Provisional monthly catches within 30 days following the calendar month in which the catches were made; observer reports within 30 days following the completion of a fishing trip; and an annual statement of actions taken in order to comply with the NAFO Convention; and notification to NMFS of the termination of the charter fishing activities. Furthermore, the United States may also consider the vessel’s previous compliance with NAFO bycatch, reporting and other provisions, as outlined in the NAFO Conservation and Enforcement Measures, before entering into a chartering arrangement. More details on NAFO requirements are available from NMFS (see ADDRESSES).

In the event that multiple expressions of interest are made by U.S. fishing interests to fish for NAFO Division 3LNO yellowtail in 2012, the information submitted regarding benefits to the United States will be used in making a selection. After reviewing all requests for allocations submitted, NMFS may decide not to grant any allocations if it is determined that no requests meet the criteria described in this notice. Once a decision has been made regarding the disposition of the fishing opportunity, NMFS will immediately take appropriate steps to notify all applicants and will contact Canada and NAFO to take appropriate action. Please note that if any 3LNO yellowtail flounder is transferred from Canada and subsequently awarded to a U.S. vessel or a specified chartering operation during 2012, it may not be transferred without the express, written consent of NMFS.

Dated: December 9, 2011.

Privacy Act of 1974; Notice of a Computer Matching Program

AGENCY: Defense Manpower Data Center, Department of Defense (DoD).

ACTION: Notice of a Computer Matching Program.

SUMMARY: Subsection (e)(12) of the Privacy Act of 1974, as amended, (5 U.S.C. 552a) requires agencies to publish advance notice of any proposed or revised computer matching program by the matching agency for public comment. The DoD, as the matching agency under the Privacy Act is hereby giving notice to the record subjects of a computer matching program between the Department of Veterans Affairs (VA) and DoD, Defense Manpower Data Center (DMDC) that their records are being matched. The purpose of this agreement is to verify an individual’s continuing eligibility for VA benefits by identifying VA disability benefit recipients who return to active duty and to ensure that benefits are terminated if appropriate.

DATES: This proposed action will become effective January 13, 2012 and matching may commence unless changes to the matching program are required due to public comments or by Congressional or Office of Management and Budget objections. Any public comment must be received before the effective date.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

Instructions: All submissions received must include the agency name, docket number and title for this Federal Register document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the Internet at http://www.regulations.gov as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: Mr. Samuel P. Jenkins, Director, Defense Privacy and Civil Liberties Office, 1901 South Bell Street, Suite 920, Arlington, VA 22202–4512, or by telephone at (703) 607–2943.

SUPPLEMENTARY INFORMATION: Pursuant to subsection (o) of the Privacy Act of 1974, as amended, (5 U.S.C. 552a), the DMDC and VA have concluded an agreement to conduct a computer matching program between the agencies. The purpose of this agreement is to verify an individual’s continuing eligibility for VA benefits by identifying VA disability benefit recipients who return to active duty and to ensure that benefits are terminated if appropriate.

The parties to this agreement have determined that a computer matching program is the most efficient, expeditious, and effective means of obtaining the information needed by the VA to identify ineligible VA disability compensation recipients who have returned to active duty. This matching agreement will identify those veterans who have returned to active duty, but are still receiving disability compensation. If this identification is not accomplished by computer matching, but is done manually, the cost would be prohibitive and it is possible that not all individuals would be identified.

A copy of the computer matching agreement between VA and DMDC is available upon request to the public. Requests should be submitted to the Director for Privacy, Defense Privacy and Civil Liberties Office, 1901 South Bell Street, Suite 920, Arlington, VA 22202–4512 or to the Department of Veterans Affairs, Veterans Benefit Administration, 810 Vermont Avenue NW., Washington, DC 20420.

Set forth below is the notice of the establishment of a computer matching program required by paragraph 6.c. of the Office of Management and Budget Guidelines on computer matching published in the Federal Register at 54 FR 25818 on June 19, 1989.

The matching agreement, as required by 5 U.S.C. 552a(r) of the Privacy Act, and an advance copy of this notice was submitted on December 8, 2011, to the House Committee on Government Reform, the Senate Committee on Governmental Affairs, and the Administrator of the Office of Information and Regulatory Affairs, Office of Management and Budget pursuant to paragraph 4d of Appendix I to OMB Circular No. A–130, ‘Federal Agency Responsibilities for Maintaining Records about Individuals,’ dated February 8, 1996 (61 FR 6435).
