Agricultural Marketing Service

Title: Regulations Governing the Inspection and Grading of Manufactured or Processed Dairy Products—Recordkeeping.

OMB Control Number: 0581–0110. Summary of Collection: The Agricultural Marketing Service Act of 1946 directs the Department to develop programs that will provide and enable the marketing of agricultural products. One of these programs is the USDA voluntary inspection and grading program for dairy products where these dairy products are graded according to U.S. grade standards by an USDA grader. The dairy products so graded may be identified with the USDA grade mark. Dairy processors, buyers, retailers, institutional users, and consumers have requested that such a program be developed to assure the uniform quality of dairy products purchased. In order for any service program to perform satisfactorily, there must be written guides and rules, which in this case are regulations for the provider and user. Need and Use of the Information: The Agricultural Marketing Service will collect information to ensure that the dairy inspection program products are produced under sanitary conditions and buyers are purchasing a quality product. The information collected through recordkeeping are routinely reviewed and evaluated during the inspection of the dairy plant facilities for USDA approval. Without laboratory testing results required by recordkeeping, the inspectors would not be able to evaluate the quality of dairy products. Description of Respondents: Business or other for-profit. Number of Respondents: 935. Frequency of Responses: Recordkeeping; Reporting: On occasion; Quarterly. Total Burden Hours: 1,937.

Charlene Parker, Departmental Information Collection Clearance Officer.
