EIS No. 20110256, Draft EIS, FRA, CA, California High-Speed Train (HST):
ENVIRONMENTAL PROTECTION AGENCY

[FRL–9461–5]

Underground Injection Control Program; Hazardous Waste Injection Restrictions; Petition for Exemption—Class I Hazardous Waste Injection; Great Lakes Chemical Corporation, El Dorado, AR

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of a final decision on a no migration petition reissuance.

SUMMARY: Notice is hereby given that a reissuance of an exemption to the land disposal restrictions, under the 1984 Hazardous and Solid Waste Amendments to the Resource Conservation and Recovery Act, has been granted to Great Lakes Chemical Corporation for two Class I injection wells located at El Dorado, Arkansas. The company has adequately demonstrated to the satisfaction of the Environmental Protection Agency by the petition and supporting documentation that, to a reasonable degree of certainty, there will be no migration of hazardous constituents from the injection zone for so long as the waste remains hazardous.

This final decision allows the continued underground injection by Great Lakes, of the specific restricted hazardous wastes identified in this exemption, into Class I hazardous waste injection wells No. WDW–5 and WDW–6 at the El Dorado, Arkansas facility until December 31, 2017, unless EPA moves to terminate this exemption. Additional conditions included in this final decision may be reviewed by contacting the Region 6 Ground Water/UIC Section.

No Administrative appeal. This decision constitutes final agency action and there is no migration petition reissuance. This action is effective as of August 31, 2011.

FOR FURTHER INFORMATION CONTACT: Philip Dellinger, Chief Ground Water/UIC Section, EPA—Region 6, telephone (214) 665–7150.

Dated: August 31, 2011.

Troy Hill, Acting Division Director, Water Quality Protection Division.
