that were included in the alternatives analysis for the Project. Although, Western is making a decision regarding
the interconnection request submitted by Solar Reserve and does not dictate the 
type of generation, the SA/DEIS examined alternative generation types.
Land use plan inconsistency is also noted by La Cuna and CARE. Western notes the comment and emphasizes that 
the decision being made in this ROD is only to grant the interconnection 
request for the Project and does not signify that all the other permitting and 
land use requirements have been met.
La Cuna and CARE mention that, “the purpose and need statements are too 
narrowly constructed.” Western has 
noted the comment and refers the reader to 
pages 2–4 and 2–8 through 2–9 for more information on the agency’s 
authority, Purpose and Need.
Cumulative impacts were another 
issue of concern for La Cuna and CARE. Western directs the reader to section 5 
of the document for the rationale 
describing which projects were 
considered for the cumulative impacts 
analysis as well as for the results of the analysis.
La Cuna and CARE also expressed 
concern that a programmatic EIS (PEIS) 
should have been developed prior to 
this EIS. Although, there is currently a 
PEIS being developed for solar projects, there is no requirement for the completion of a PEIS prior to the 
completion of a project specific EIS.

Lack of appropriate mitigation was 
also noted by La Cuna and CARE. Western directs the reader to the 
SA/DEIS and the CEC Conditions of 
Certification to the 186 conditions of certification/mitigation measures that 
have been created and will be 
implemented for the Project.

Finally, La Cuna and CARE raise a 
concern that, “the RMP violates the 
Federal Land Policy Management Act 
[FLPMA].” Western acknowledges this 
comment and the concern that La Cuna and CARE have with BLM’s FLMPA 
responsibilities.

Decision

Western’s decision is to allow RSE’s 
request for interconnection to Western’s 
transmission system at its Parker-Blythe 
No. 2 Transmission Line and to 
construct, own and operate a new 
substation. Western’s decision to grant 
this interconnection request satisfies the 
agency’s statutory mission and RSE’s  

3 Western’s authority to issue a ROD is pursuant to authority delegated on November 16, 2011, from DOE’s Office of the General Counsel.

These commercial television broadcast station licensees and the Class A television broadcast station licensees both use FCC Form 398:
