DATES: Comments, protests, or motions to intervene must be submitted on or before December 9, 2011.

ADDRESSES: Comments, protests, or motions to intervene should be addressed to: Christopher Lawrence, Office of Electricity Delivery and Energy Reliability, Mail Code: OE–20, U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585–0350. Because of delays in handling conventional mail, it is recommended that documents be transmitted by overnight mail, by electronic mail to Christopher.Lawrence@hq.doe.gov, or by facsimile to (202) 586–8008.

FOR FURTHER INFORMATION CONTACT: Christopher Lawrence (Program Office) at (202) 586–5260, or by email to Christopher.Lawrence@hq.doe.gov.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated by the Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b), 7172(f)) and require authorization under section 202(e) of the FPA (16 U.S.C. 824a(e)).

On January 17, 2007 the Department of Energy (DOE) issued Order No. EA–315, which authorized BP Energy to transmit electric energy from the United States to Canada as a power marketer for a five-year term using existing international transmission facilities. That authority will expire on January 17, 2012. On October 31, 2011, BP Energy filed an application with DOE for renewal of the export authority contained in Order No. EA–315 for an additional five-year term.

The electric energy that BP Energy proposes to export to Canada would be surplus energy purchased from electric utilities, Federal power marketing agencies, and other entities within the United States. The existing international transmission facilities to be utilized by BP Energy have previously been authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the application at the address provided above. Protests should be filed in accordance with Rule 211 of the Federal Energy Regulatory Commission’s (FERC) Rules of Practice and Procedures (18 CFR 385.211). Any person desiring to become a party to these proceedings should file a motion to intervene at the above address in accordance with FERC Rule 214 (385.214). Five copies of such comments, protests, or motions to intervene should be sent to the address provided above on or before the date listed above.

Comments on the BP Energy application to export electric energy to Canada should be clearly marked with OE Docket No. 315–A. An additional copy is to be filed directly with Casey P. McFadden, BP Americas Inc., 201 Helios Way, Houston, TX 77079, casey.mcFadden@bp.com and Michael C. Griffen, Morgan, Lewis & Bockius LLP, 111 Pennsylvania Ave. NW., Washington, DC 20004, mgriffen@morganlewis.com. A final decision will be made on this application after the environmental impacts have been evaluated pursuant to DOE’s National Environmental Policy Act Implementing Procedures (10 CFR part 1021) and after a determination is made by DOE that the proposed action will not have an adverse impact on the reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address above in accordance with Rule 214 of the Federal Energy Regulatory Commission (18 CFR 385.214). Any person desiring to be heard in this proceeding should file a comment or protest to the application at the address provided above. Protests should be filed in accordance with Rule 211 of the FERC Rules of Practice and Procedures (18 CFR 385.211).

On February 22, 2007 the Department of Energy (DOE) issued Order No. EA–314, which authorized BP Energy to transmit electric energy from the United States to Mexico as a power marketer for a five-year term using existing international transmission facilities. That authority will expire on February 22, 2012. On October 31, 2011, BP Energy filed an application with DOE for renewal of the export authority contained in Order No. EA–314 for an additional five-year term.

The electric energy that BP Energy proposes to export to Mexico would be surplus energy purchased from electric utilities, Federal power marketing agencies, and other entities within the United States. The existing international transmission facilities to be utilized by BP Energy have previously been authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the application at the address provided above. Protests should be filed in accordance with Rule 211 of the FERC Rules of Practice and Procedures (18 CFR 385.211). Any person desiring to become a party to these proceedings should file a motion to intervene at the above address in accordance with FERC Rule 214 (385.214). Five copies of such comments, protests, or motions to intervene should be sent to the address provided above on or before the date listed above.

Comments on the BP Energy application to export electric energy to Mexico should be clearly marked with OE Docket No. 315–A. An additional
