significant economic impact on a substantial number of small entities.

This proposed rule would affect the following entities, some of which might be small entities: The owners or operators of vessels needing to transit through the bridge between October 1 and May 14 at all times and those needing to transit between the hours of 7 p.m. and 9 a.m. and from 12 p.m. to 1 p.m. between May 15 and September 30.

This action will not have a significant economic impact on a substantial number of small entities for the following reasons: the rule adds minimal restrictions to the movement of waterway navigation by requiring vessels that are not essential public vessels, vessels with dangerous emergencies, or vessels transiting through the bridge at specified excluded times to give 48 hours of notice when requesting a bridge opening. Vessels that can safely transit under the bridge in the closed position may do so at any time.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (see ADDRESSES) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

Assistance for Small Entities
Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this proposed rule so that they can better evaluate its effects on them and participate in the rulemaking. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact Lindsey Middleton, Bridge Management Specialist, Fifth Coast Guard District, (757) 398–6629 or Lindsey.R.Middleton@uscg.mil. The Coast Guard will not retaliate against small entities that question or complain about this proposed rule or any policy or action of the Coast Guard.

Collection of Information
This proposed rule would call for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520.).

Federalism
A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct
effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this proposed rule under that Order and have determined that it does not have implications for federalism.

**Unfunded Mandates Reform Act**

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of $100,000,000 (adjusted for inflation) or more in any one year. Though this proposed rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

**Taking of Private Property**

This proposed rule would not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

**Civil Justice Reform**

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

**Protection of Children**

We have analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and would not create an environmental risk to health or risk to safety that might disproportionately affect children.

**Indian Tribal Governments**

This proposed rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

**Energy Effects**

We have analyzed this proposed rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a “significant energy action” under that order because it is not a “significant regulatory action” under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

**Technical Standards**

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies. This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

**Environment**

We have analyzed this proposed rule under Department of Homeland Security Management Directive 023–01, and Commandant Instruction M16475.1D which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have made a preliminary determination that this action is one of a category of actions which do not individually or cumulatively have a significant effect on the human environment because it simply promulgates the operating regulations or procedures for drawbridges. We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.

**List of Subjects in 33 CFR Part 117**

**Bridges**

For the reasons discussed in the preamble, the Coast Guard proposes to amend 33 CFR part 117 as follows:

**PART 117—DRAWBRIDGE OPERATION REGULATIONS**

1. The authority citation for part 117 continues to read as follows:

**ENVIRONMENTAL PROTECTION AGENCY**

40 CFR Part 52

[40 CFR Part 52]

**Summary:** EPA is proposing to approve a State Implementation Plan (SIP) revision submitted by the State of Kansas on November 9, 2009, that addresses Regional Haze for the first implementation period. In so doing, EPA is proposing to determine that the plan submitted by Kansas satisfies the requirements of the Clean Air Act (CAA or Act), for states to prevent any future and remedy any existing anthropogenic impairment of visibility in mandatory Class I areas caused by emissions of air pollutants located over a wide geographic area (also referred to as the “regional haze program”). States are required to assure reasonable progress toward the national goal of achieving natural visibility conditions in Class I areas. EPA is taking this action pursuant to those provisions of the CAA that obligate the Agency to take action on submittals of SIPs. You may submit written comments on this proposed rule as per the instructions given under the section Instructions for Comment Submittal.

**Dates:** Written comments must be received via the methods given in the Instructions for Comment section on or before September 22, 2011.
