Intergovernmental Review

AGENCIES: Rural Housing Service, Rural Business-Cooperative Service, Rural Utilities Service and Farm Service Agency, USDA.

ACTION: Final rule.

SUMMARY: The U.S. Department of Agriculture ("Department") is amending several regulations, which make reference to RD Instruction 1940–J, Intergovernmental Review. This action is necessary since the affected regulations refer to RD Instruction 1940–J, which is being rewritten and replaced by RD Instruction 1970–I. The intended effect is to simplify and update the regulations and to ensure the Department’s field offices have current guidance on intergovernmental review of proposed projects being reviewed pursuant to the National Environmental Policy Act.

DATES: Effective Date: December 27, 2011.

SUPPLEMENTARY INFORMATION:

Classification

This action is not subject to the provisions of Executive Order 12866 since it involves only internal Agency management. This action is not published for prior notice and comment under the Administrative Procedure Act since it involves only internal Agency management and publication for comment is unnecessary and contrary to the public interest.

Civil Justice Reform

This final rule has been reviewed under Executive Order 12988, Civil Justice Reform. In accordance with this rule: (1) Unless otherwise specifically provided, all State and local laws and regulations that are in conflict with this rule will be preempted; (2) no retroactive effect will be given to this rule except as specifically prescribed in the rule; and (3) administrative proceedings of the National Appeals Division (7 CFR part 11) must be exhausted before litigation against the Department is instituted.

Unfunded Mandates Reform Act

Title II of the Unfunded Mandates Reform Act of 1995 (UMRA), Public Law 104–4, establishes requirements for Federal agencies to assess the effects of their regulatory actions on State, local, and tribal governments and the private sector. Under section 202 of the UMRA, agencies generally must prepare a written statement, including a cost-benefit analysis, for proposed and final rules with “Federal mandates” that may result in expenditures to State, local, or tribal governments, in the aggregate, or to the private sector, of $100 million or more in any one year. When such a statement is needed for a rule, section 205 of the UMRA generally requires agencies to identify and consider a reasonable number of regulatory alternatives and adopt the least costly, more cost-effective, or least burdensome alternative that achieves the objectives of the rule.

This rule contains no Federal mandates (under the regulatory provisions of title II of the UMRA) for State, local, and tribal governments or the private sector. Thus, the rule is not subject to the requirements of section 202 and 205 of the UMRA.

Environmental Impact Statement

This document has been reviewed in accordance with 7 CFR part 1940, subpart G, “Environmental Program.” The Agencies have determined that this final action does not constitute a major Federal action significantly affecting the quality of human environment, and in accordance with the National Environmental Policy Act of 1969, 42 U.S.C. 4321 et seq., an Environmental Impact Statement is not required.

Executive Order 13132, Federalism

The policies contained in this rule do not have any substantial direct effect on States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Nor does this rule impose substantial direct compliance costs on State and local governments. Therefore, consultation with the States is not required.

Programs Affected

The Programs impacted by this action, and associated Catalog of Federal Domestic Assistance numbers, are as follows:

10.415—Rural Rental Housing—Direct Loans.
10.433—Housing Preservation Grants.
10.438—Rural Rental Housing Program—Guaranteed Loans.
10.441—Technical and Supervisory Assistance Grants.
10.763—Emergency and Imminent Community Water Assistance Grants.
10.766—Community Facilities Loans and Grants.
10.767—Intermediary Relending Program.
10.768—Business and Industrial Loans.

Paperwork Reduction Act

This rule does not revise or impose any new information collection...
requirements from those approved by OMB.

E-Government Act Compliance

The Agencies are committed to complying with the E-Government Act, to promote the use of the Internet and other information technologies to provide increased opportunities for citizen access to Government information and services, and for other purposes.

Discussion of Final Rule

The Department is updating Agency regulations regarding intergovernmental reviews conducted pursuant to the National Environmental Policy Act (‘‘NEPA,’’ 40 CFR 1500–1508). To accomplish this goal, existing RD Instruction 1940–J, ‘‘Intergovernmental Review,’’ is being rewritten and replaced by RD Instruction 1970–I. Because several regulations make reference to RD Instruction 1940–J, revisions are needed to change all references from 1940–J to 1970–I. The intended effect is to simplify and update the regulations and to ensure the Department’s field offices have current guidance on intergovernmental review of proposed projects being reviewed pursuant to NEPA.

SUPPLEMENTARY INFORMATION:

History

The FAA has determined that the low and high altitude Alaska reporting point MARLO has the same name as another reporting point fix that is in use by another country and is contained in the aeronautical database. To overcome possible confusion and flight safety issues, the FAA is changing the name of the low and high altitude MARLO compulsory reporting point in the vicinity of Kodiak, Alaska, to become the CJAYY compulsory reporting point by removing MARLO and establishing CJAYY in the same location. The latitude and longitude information used to define the reporting point, as well as the intersection description information, are unchanged. Accordingly, since this is an administrative change and does not affect the boundaries, altitudes, or operating requirements of the airspace, notice and public procedures under Title 5 U.S.C. 553(b) are unnecessary.

The Rule

The FAA amends Title 14 Code of Federal Regulations (14 CFR) part 71 by removing the low and high altitude MARLO Alaskan compulsory reporting point in the vicinity of Kodiak, Alaska, and establishing the low and high altitude CJAYY Alaskan compulsory reporting point in the same location.

Alaskan Low Altitude Reporting Points are listed in paragraph 7004 of FAA Order 7400.9V dated August 9, 2011, and effective September 15, 2011, which is incorporated by reference in 14 CFR 71.1. Alaskan High Altitude Reporting Points are listed in paragraph 7005 of FAA Order 7400.9V dated August 9, 2011, and effective September 15, 2011, which is incorporated by reference in 14 CFR 71.1. The reporting points listed in this document will be revised subsequently in the Order.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority.

This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends Low and High Altitude Compulsory Reporting Points in Alaska.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with 311a, FAA Order 1050.1E, “Environmental Impacts: Policies and Procedures.” This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:
