enhances fair competition among exchange markets.

B. Self-Regulatory Organization’s Statement on Burden on Competition

IV. Commission’s Findings and Order Granting Accelerated Approval of the Proposed Rule Change

In its filing, CBOE requested that the Commission approve the proposed rule change on an accelerated basis so that the Program will continue uninterrupted. After careful consideration, the Commission finds the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange.7 In particular, the Commission finds that the proposed rule change is consistent with Section 6(b)(5) of the Act8 because the proposed rule change will further investor protection and the public interest by permitting the Program to continue uninterrupted since there are currently Credit Options listed for trading on the Exchange that have open interest.7

In addition, the Commission believes that the proposed alternative tables that may be used by market participants to compute the required margin will provide market participants with some flexibility in computing margin, while still permitting the continued use of the existing margin tables. Finally, the Commission notes that the proposed rule change is substantively similar in all material respects to the margin pilot program administered by FINRA under FINRA Rule 4240.

V. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,9 that the proposed rule change (SR–CBOE–2012–007), be, and it hereby is, approved on an accelerated basis to January 17, 2013.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.10

Kevin M. O’Neill,
Deputy Secretary.
