IV. Regulatory Flexibility Act

A final regulatory flexibility analysis has been prepared consistent with the Regulatory Flexibility Act, 5 U.S.C. 604, and is summarized as follows:

This rule implements a statutory requirement under section 866 of the National Defense Authorization Act (NDAA) for Fiscal Year (FY) 2011. Section 866 authorized the Secretary of Defense to establish a pilot program to assess the feasibility and advisability of acquiring military-purpose nondevelopmental items.

The objective of this new DoD program is to permit DoD to enter into contracts with nontraditional defense contractors for the purpose of (1) Enabling DoD to acquire items that otherwise might not have been available to DoD; (2) assisting DoD in the rapid acquisition and fielding of capabilities needed to meet urgent operational needs; and (3) protecting the interests of the United States in paying fair and reasonable prices for the item or items acquired.

No public comments were received in response to the initial regulatory flexibility analysis. The Chief Counsel for Advocacy of the Small Business Administration did not file any comments in response to this rule.

DoD is unable to estimate at this time the number of small entities impacted by the rule, since this is a new pilot program and its purpose is to identify and attract nontraditional defense contractors as defined within the rule and section 866 of the National Defense Authorization Act for Fiscal Year 2011.

There are no reporting, recordkeeping, or other compliance requirements to small entities associated with this rule. Additionally, there were no significant alternatives considered that met the stated objectives of the applicable statute.

V. Paperwork Reduction Act

The rule does not contain any information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35).

RIN 0648–XA927

Magnuson-Stevens Act Provisions;
Fisheries Off West Coast States;
Pacific Coast Groundfish Fishery;
Pacific Whiting and Non-Whiting Allocations;
Pacific Whiting Seasons

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Reapportionment of non-whiting catch allocations from mothership sector to catcher/processor sector; request for comments.

SUMMARY: This notification announces the reapportionment of 4.3 metric tons (mt) of Darkblotched rockfish, 6.5 mt of Pacific Ocean Perch, 3.3 mt of Canary rockfish, and 48.3 mt of Widow rockfish from the mothership sector to the catcher/processor sector.

DATES: The reapportionment of non-whiting is effective from 1600 local time, December 14, 2011, until December 31, 2011, unless modified, superseded or rescinded. Comments will be accepted through February 3, 2012.

ADDRESSES: You may submit comments, identified by NOAA–NMFS–2010–0194 by any of the following methods:

• Electronic Submissions: Submit all electronic public comments via the Federal eRulemaking Portal, at http://www.regulations.gov. To submit comments via the e-Rulemaking Portal, first click the “submit a comment” icon, then enter (NOAA–NMFS–2010–0194) in the keyword search. Locate the document you wish to comment on from the resulting list and click on the “Submit a Comment” icon on the right of that line.

• Fax: (206) 526–6736, Attn: Kevin C. Duffy.

• Email comments directly to NMFS, Northwest Region at:
  Whitingreapportionment@noaa.gov.

• Mail: William W. Stelle, Jr., Regional Administrator, Northwest Region, NMFS, 7600 Sand Point Way NE, Seattle, WA 98115–0070, Attn: Kevin C. Duffy.

Instructions: All comments received are a part of the public record and will generally be posted to http://www.regulations.gov without change. All Personal Identifying Information (for example, name, address, etc.) voluntarily submitted by the commenter may be publicly accessible. Do not submit Confidential Business Information or otherwise sensitive or protected information.

NMFS will accept anonymous comments (if submitting comments via the Federal Rulemaking Portal, enter “N/A” in the relevant required fields if you wish to remain anonymous). Attachments to electronic comments will be accepted in Microsoft Word, Excel, WordPerfect, or Adobe PDF file formats only.

FOR FURTHER INFORMATION CONTACT: Kevin C. Duffy (Northwest Region, NMFS), phone: (206) 526–4743, fax: (206) 526–6736 and email: kevin.duffy@noaa.gov.

