FOR FURTHER INFORMATION CONTACT:
Melanie Gunn, Outreach Coordinator, Point Reyes National Seashore, 1 Bear Valley Road, Point Reyes Station, CA 94956, (415) 464–5131. More information regarding this EIS is also available at http://www.nps.gov/pore/parkmgmt/planning_dboc_sup.htm.

SUPPLEMENTARY INFORMATION: Under Section 124 of Public Law 111–88, the Secretary has the authority to issue a special-use permit (SUP) for 10 years to Drakes Bay Oyster Company (DBOC) for its shellfish operation, which consists of commercial production, harvesting, processing, and sale of shellfish at Point Reyes National Seashore. The existing reservation of use and occupancy (RUO) and associated SUP held by the Company will expire on November 30, 2012, and the Company has requested a new permit.

Although the Secretary's authority under Section 124 is “notwithstanding any other provision of law,” it has been determined that it would help inform the decision-making process to prepare an EIS and otherwise follow National Environmental Policy Act (NEPA) procedures. The purpose of the document is to use the NEPA process on behalf of the Secretary to engage the public and evaluate the effects of issuing a SUP for the commercial shellfish operation. The results of the NEPA process will be used to inform the decision of whether a new SUP should be issued to Drakes Bay Oyster Company for 10 years.
Project Objectives

- Manage natural and cultural resources to support their protection, restoration, and preservation.
- Manage wilderness and potential wilderness areas to preserve the character and qualities for which they were designated.
- Provide opportunities for visitor use and enjoyment of park resources.

The draft environmental impact statement considers four alternatives.

Alternative A. No New Special-Use Permit—Conversion to Wilderness (No Action). This alternative considers the expiration of existing RUO and SUP, and subsequent conversion of the area to Wilderness consistent with Public Law 94–567. The existing SUP and RUO expire on November 30, 2012. The Secretary would not exercise the discretion granted to him under Section 124 of Public Law 111–88 to issue a new 10-year SUP. Upon removal of the non-conforming structures and uses from Drakes Estero, NPS would convert the area from potential wilderness to wilderness.

Alternative B. Issue New Special-Use Permit—Existing Onshore Facilities and Infrastructure and Offshore Operations Would Be Allowed for a Period of 10 Years. This alternative considers a level of use consistent with conditions that were present in fall 2010 when NPS initiated evaluation under the environmental impact statement. The existing SUP and RUO expire on November 30, 2012. The Secretary would exercise the discretion granted to him under Section 124 to issue to DBOC a new 10-year SUP, expiring November 30, 2022.

Alternative C. Issue new special-use permit—onshore facilities and infrastructure and offshore operations present in 2008 would be allowed for a period of 10 years. This alternative considers a level of use that is consistent with the conditions and operations that existed when the current SUP was signed in April 2008. The existing SUP and RUO expire on November 30, 2012. The Secretary would exercise the discretion granted to him under Section 124 to issue to DBOC a new 10-year SUP, expiring November 30, 2022.

Alternative D. Issue New Special-Use Permit—Expanded Offshore Development and Offshore Operations Would Be Allowed for a Period of 10 Years. This alternative considers expansion of operations and development of new infrastructure consistent with the permitee’s requests submitted for consideration as part of this EIS process. The existing SUP and RUO would expire on November 30, 2012. The Secretary would exercise the discretion granted to him under Section 124 to issue a new 10-year special use permit to DBOC, expiring November 30, 2022.

George J. Turnbull,
Acting Regional Director, Pacific West Region.
