¹ These dates indicate the end of the reporting period. A reporting period always begins the day after the closing date of the last report filed. If the committee is new and has not previously filed a report, the first report must cover all activity that occurred before the committee registered as a political committee with the Commission up through the close of books for the first report due.

² Notice that this filing deadline falls on a weekend. Filing deadlines are not extended when they fall on nonworking days. Accordingly, reports filed by methods other than Registered, Certified, or Overnight Mail, or electronically, must be received before the Commission's close of business on the last business day before the deadline.

³ Notice that the registered/certified & overnight mailing deadline falls on a federal holiday. The report should be postmarked on or before that date.

Dated: February 14, 2012.

On behalf of the Commission.

Caroline C. Hunter,
Chair, Federal Election Commission.

Agency Information Collection Request. 30-Day Public Comment Request

AGENCY: Office of the Secretary, HHS.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Office of the Secretary (OS), Department of Health and Human Services, is publishing the following summary of a proposed collection for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

To obtain copies of the supporting statement and any related forms for the proposed paperwork collections referenced above, email your request, including your address, phone number, OMB number, and OS document identifier, to Sherette.funncoleman@hhs.gov, or call the Reports Clearance Office on (202) 690-5683. Send written comments and recommendations for the proposed information collections within 30 days of this notice directly to the OS OMB Desk Officer; faxed to OMB at 202-395-5806.

Proposed Project: Consumer Survey of Attitudes Toward the Privacy and Security Aspects of Electronic Health Records and Electronic Health Information Exchange (New)—OMB No. 0990-NEW—Office of the National Coordinator for Health Information Technology

Abstract: The widespread use of electronic health records and electronic health information exchange promises an array of potential benefits for

individuals and the U.S. health care system through improved health care quality, safety, and efficiency. At the same time, this environment poses new challenges and opportunities for protecting health information. The proposed information collection will permit us to better understand individuals' attitudes toward the privacy and security aspects of the use of electronic health records and electronic health information exchange as well as inform policy and programmatic objectives. The Office of the National Coordinator for Health Information Technology (ONC) is proposing to conduct a nationwide survey which will use computer-assisted telephone interviews (CATI) to interview a representative sample of the general population annually for 5 years looking at the percentage of individuals who are concerned about the privacy and security of electronic health records, who report having kept any part of their medical history from their

doctor due to privacy concerns, and who are concerned that an unauthorized person would see their medical information if it is sent electronically, among other key measures. ONC will assess whether these numbers increase, remain steady or decrease from 2012 (pre-implementation) to 2016 (post-implementation) in support of the ONC Coordinated Federal Health IT Strategic Plan to engage consumers and inspire confidence and trust in health IT. The data will be analyzed using statistical methods and a draft report will be prepared. ONC will hold a Web seminar prior to the publication of the final report to convey the findings to the general public. A final report will be posted on <http://healthit.hhs.gov>.

ONC expects to interview 100 individuals for the pretest survey as part of the initial implementation year and interview 2,000 individuals for the main survey administered annually for 5 years. The estimated annualized respondent burden is 842 hours.

ESTIMATED ANNUALIZED BURDEN TABLE

Forms	Type of respondent	Number of respondents	Number of responses per respondent	Average burden (in hours) per response	Total burden hours
Pretest Survey	General Public	100	1	25/60	42
Main Survey	General Public	10,000	1	25/60	4167
Total	10,100	1	25/60	4209

For more information regarding an Estimated Annual Respondent Burden specifically for cognitive testing please refer to OMB Control No: 0990-0376, Communications Testing for Comprehensive Communication Campaign for HITECH Act (expiration date 07/31/2014; ICR Reference No: 201106-0990-005).

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information

technology. Written comments should be received within 60 days of this notice.

Proposed Project

Evaluating the Effectiveness of Occupational Safety and Health Program Elements in the Wholesale Retail Trade Sector—New—National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The mission of the National Institute for Occupational Safety and Health (NIOSH) is to promote safety and health at work for all people through research and prevention. Under Public Law 91-596, sections 20 and 22 (Section 20-22, Occupational Safety and Health Act of 1970), NIOSH has the responsibility to conduct research to advance the health and safety of workers. In this capacity, NIOSH proposes to conduct a study to assess the effectiveness of occupational safety and health (OSH) program elements in the wholesale/retail trade (WRT) sector.
