SUPPLEMENTARY INFORMATION:

I. Background

The information collection is required by sections 212(n) and (t) and 214(c) of the Immigration and Nationality Act (INA) (8 U.S.C. 1182(n) and (t) and 1184(c)). The Department and the Department of Homeland Security have promulgated regulations to implement the INA. Specifically for this collection, 20 CFR 655 Subparts H and I and 8 CFR 214.2(b)(4) are applicable. The INA mandates that no alien may enter the United States (U.S.) for the purpose of performing professional work on a temporary basis unless the U.S. employer has attested to the Secretary of Labor (Secretary) that the working conditions for the alien will not adversely affect the working conditions of similarly employed U.S. workers; that the salary will be at least the prevailing wage for the occupational classification in the area of employment or the actual wage paid by the employer to all other individuals with similar experience and qualifications for the specific employment in question; whichever is higher; that there is no strike or lockout in the course of a labor dispute in the occupational classification at the place of employment; and that the employer has met all other requirements of the program as specified in the regulations.

II. Review Process

The Department is particularly interested in comments which:

• Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
• Evaluate the accuracy of the Department’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; and
• Enhance the quality, utility, and clarity of the information to be collected; and
• Minimize the burden of the collection of information, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Actions

In order to meet its statutory responsibilities under the INA, the Department needs to extend an existing collection of information pertaining to employers seeking to apply for labor condition applications to allow them to bring foreign labor to the U.S. on a temporary basis.

In the past the respondents have been for-profit businesses and not-for-profit institutions. On rare occasions the respondents have been local, State, tribal governments, or the Federal government.

The Secretary uses the collected information to determine if employers are meeting their statutory and regulatory obligations. The information collected remains the same.
