ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

Approval and Disapproval and Promulgation of Implementation Plans; Texas; Infrastructure and Interstate Transport Requirements for the 1997 Ozone and the 1997 and 2006 PM\textsubscript{2.5} NAAQS

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The EPA is partially approving and partially disapproving submittals from the state of Texas pursuant to the Clean Air Act (CAA or Act) that address the infrastructure elements specified in the CAA section 110(a)(2), necessary to implement, maintain, and enforce the 1997 8-hour ozone and 1997 and 2006 fine particulate matter (PM\textsubscript{2.5}) national ambient air quality standards (NAAQS or standards). We are determining that the current Texas State Implementation Plan (SIP) meets the requirements for the 1997 8-hour ozone and the 1997 and 2006 PM\textsubscript{2.5} NAAQS at 110(a)(2)(A), (B), (E), (F), (G), (H), (K), (L), (M), and portions of (C), (D)(ii) and (J). We are determining that the current Texas SIP does not meet the infrastructure requirements for the 1997 8-hour ozone and the 1997 and 2006 PM\textsubscript{2.5} NAAQS at 110(a)(2) for portions of (C), (D)(ii) and (J). The EPA is also partially approving and partially disapproving SIP revisions submitted by the state of Texas for the purpose of addressing the provisions of CAA section 110(a)(2)(D)(i) for the 1997 8-hour ozone NAAQS and the 1997 and 2006 PM\textsubscript{2.5} NAAQS. These SIP revisions address the requirement that the Texas SIP have adequate provisions to prohibit air emissions from adversely affecting another state’s air quality through interstate transport. The EPA is partially approving and partially disapproving the provisions of these SIP submissions that emissions from sources in Texas do not interfere with measures required in the SIP of any other state under part C of the CAA to prevent significant deterioration of air quality, with regard to the 1997 8-hour ozone NAAQS and the 1997 and 2006 PM\textsubscript{2.5} NAAQS. The partial disapprovals herein are because Texas has stated it cannot issue permits for and does not intend to regulate greenhouse gas (GHG) emissions. The EPA is also approving SIP revisions that modify the Texas SIP for Prevention of Significant Deterioration (PSD) to include nitrogen oxides (NO\textsubscript{x}) as an ozone precursor. This action is being taken under section 110 and part C of the Act.

DATES: This rule is effective on January 27, 2012.
