[Docket No. FAA–2011–0610; Airspace Docket No. 11–AWP–10]

Proposed Revision of Class D and Class E Airspace; Hawthorne, CA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to revise Class D and E airspace at Jack Northrop Field/Hawthorne Municipal Airport, Hawthorne, CA. Additional controlled airspace is needed to accommodate aircraft departing and arriving under Instrument Flight Rules (IFR) at the airport. Also, the airspace designations would be revised to show a new city location. This action is a result of the FAA’s biennial review, along with a study of the Jack Northrop Field/Hawthorne Municipal Airport airspace area that would further enhance the safety and management of aircraft operations at the airport.

DATES: Comments must be received on or before December 15, 2011.

FOR FURTHER INFORMATION CONTACT: Richard Roberts, Federal Aviation Administration, Operations Support Group, Western Service Center, 1601 Lind Avenue SW., Renton, WA 98057; telephone (425) 203–4517.

The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) Part 71 by revising Class D airspace and Class E airspace designated as an extension to Class D surface area at Jack Northrop Field/Hawthorne Municipal Airport, Hawthorne, CA, creating additional airspace necessary for IFR departures and arrivals at the airport. This action, initiated by FAA’s biennial review of the Jack Northrop Field/Hawthorne Municipal Airport airspace area, and based on results of a study conducted by the Los Angeles Visual Flight Rules (VFR) Task Force, and the Los Angeles Class B Workgroup, would enhance the safety and management of aircraft operations at the airport. This action also would revise the airspace designation for Class D and Class E airspace, changing the city location from Los Angeles, CA, to Hawthorne, CA.

Class D airspace and Class E airspace designations are published in paragraph 5000 and 6004, respectively, of FAA Order 7400.9V, dated August 9, 2011, and effective September 15, 2011, which is incorporated by reference in 14 CFR 71.1. The Class D airspace and Class E airspace designation listed in this document will be published subsequently in this Order.

The FAA has determined this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation: (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034: February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified this proposed rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code, Subtitle 1, Section 106, describes the authority for the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of
airspace. This regulation is within the scope of that authority as it revises controlled airspace at Jack Northrop Field/Hawthorne Municipal Airport, Hawthorne CA.

Manager, Operations Support Group, Western Service Center.