Background

This action is authorized by regulations implementing the Pacific Coast Groundfish Fishery Management Plan (FMP), which governs the groundfish fishery off Washington, Oregon, and California.

Regulations at 50 CFR 660.150(c)(4)(ii) provide for the Regional Administrator to make available for harvest to the catcher/processor sector of the Pacific whiting fishery, the mothership sector’s nonwhiting catch allocation remaining when the Pacific whiting allocation is reached or when participants in the mothership sector do not intend to harvest the remaining allocation.

Consistent with these provisions, the Whiting Mothership Cooperative Manager notified NMFS in writing on December 13, 2011 that the Whiting Mothership Cooperative had concluded their harvest of mothership sector whiting for 2011.

The best available information on December 14, 2011 indicated that approximately 4.3 metric tons mt of

50 CFR Part 679

Fisheries of the Exclusive Economic Zone Off Alaska; Reallocation of Pollock in the Bering Sea and Aleutian Islands

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule.

SUMMARY: NMFS is reallocating the projected unused amounts of the Aleut Corporation’s pollock directed fishing allowance and the Community Development Quota from the Aleutian Islands subarea to the Bering Sea subarea directed fisheries. These actions are necessary to provide opportunity for harvest of the 2012 total allowable catch of pollock, consistent with the goals and objectives of the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), January 19, 2012, until the effective date of the final 2012 and 2013 harvest specifications for Bering Sea and Aleutian Islands (BSAI) groundfish, unless otherwise modified or superseded through publication of a notification in the Federal Register.

FOR FURTHER INFORMATION CONTACT: Mary Furuness, (907) 586–7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI exclusive economic zone according to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (FMP) prepared by the North Pacific Fishery Management Council (Council) under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR parts 606 and 679.

In the Aleutian Islands subarea, the portion of the 2012 pollock total allowable catch (TAC) allocated to the Aleut Corporation’s directed fishing allowance (DFA) is 15,500 metric tons (mt) and the Community Development Quota (CDQ) is 1,900 mt as established by the final 2011 and 2012 harvest specifications for groundfish in the BSAI (76 FR 11139, March 1, 2011), as adjusted by two inseason adjustments (76 FR 12607, March 8, 2011 and 76 FR 81876, December 29, 2011).

As of January 20, 2012, the Administrator, Alaska Region, NMFS, (Regional Administrator) has determined that 10,500 mt of Aleut Corporation’s DFA and 1,900 mt of pollock CDQ in the Aleutian Islands subarea will not be harvested. Therefore, in accordance with §679.20(a)(5)(iii)(B)(4), NMFS reallocates 10,500 mt of Aleut Corporation’s DFA and 1,900 mt of pollock CDQ from the Aleutian Islands subarea to the 2012 Bering Sea subarea allocations. The 1,900 mt of pollock CDQ is added to the 2012 Bering Sea CDQ DFA. The remaining 10,500 mt of pollock is apportioned to the AFA Inshore sector (50 percent), AFA catcher/processor sector (40 percent), and the AFA mothership sector (10 percent). The 2012 pollock incidental catch allowance remains at 32,400 mt.

As a result, the harvest specifications for pollock in the Aleutian Islands subarea included in the final 2011 and 2012 harvest specifications for groundfish in the BSAI (76 FR 11139, March 1, 2011) are revised as follows: 5,000 mt to Aleut Corporation’s DFA and 0 mt to CDQ pollock. Furthermore, pursuant to §679.20(a)(5), Table 3 of the final 2011 and 2012 harvest specifications for groundfish in the BSAI (76 FR 11139, March 1, 2011), as adjusted by two inseason adjustments (76 FR 12607, March 8, 2011 and 76 FR 81873, December 29, 2011), is revised to make 2012 pollock allocations consistent with this reallocation. This reallocation results in adjustments to the 2012 Aleut Corporation and CDQ pollock allocations established at §679.20(a)(5).
