SUPPLEMENTAL INFORMATION:

TTB Authority

Chapter 52 of the Internal Revenue Code of 1986 (IRC) sets forth the Federal excise tax and related provisions that apply to tobacco products and processed tobacco manufactured, or imported into, the United States. Section 5702(c) of the IRC (26 U.S.C. 5702(c)) defines the term “tobacco products” as “cigars, cigarettes, smokeless tobacco, pipe tobacco, and roll-your-own tobacco.” Each of these terms is also separately defined in section 5702. Section 5702(p) states that a manufacturer of processed tobacco is “any person who processes any tobacco other than tobacco products” and that “the processing of tobacco shall not include the farming or growing of tobacco or the handling of tobacco solely for sale, shipment, or delivery to a manufacturer of tobacco products or processed tobacco.”

Regulations implementing the provisions of chapter 52 of the IRC are contained in 27 CFR parts 40 (Manufacture of tobacco products, cigarette papers and tubes, and processed tobacco), 41 (Importation of tobacco products, cigarette papers and tubes, and processed tobacco), 44 (Exportation of tobacco products and cigarette papers and tubes, without payment of tax or with drawback of tax), 45 (Removal of tobacco products and cigarette papers and tubes, without payment of tax, for use of the United States), and 46 (Miscellaneous regulations relating to tobacco products and cigarette papers and tubes). These statutory and regulatory provisions are administered by the Alcohol and Tobacco Tax and Trade Bureau (TTB).

Publication of Notice No. 106

On July 22, 2010, TTB published in the Federal Register (75 FR 42659) an advance notice of proposed rulemaking, Notice No. 106, in response to changes made to the IRC tobacco provisions by sections 701 and 702 of the Children’s Health Insurance Program Reauthorization Act of 2009 (CHIPRA). These changes to the IRC included an expansion of the definition of “roll-your-own tobacco” and an increase in the tax rate applicable to pipe tobacco and roll-your-own tobacco that resulted in a significant difference in the tax rates applicable to the two groups of products. In Notice No. 106, TTB described the heightened need for more regulatory detail to clarify the difference between pipe tobacco and roll-your own tobacco as a result of the tax rate changes adopted by CHIPRA. In that notice, TTB also described and requested comments on six written submissions concerning the distinctions between pipe tobacco and roll-your-own tobacco that it had received in response to earlier rulemaking action regarding CHIPRA.

Comments Received

TTB received 24 comments from groups and individuals in response to Notice No. 106. Commenters provided input on the distinctions between pipe tobacco and roll-your-own tobacco based on physical characteristics as described by the original six submissions noted above. Commenters also provided suggestions on other characteristics which would be useful for distinguishing between pipe tobacco and roll-your-own tobacco, and made other substantive comments about the issues involved in the rulemaking. One of the 24 comments was withdrawn by the commenter after the close of the comment period, and two of the comments were not suitable for public posting because they did not address the issues presented for public comment. The remaining 21 comments may be viewed at the Regulations.gov Web site referred to in the ADDRESSES section of this document.

After the close of the Notice No. 106 comment period, TTB received a request to meet with attorneys from Patton Boggs LLP and their client, Liggett Vector Brands LLC. At this meeting, which took place on June 13, 2011, Liggett Vector’s chief executive officer and other company representatives presented TTB with a proposal to use certain physical characteristics to distinguish between pipe tobacco and roll-your-own tobacco that differ from the standards proposed by other
commenters, described in Notice No. 106. The new proposal, which was submitted as a slide presentation, is now posted with the comments on Notice No. 106 as Comment 23 and may be viewed at the Regulations.gov Web site referred to above.

Additionally, TTB believes it would be appropriate to bring to the attention of the public the results of preliminary laboratory tests that TTB conducted on a number of products labeled as pipe tobacco and as roll-your-own tobacco purchased by TTB from stores in the Beltsville, Maryland, area on February 13, 2009. TTB subjected the samples to a series of experiments to determine whether there were analytical markers that might be appropriate for further evaluation as a means of distinguishing between pipe tobacco and roll-your-own tobacco, and to evaluate standards submitted by industry members in tobacco, and to evaluate standards between pipe tobacco and roll-your-own that might be appropriate for further consideration, so there is no need to resubmit such comments.

POSTAL REGULATORY COMMISSION

39 CFR Part 3050

[Docket No. RM2011–12; Order No. 810]

Periodic Reporting

AGENCY: Postal Regulatory Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Commission is establishing a docket in response to a Postal Service request for an informal rulemaking on proposed changes in certain analytical methods used in periodic reporting. The proposed changes are identified as Proposals Four through Eight. They affect, respectively, Inbound International Mail; cost assignment of certain flat sorting operations; bias in mixed mail tallies; and Express Mail. Establishing this docket will allow the Commission to consider the Postal Service’s proposal and comments from the public.

DATES: Comments are due: September 9, 2011.

ADDRESSES: Submit comments electronically by accessing the “Filing Online” link in the banner at the top of the Commission’s Web site (http://www.prc.gov) or by directly accessing the Commission’s Filing Online system at https://www.prc.gov/prc-pages/filing-online/login.aspx. Commenters who cannot submit their views electronically should contact the person identified in the FOR FURTHER INFORMATION CONTACT section as the source for case-related information for advice on alternatives to electronic filing.

SUPPLEMENTARY INFORMATION: On August 8, 2011, the Postal Service filed a petition pursuant to 39 CFR 3050.11 requesting that the Commission initiate an informal rulemaking proceeding to consider changes in the analytical methods approved for use in periodic reporting.¹

Proposal Four: Proposed change in method of reporting Revenue, Pieces, and Weight (RPW) for Inbound International Mail. Currently, in its RPW report, the Postal Service estimates the revenue that it receives from the terminal dues system for six major Inbound International Mail products by developing a distribution key for those products from the most recently completed International Cost and Revenue Analysis (ICRA) report. It applies that key to international mail revenues in the relevant General Ledger accounts. Where it relies on this method to estimate product revenues in the RPW, it does not estimate pieces or weight for those products.

Since Quarter 2 of FY 2010, the Postal Service has been using the Foreign Postal Settlement (FPS) system to settle its international mail accounts. With respect to inbound settlement, FPS compiles revenue, piece, and weight information by product stream from billing documents/electronic messaging. FPS posts revenue to the book of accounts based on actual inbound transactions processed, and on estimates of transactions received, but not yet processed. While the settlement process is not completed until months after the close of the calendar year, the FPS system accrues revenue monthly, based on the estimate of mail volume received that month. When final settlement occurs the following year, the difference between the accrued amount and the final settlement amount is posted to the appropriate General Ledger account. Id. at 6.

The Postal Service has developed software that maps FPS inbound product streams to the categories used in the Inbound International RPW Proposal Four would replace the ICRA distribution key method of estimating the revenue of inbound products with the more detailed and timely data mapped from FPS. The Postal Service explains that an incidental benefit of the proposed mapping is that it would align RPW reporting categories more closely with the Mail Classification Schedule than is the case currently.²

² Id. at 8. As examples, the Postal Service notes that Inbound Return Receipt and Inbound Restricted Delivery are currently misreported as part of Outbound Ancillary Services, and that its proposed mapping would correct this. Id. at 5.
