I. Background
A. OIG Safe Harbor Provisions

Section 1128B(b) of the Social Security Act (the Act) (42 U.S.C. 1320a–7b(b)) provides criminal penalties for individuals or entities that knowingly and willfully offer, pay, solicit, or receive remuneration to induce or reward business reimbursable under the Federal health care programs. The offense is classified as a felony and is punishable by fines of up to $25,000 and imprisonment for up to 5 years. OIG may also impose civil money penalties, in accordance with section 1128A(a)(7) of the Act (42 U.S.C. 1320a–7a(al)(7)), or exclusion from the Federal health care programs, in accordance with section 1128(b)(7) of the Act (42 U.S.C. 1320a–7b(b)(7)).

Since the statute on its face is so broad, concern has been expressed for many years that some relatively innocuous commercial arrangements may be subject to criminal prosecution or administrative sanction. In response to the above concern, section 14 of the Medicare and Medicaid Patient and Program Protection Act of 1987, Public Law 100–93 § 14, the Act, § 1128B(b), 42 U.S.C. 1320a–7b(b), specifically required the development and promulgation of regulations, the so-called “safe harbor” provisions, specifying various payment and business practices that, although potentially capable of inducing referrals of business reimbursable under the Federal health care programs, would not be treated as criminal offenses under the anti-kickback statute and would not serve as a basis for administrative sanctions. OIG safe harbor programs have been developed “to limit the reach of the statute somewhat by permitting certain non-abusive arrangements, while encouraging beneficial and innocuous arrangements” (56 FR 35952, July 29, 1991). Health care providers and others may voluntarily seek to comply with these provisions so that they have the assurance that their business practices will not be subject to liability under the anti-kickback statute or related administrative authorities. The OIG safe harbor regulations are found at 42 CFR 1001.

B. OIG Special Fraud Alerts

OIG has also periodically issued Special Fraud Alerts to give continuing guidance to health care providers with respect to practices OIG finds potentially fraudulent or abusive. The Special Fraud Alerts encourage industry compliance by giving providers guidance that can be applied to their own practices. OIG Special Fraud Alerts are intended for extensive distribution directly to the health care provider community, as well as to those charged with administering the Federal health care programs.

In developing Special Fraud Alerts, OIG has relied on a number of sources and has consulted directly with experts in the subject field, including those within OIG, other agencies of the Department, other Federal and State agencies, and those in the health care industry.

C. Section 205 of the Health Insurance Portability and Accountability Act of 1996

Section 205 of the Health Insurance Portability and Accountability Act of 1996 (HIPAA), Public Law 104–191 § 205, the Act, § 1128D, 42 U.S.C. 1320a–7d, requires the Department to develop and publish an annual notice in the Federal Register formally soliciting proposals for modifying existing safe harbors to the anti-kickback statute and for developing new safe harbors and Special Fraud Alerts.

In developing safe harbors for a criminal statute, OIG is required to engage in a thorough review of the range of factual circumstances that may fall within the proposed safe harbor subject area so as to uncover potential opportunities for fraud and abuse. Only then can OIG determine, in consultation with the Department of Justice, whether it can effectively develop regulatory limitations and controls that will permit beneficial and innocuous arrangements within a subject area while, at the same time, protecting the Federal health care programs and their beneficiaries from abusive practices.

II. Solicitation of Additional New Recommendations and Proposals

In accordance with the requirements of section 205 of HIPAA, OIG last published a Federal Register solicitation notice for developing new safe harbors and Special Fraud Alerts on December 28, 2010 (75 FR 81536). As required under section 205, a status report of the public comments received in response to that notice is set forth in
Appendix F. OIG is not seeking additional public comment on the proposals listed in Appendix F at this time. Rather, this notice seeks additional recommendations regarding the development of new or modified safe harbor regulations and new Special Fraud Alerts beyond those summarized in Appendix F.

A detailed explanation of justifications for, or empirical data supporting, a suggestion for a safe harbor or Special Fraud Alert would be helpful and should, if possible, be included in any response to this solicitation.

