

will help to identify best practices and collect information about the capacity of museums to reach the public with important public health messages.

A copy of the proposed information collection request can be obtained by contacting the individual listed below in the **ADDRESSES** section of this notice.

**DATES:** Written comments must be submitted to the office listed in the **ADDRESSES** section below on or before January 15, 2012.

IMLS is particularly interested in comments that help the agency to:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques, or other forms of information technology, e.g., permitting electronic submissions of responses.

**ADDRESSES:** Send comments to: Mamie Bittner, Institute of Museum and Library Services, 1800 M Street NW., 9th Floor, Washington, DC 20036. *Telephone:* (202) 653-4630. *Email:* [mbittner@imls.gov](mailto:mbittner@imls.gov) or by *teletype* (TTY/TDD) for persons with hearing difficulty at (202) 653-4614.

#### **SUPPLEMENTARY INFORMATION:**

##### **I. Background**

The Institute of Museum and Library Services is the primary source of federal support for the Nation's 123,000 libraries and 17,500 museums. The Institute's mission is to create strong libraries and museums that connect people to information and ideas. The Institute works at the national level and in coordination with state and local organizations to sustain heritage, culture, and knowledge; enhance learning and innovation; and support professional development. IMLS conducts policy research, analysis, and data collection to extend and improve the Nation's museum, library, and information services. The policy research, analysis, and data collection is used to: Identify national needs for, and trends in museum, library, and information services; measure and

report on the impact and effectiveness of museum, library, and information services throughout the United States; identify best practices; and develop plans to improve museum, library, and information services of the United States and strengthen national, State, local, regional, and international communications and cooperative networks. (20 U.S.C. Chapter 72, 20 U.S.C. 9108).

##### **II. Current Actions**

The information collection will be used by IMLS and its Let's Move partners, the White House Office of Domestic Policy and museum service organizations to assess the level of participation of the Nation's museums in the Let's Move initiative.

The intent of the collection:

- Develop a list of museums and gardens that are interested in delivering public health messages so that we can provide them with information (products of IMLS-supported grants, examples of best practices, links to resources) to support their efforts.
- Incorporate museums and gardens into the Let's Move effort and enable them to share information about their activities that promote healthy food choices and physical activity
- The list will be used by project partners for follow on activities to help to get feedback on implementing Let's Move activities and programs.
- Participating museums will be contacted about IMLS grant opportunities, but participation in Let's Move Museums and Let's Move Gardens will not be a factor in awarding grants.

*Agency:* Institute of Museum and Library Services.

*Title:* Let's Move Museums, Let's Move Gardens.

*OMB Number:* 3137-0080.

*Agency Number:* 3137.

*Frequency:* Annual.

*Affected Public:* Museums, state, local, tribal government and not-for-profit institutions.

*Number of Respondents:* 2,000.

*Estimated Time per Respondent:* .17.

*Total Annual Costs to Respondents:* \$6,069.

*Total Annualized to Federal Government:* \$55,120.

##### **FOR FURTHER INFORMATION CONTACT:**

Mamie Bittner, Institute of Museum and Library Services, 1800 M Street NW., 9th Floor, Washington, DC 20036. *Telephone:* (202) 653-4630. *Email:* [mbittner@imls.gov](mailto:mbittner@imls.gov) or by *teletype* (TTY/TDD) for persons with hearing difficulty at (202) 653-4614.

Date: November 10, 2011.

## **NATIONAL TRANSPORTATION SAFETY BOARD**

### **Public Aircraft Oversight Safety Forum**

The National Transportation Safety Board (NTSB) will convene a Public Aircraft Oversight Safety Forum which will begin at 9 a.m., Wednesday, November 30, 2011. NTSB Chairman Deborah A.P. Hersman will chair the two-day forum and all five Board Members will participate. The forum is open to all and free to attend (there is no registration).

Public aircraft are operated by a federal, state, or local government for the purpose of fulfilling governmental functions such as national defense, intelligence missions, firefighting, search and rescue, law enforcement, aeronautical research, or biological or resource management. Government organizations conducting public aircraft operations supervise their own flight and maintenance operations without oversight from the Federal Aviation Administration (FAA).

The goals of the forum, entitled "Public Aircraft Oversight Forum: Ensuring Safety for Critical Missions", are to (1) raise awareness of the importance of effective oversight in ensuring the safety of public aircraft operations; (2) identify where responsibility lies for oversight of public aircraft operations; and (3) facilitate the sharing of best practices and lessons learned across a number of parties involved in the oversight of public aircraft operations.

All of these areas will be explored through presentations by invited representatives from federal, state, and local government entities, aviation industry trade associations, and civil operators contracting with government agencies. At the conclusion of all presentations for each topic area, presenters will take part in a question and answer discussion with Board Members and NTSB staff.

Below is the preliminary forum agenda:

#### **Wednesday, November 30**

- Welcome and Opening Remarks.
- Defining Public Aircraft.
- Defining Oversight.
- The Role of the FAA in Public Aircraft Oversight.

—Oversight of Government-Owned Aircraft.

#### Thursday, December 1

- Oversight of Contracted Aircraft.
- Contractors' Perspective on Public Aircraft Oversight.
- Role of Organizations Representing Public Aircraft Operators and Contractors.
- Closing Remarks.

A detailed agenda and list of participants will be released closer to the date of the event.

Organizations and individuals can submit questions for consideration as part of the question and answer discussions. Submissions should directly address one or more of the forum's seven topic areas (identified by the panel titles) and should be submitted to [publicaircraft@ntsb.gov](mailto:publicaircraft@ntsb.gov). The deadline for receipt is November 25, 2011.

