On January 17, 2007 the Department of Energy (DOE) issued Order No. EA–315, which authorized BP Energy to transmit electric energy to the United States to Canada as a power marketer for a five-year term using existing international transmission facilities. That authority will expire on January 17, 2012. On October 31, 2011, BP Energy filed an application with DOE for renewal of the export authority contained in Order No. EA–315 for an additional five-year term.

The electric energy that BP Energy proposes to export to Canada would be surplus energy purchased from electric utilities, Federal power marketing agencies, and other entities within the United States. Griffen, Morgan, Lewis & Bockius LLP, 111 Pennsylvania Ave., NW., Washington, DC 20004, mgriffen@morganlewis.com. A final decision will be made on this application after the environmental impacts have been evaluated pursuant to DOE’s National Environmental Policy Act Implementing Procedures (10 CFR part 1021) and after a determination is made by DOE that the proposed action will not have an adverse impact on the reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above, by accessing the program Web site at http://energy.gov/node/11845 or by emailing Angela Troy at Angela.Troy@hq.doe.gov.