In accordance with section 205 of HIPAA, we will consider a number of factors in reviewing proposals for new or modified safe harbor provisions, such as the extent to which the proposals would affect an increase or decrease in:

- Access to health care services,
- The quality of health care services,
- Patient freedom of choice among health care providers,
- Competition among health care providers,
- The cost to Federal health care programs,
- The potential overutilization of health care services, and
- The ability of health care facilities to provide services in medically underserved areas or to medically underserved populations.

In addition, we will also take into consideration other factors, including, for example, the existence (or nonexistence) of any potential financial benefit to health care professionals or providers that may take into account their decisions whether to (1) order a health care item or service or (2) arrange for a referral of health care items or services to a particular practitioner or provider.

B. Criteria for Developing Special Fraud Alerts

In determining whether to issue additional Special Fraud Alerts, we will consider whether, and to what extent, the practices that would be identified in a new Special Fraud Alert may result in any of the consequences set forth above, as well as the volume and frequency of the conduct that would be identified in the Special Fraud Alert.

Inspector General.

Advance Notice of Proposed Rulemaking Regarding a Competitive Process for Leasing Public Lands for Solar and Wind Energy Development

AGENCY: Bureau of Land Management.

ACTION: Advance notice of proposed rulemaking.

SUMMARY: The Bureau of Land Management (BLM) is issuing this Advance Notice of Proposed Rulemaking (ANPR) to solicit public comments and suggestions that will be used in preparing a proposed rule to establish a competitive process for leasing public lands for solar and wind energy development.

DATES: The BLM will accept comments and suggestions on the ANPR until February 27, 2012.

ADDRESSES: You may submit comments by any of the following methods:

FOR FURTHER INFORMATION CONTACT: Ray Brady at (202) 912–7312 or Linda Resseguie at (202) 912–7337 regarding the substance of this ANPR. For information on procedural matters or the rulemaking process generally, you may contact Joseph Berry at (202) 912–7312 or Linda Resseguie at (202) 912–7337 regarding the substance of this ANPR. For information on procedural matters or the rulemaking process generally, you may contact Joseph Berry at (202) 912–7312 or Linda Resseguie at (202) 912–7337 regarding the substance of this ANPR. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–(800) 877–8339, 24 hours a day, seven days a week to contact the above individuals.

SUPPLEMENTARY INFORMATION: In order to foster the growth and development of the renewable energy sector of the economy and to administer the public lands in a more orderly manner, the BLM believes that a rulemaking is needed to enhance the Agency’s ability to establish an efficient competitive process for issuing Right-of-Way (ROW) leases for solar and wind energy development that is based upon the Agency’s authority under the Federal Land Policy and Management Act (FLPMA) (43 U.S.C. 1701 et seq.).

The BLM believes that a competitive process would enhance its ability to capture fair market value for the use of public lands, as required under Section 504(g) of FLPMA (43 U.S.C. 1764(g)), and ensure fair access to leasing opportunities for renewable energy development. This rulemaking would establish a competitive bidding procedure for lands within designated solar and wind energy development leasing areas, define qualifications for potential bidders, and ensure that the financial arrangements necessary for the process.

The purpose of this ANPR is to solicit public comments that will be helpful to the BLM in preparing a subsequent proposed rule, as well as to gather the input that is needed to develop an efficient competitive process for ROW leasing. The scope of the proposed rule will include existing BLM wind and solar policies and guidelines, and terms and conditions of lease authorizations as well as the competitive process.

To help the BLM prepare the proposed rule, the Agency is seeking public comments and suggestions on the scope of the competitive process. See section III of this ANPR for a list of specific questions relating to this topic.

I. Public Comment Procedures

Commenting on the ANPR

Written comments and suggestions should:
- Be specific;
- Explain the reasoning behind your comments and suggestions; and
- Address the issues outlined in the ANPR.

For comments and suggestions to be the most useful, and most likely to inform decisions on the content of the proposed rule, they should:
- Be substantive; and
- Facilitate the development and implementation of an environmentally and fiscally responsible process for leasing public lands for solar and wind energy development.

The BLM is particularly interested in receiving comments and suggestions in response to the questions listed in