The forum will be held in the NTSB Board Room and Conference Center, located at 429 L'Enfant Plaza, SW., Washington, DC. The public can view the forum in person or by webcast at <http://www.ntsb.gov>.

NTSB Media Contact: Bridget Serchak, (202) 314-6100 (Washington, DC), [Bridget.serchak@ntsb.gov](mailto:Bridget.serchak@ntsb.gov).

NTSB Forum Manager: Georgia Struhsaker, (808) 329-9161 (Hawaii), [Georgia.Struhsaker@ntsb.gov](mailto:Georgia.Struhsaker@ntsb.gov).

Dated: November 10, 2011.

BILLING CODE 7533-01-P

## NUCLEAR REGULATORY COMMISSION

[Docket No. 40-9091; NRC-2011-0148]

### Strata Energy, Inc., Ross Uranium Recovery Project; New Source Material License Application; Notice of Intent To Prepare a Supplemental Environmental Impact Statement

**AGENCY:** U.S. Nuclear Regulatory Commission.

**ACTION:** Notice of intent to prepare a supplemental environmental impact statement.

**SUMMARY:** Strata Energy, Inc. (Strata) submitted an application for a new source material license for the Ross Uranium Recovery Project to be located in Crook County, Wyoming, 32 miles northeast of Gillette, Wyoming and 30 miles northwest of Sundance, Wyoming. The application proposes the construction, operation, and

decommissioning of uranium *in-situ* recovery (ISR), also known as *in-situ* leach, facilities and restoration of the aquifer from which the uranium is being extracted. Strata submitted the application for the new source material license to the U.S. Nuclear Regulatory Commission (NRC) by a letter dated January 4, 2011. A notice of receipt and availability of the license application, including the Environmental Report (ER), and opportunity to request a hearing was published in the **Federal Register** on July 13, 2011 (76 FR 41308). The purpose of this notice of intent is to inform the public that the NRC will be preparing a site-specific Supplemental Environmental Impact Statement (SEIS) to the Generic Environmental Impact Statement for *In-Situ* Leach Uranium Milling Facilities (ISR GEIS) for a new source material license for the Ross Uranium Recovery Project, as required by Title 10 of the *Code of Federal Regulations* (10 CFR) 51.26. In addition, as outlined in 36 CFR 800.8, "Coordination with the National Environmental Policy Act (NEPA)," the NRC plans to use the environmental review process as reflected in 10 CFR part 51 to coordinate compliance with Section 106 of the National Historic Preservation Act (NHPA).

**FOR FURTHER INFORMATION CONTACT:** For general information on the NRC NEPA process or the environmental review process related to the Ross Uranium Recovery Project application, please contact the NRC Environmental Project Manager, Alan Bjornsen, at (301) 415-1195 or [Alan.Bjornsen@nrc.gov](mailto:Alan.Bjornsen@nrc.gov).

Information and documents associated with the Ross Uranium Project, including the license application, are available for public review through the NRC electronic reading room: <http://www.nrc.gov/reading-rm/adams.html> and on the NRC's Ross Uranium Recovery Project Web page: <http://www.nrc.gov/materials/uranium-recovery/license-apps/ross.html>. Documents may also be obtained from NRC's Public Document Room at the U.S. Nuclear Regulatory Commission Headquarters, 11555 Rockville Pike (first floor), Rockville, Maryland.

#### SUPPLEMENTARY INFORMATION:

##### 1.0 Background

Strata submitted the application for a new source material license to the NRC for ISR facilities by a letter dated January 4, 2011. A notice of receipt and availability of the license application, including the ER, and opportunity to request a hearing was published in the **Federal Register** on July 13, 2011 (76 FR

41308). One request for hearing was received on October 27, 2011.

The NRC is preparing a draft SEIS that will tier off the ISR GEIS (NUREG-1910). While NRC's Part 51 regulations do not require scoping for SEISs, the NRC staff is planning to place ads in newspapers serving communities near the proposed site, requesting information and comments from the public regarding the proposed action. Also, NRC staff met with, and gathered information from, Federal, State, and local agencies as well as with public interest groups in conjunction with a visit to the proposed site. NRC staff may also use relevant information gathered during scoping for the GEIS to define the scope of the SEIS. In preparing the SEIS, the NRC staff is consulting with Bureau of Land Management, U.S. Fish & Wildlife Service, U.S. Army Corps of Engineers, Wyoming Department of Environmental Quality, Wyoming State Historic Preservation Office, Tribal Historic Preservation Offices, Wyoming Game and Fish Department, National Park Service, and the Crook County Natural Resource District in preparing the SEIS. The Bureau of Land Management is a cooperating agency with the NRC, under the Memorandum of Understanding, signed on November 30, 2009.

The NRC has begun evaluating the potential environmental impacts associated with the proposed ISR facility in parallel with the review of the license application. This environmental evaluation will be documented in draft and final SEISs in accordance with NEPA and NRC's implementing regulations contained in 10 CFR part 51. The NRC is required by 10 CFR 51.20(b)(8) to prepare an Environmental Impact Statement (EIS), or supplement to an EIS, for the issuance of a new license to possess and use source material for uranium milling. The ISR GEIS and the site-specific SEIS fulfill this regulatory requirement. The purpose of the present notice is to inform the public that the NRC staff will prepare a site-specific supplement to the ISR GEIS as part of the review of the application.

##### 2.0 Ross ISR Facilities

The proposed ISR facilities, if licensed, would include a central processing plant and appurtenant features, accompanying wellfields, and wastewater retention (storage) ponds. The ISR process involves the dissolution of the water-soluble uranium from the mineralized host sandstone rock by pumping oxidants (oxygen or hydrogen peroxide) and chemical compounds (sodium
