individuals may have originated from the southwestern Colorado, but without additional evidence, it is not possible to make a cultural affiliation. The tribes consulted were those who expressed their wishes to be notified of discoveries in the Southwest Consultation Region as established by the Process.

The Native American Graves Protection and Repatriation Review Committee (Review Committee) is responsible for recommending specific actions for disposition of culturally unidentifiable human remains. On November 3–4, 2006, the Process was presented to the Review Committee for consideration. A January 8, 2007 letter on behalf of the Review Committee from the Designated Federal Officer transmitted the provisional authorization to proceed with the Process upon receipt of formal responses from the Jicarilla Apache Nation, New Mexico, and Kiowa Indian Tribe of Oklahoma, and subject to forthcoming conditions imposed by the Secretary of the Interior. On May 15–16, 2008, the responses from the Jicarilla Apache Nation, New Mexico, and Kiowa Indian Tribe of Oklahoma were submitted to the Review Committee. On September 23, 2008, the Assistant Secretary for Fish and Wildlife and Parks, as the designee for the Secretary of the Interior, transmitted the authorization for the disposition of culturally unidentifiable human remains according to the Process and NAGPRA, pending publication of a Notice of Inventory Completion in the Federal Register. This notice fulfills that requirement.

43 CFR 10.11 was promulgated March 15, 2010, providing for a process for the disposition of culturally unidentifiable Native American human remains recovered from tribal or aboriginal lands as established by the final judgment of the Indian Claims Commission or U.S. Court of Claims, a treaty, Act of Congress, or Executive Order, or other authoritative governmental sources. There is no evidence indicating that the human remains reported in this notice originated from tribal or aboriginal lands, making them eligible for disposition under the Process.

Consultation

A detailed assessment of the human remains was made by the Grand Rapids Public Museum professional staff in consultation with representatives of the Tohono O’odham Nation of Arizona on behalf of themselves and the Ak Chin Indian Community of the Maricopa (Ak Chin) Indian Reservation, Arizona; Gila River Indian Community of the Gila River Indian Reservation, Arizona; and the Salt River Pima-Maricopa Indian Community of the Salt River Reservation, Arizona. The Zuni Tribe of the Zuni Reservation, New Mexico, and the Hopi Tribe of Arizona indicated they were affiliated with the Hohokam culture but did not take part in consultation.

History and Description of the Remains

At an unknown date, a Hohokam red on buff swirl designed vessel containing the cremated remains of one individual was removed from an unknown location by an unknown individual. At an unknown date, G.S. Knapp acquired the Hohokam crematory vessel. In 1914, G.S. Knapp sold the vessel to the Grand Rapids Public Museum. No known individuals were identified. The one associated funerary object is a pottery vessel.

Although the Grand Rapids Public Museum’s records state that the vessel is from “Flats of Doe Run, MO” and is from a mound builder culture, Missouri is not an area traditionally occupied by the Hohokam, and the vessel type is indicative of an Arizona origin. On November 12, 2010, the vessel was identified by Peter Steere of the Tohono O’odham Nation of Arizona as being an Early-Middle Rincon Phase Red-on-Brown design from the Tucson Basin, ca. A.D. 1100. In 1990, representatives of the Ak Chin Indian Community of the Maricopa (Ak Chin) Indian Reservation, Arizona; Gila River Indian Community of the Gila River Indian Reservation, Arizona; Salt River Pima-Maricopa Indian Community of the Salt River Indian Reservation, Arizona; and Tohono O’odham Nation of Arizona issued a joint policy statement claiming ancestral ties to the Hohokam cultural traditions.

Determinations Made by the Grand Rapids Public Museum

Officials of the Grand Rapids Public Museum have determined that:

- Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice represent the physical remains of one individual of Native American ancestry.
- Pursuant to 25 U.S.C. 3001(3)(A), the one object described above is reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony.
- Pursuant to 25 U.S.C. 3001(2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and associated funerary object and the Tohono O’odham Nation of Arizona; Ak Chin Indian Community of the Maricopa (Ak Chin) Indian Reservation, Arizona; Gila River Indian Community of the Gila River Indian Reservation, Arizona; and the Salt River Pima-Maricopa Indian Community of the Salt River Reservation, Arizona.
