same general category manufactured in the United States. Application accepted by Commissioner of Customs: September 7, 2011.

Docket Number: 11–063. Applicant: Mount Sinai School of Medicine, 1 Gustave L. Levy Place New York, NY 10029–6574. Instrument: Electron Microscope. Manufacturer: JEOL Ltd., Japan. Intended Use: The instrument will be used to image a wide range of biological assemblies composed of protein, nucleic acids, lipid and detergent. The studies will include structural studies of nucleic acid binding protein, viruses and membrane proteins, among other research. A 120kV electron microscope with an anticontaminator and specimen holder suitable for imaging biological samples at liquid nitrogen temperatures is required for the research. Justification for Duty-Free Entry: There are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: September 16 2011.

Docket Number: 11–064. Applicant: University of Wyoming, 1000 E University Ave., Laramie, WY 82071. Instrument: Electron Microscope. Manufacturer: FEI, Czech Republic. Intended Use: The instrument will be used to study solar energy and materials science research. There are no other instruments with the necessary resolution that are also capable of operation at very high pressures (chamber pressures approaching atmospheric pressures), which are essential for the research applications. There are also no microscopes manufactured in the United States that are capable of spatial resolution on the nanometer scale, and generation and analysis of electron-beam induced signals such as characteristic x-ray analysis, electron beam induced current measurements, and e-beam lithography. Justification for Duty-Free Entry: There are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: September 16, 2011.

Dated: September 29, 2011.
Gregory Campbell, Director, IA Subsidies Enforcement Office.
from the provisions relating to public meetings found in 5 U.S.C. App. (10)(a)(1) and 10(a)(3). The portion of the meeting dealing with matters requiring disclosure of trade secrets and commercial or financial information as described in 5 U.S.C. 552b(c)(4) shall be exempt from the provisions relating to public meetings found in 5 U.S.C. App. §§ (10)(a)(1) and 10(a)(3). The remaining portions of the meeting will be open to the public.

Copies of CINTAC meeting minutes will be available within 90 days of the meeting.

Edward A. O’Malley,
Director, Office of Energy and Environmental Industries.

DEPARTMENT OF COMMERCE
National Oceanic and Atmospheric Administration

RIN 0648–XA718

Receipt of an Application for Incidental Take Permit (16230)

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of availability.

SUMMARY: NMFS has received an application for an incidental take permit (Permit) from the North Carolina Division of Marine Fisheries (NCDMF) pursuant to the Endangered Species Act of 1973, as amended (ESA). As required by the ESA, NCDMF’s application includes a conservation plan designed to minimize and mitigate take of endangered or threatened species. The permit application is for the incidental take of ESA-listed adult and juvenile sea turtles associated with otherwise lawful commercial gill net fisheries operating in inshore waters of North Carolina. The duration of the proposed permit is for 3 years. NMFS is providing this notice to allow other agencies and the public an opportunity to review and comment on the application and associated conservation plan. All comments received will become part of the public record and will be available for review.

DATES: Written comments from interested parties on the permit application and Plan must be received at the appropriate address or fax number (see ADDRESSES) no later than 5 p.m. Eastern daylight time on December 5, 2011.

ADDRESSES: You may submit comments on the permit application and conservation plan, identified by NOAA–NMFS–2011–0231, by any of the following methods during the 60-day comment period:

- Electronic Submission: Submit all electronic public comments via the Federal e-Rulemaking Portal http://www.regulations.gov. To submit comments via the e-Rulemaking Portal, first click the “submit a comment” icon, then enter NOAA–NMFS–2011–0231 in the keyword search. Locate the document you wish to comment on from the resulting list and click on the “Submit a Comment” icon on the right of that line.
- Mail: Submit written comments to Kristy Long, Office of Protected Resources, 1315 East West Highway, 13th Floor, Silver Spring, MD 20910.
- Fax: 301–713–0376; Attn: Kristy Long.

Instructions: Comments must be submitted by one of the above methods to ensure that the comments are received, documented, and considered by NMFS. Comments sent by other method, to any other address or individual, or received after the end of the comment period, may not be considered. All comments received are a part of the public record and will generally be posted for public viewing on http://www.regulations.gov without change. All personal identifying information (e.g., name, address, etc.) submitted voluntarily by the sender will be publicly accessible. Do not submit confidential business information, or otherwise sensitive or protected information. NMFS will accept anonymous comments (enter “N/A” in the required fields if you wish to remain anonymous). Attachments to electronic comments will be accepted in Microsoft Word or Excel, WordPerfect, or Adobe PDF file formats only.

FOR FURTHER INFORMATION CONTACT: Kristy Long (ph. 301–427–8402, e-mail Kristy.Long@noaa.gov; Dennis Klemm (ph. 727–824–5312, e-mail Dennis.Klemm@noaa.gov).

SUPPLEMENTARY INFORMATION: Section 9 of the ESA and Federal regulations prohibit the “taking” of a species listed as endangered or threatened. The term “take” is defined under the ESA to mean harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct. NMFS may issue permits, under limited circumstances, to take listed species incidental to, and not the purpose of, otherwise lawful activities. Section 10(a)(1)(B) of the ESA provides for authorizing incidental take of listed species. NMFS regulations governing permits for threatened and endangered species are published at 50 CFR 222.307.

Species Covered in This Notice

The following species are included in the conservation plan and Permit application: Loggerhead (Caretta caretta), green (Chelonia mydas), leatherback (Dermochelys coriacea), hawksbill (Eretmochelys imbricata), and Kemp’s ridley (Lepidochelys kempii) sea turtles.

Background

NMFS issued Permit No. 1259 to NCDMF (65 FR 65840, November 2, 2000), Permit No. 1348 (66 FR 51023, October 5, 2001), Permit No. 1398 (67 FR 67150, November 4, 2002), and Permit No. 1528 (70 FR 52984, September 6, 2005) authorizing the incidental take of the foregoing species in certain segments of the commercial gill net fisheries for flounder in Pamlico Sound subject to a series of mandatory sea turtle management and monitoring requirements and limits on the numbers of individuals that could be taken annually. On August 18, 2011, NCDMF submitted a revised application to NMFS for Permit No. 16230, authorizing incidental take of ESA-listed sea turtles associated with commercial and recreational gillnet fisheries in inshore state waters for 3 years. This application includes endangered Kemp’s ridley, leatherback, and hawksbill sea turtles and threatened green and loggerhead sea turtles. This permit, if issued, and implementing the conservation plan would allow for the incidental take of specified numbers of sea turtles incidental to the continued commercial harvest of target fish species subject to conservation, management and monitoring requirements set forth in the plan and as permit conditions deemed necessary and appropriate by the NMFS.

Conservation Plan

The conservation plan prepared by NCDMF describes measures designed to monitor, minimize, and mitigate the incidental take of ESA-listed sea turtles. The conservation plan includes managing inshore gill net fisheries by dividing estuarine waters into 5 management units (i.e., A–E). Each of the management units would be monitored seasonally and by fishery. Management Units were delineated on the basis of three primary factors: Similarity of fisheries and management; extent of known protected species interactions in commercial gill net fisheries; and unit size and the ability of
