such rule or action. Parties with objections to this direct final rule are encouraged to file a comment in response to the parallel notice of proposed rulemaking for this action published in the proposed rules section of today’s Federal Register, rather than file an immediate petition for judicial review of this direct final rule, so that EPA can withdraw this direct final rule and address the comment in the proposed rulemaking. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2)).

RIN 2130–ZA05

Adjustment of Monetary Threshold for Reporting Rail Equipment Accidents/Incidents for Calendar Year 2012

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Final rule.

SUMMARY: This rule increases the rail equipment accident/incident reporting threshold from $9,400 to $9,500 for certain railroad accidents/incidents involving property damage that occur during calendar year 2012. This action is needed to ensure that FRA’s reporting requirements reflect cost increases that have occurred since the reporting threshold was last published in December 2010.

DATES: This regulation is effective January 1, 2012.

FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION:

Background

A “rail equipment accident/incident” is a collision, derailment, fire, explosion, act of God, or other event involving the operation of railroad on-track equipment (standing or moving) that results in damages to railroad on-track equipment, signals, tracks, track structures, or roadbed, including labor costs and the costs for acquiring new equipment and material, greater than the reporting threshold for the year in which the event occurs. 49 CFR 225.19(c). Each rail equipment accident/incident must be reported to FRA using the Rail Equipment Accident/Incident Report (Form FRA F 6180.54). 49 CFR 225.19(b) and (c). As revised, effective in 1997, paragraphs (c) and (e) of 49 CFR 225.19 provide that the dollar figure that constitutes the reporting threshold for rail equipment accidents/incidents will be adjusted, if necessary, every year in accordance with the procedures outlined in appendix B to part 225 to reflect any cost increases or decreases.

New Reporting Threshold

Approximately one year has passed since the rail equipment accident/incident reporting threshold was revised. 75 FR 75911 (December 7, 2010). Consequently, FRA has recalculated the threshold, as required by § 225.19(c), based on increased costs for labor and increased costs for equipment. FRA has determined that the current reporting threshold of $9,400, which applies to rail equipment accidents/incidents that occur during calendar year 2011, should increase by $100 to $9,500 for equipment accidents/incidents occurring during calendar year 2012, effective January 1, 2012. The specific inputs to the equation set forth in appendix B (i.e., $\text{New} = \text{T prior} + 0.4\text{(Wnew}−\text{W prior})+0.6\text{(Enew}−\text{E prior})/100))$ to part 225 are:
