identified in the research represent both promising means for diagnosing SS earlier in disease progression as well as therapeutic targets to treat SS.

Potential Commercial Applications:
- Diagnosis of Sjögren’s syndrome
- Treatment of Sjögren’s syndrome

Competitive Advantages: The genes and autoantibodies identified in this technology may lead to one of the first diagnostic tests for Sjögren’s syndrome.

Development Stage:
- Early-stage
- In vitro data available

Inventors: Sharon M. Wahl (NIDCR), et al.

Bacterially Expressed Influenza Virus Recombinant HA Proteins for Vaccine and Diagnostic Applications

Description of Technology: Pandemic H1N1 influenza virus is a recently emergent strain of influenza virus that the World Health Organization (WHO) estimates has killed at least 14,711 people worldwide. Avian influenza viruses are emerging health threats with pandemic potential. Due to their global health implications, there has been a massive international effort to produce prophylactic vaccines against these influenza virus strains. Currently, influenza virus vaccines are produced in chicken eggs, a production method that is disadvantaged by lengthy vaccine production times and by inability to meet large-scale, global demands.

The subject technologies are specific recombinant HA proteins from H1N1, H5N1, and other strains of influenza virus produced in bacteria. The HA proteins properly fold, form oligomers, bind fetuin, agglutinate red blood cells and induce strong neutralizing antibody titers in several in vivo animal models. The key advantages of this technology are that expression of these proteins in bacteria reduces the vaccine production time and offers the ease of scalability for global usage, an issue with current production methods. The recombinant HA proteins can also be used for diagnostic applications.

Potential Commercial Applications:
- Vaccines for the prevention of influenza infection
- Diagnostics for influenza virus

Competitive Advantages:
- Novel vaccine candidates
- Rapid production time
- Ease of scalability

Development Stage:
- In vitro data available
- In vivo data available (animal)

Inventors: Hana Golding and Surender Khurana (FDA).

In vivo data available (animal) Inventors: Nadya Tarasova, et al.

Center for Scientific Review; Notice of Closed Meetings

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. App.), notice is hereby given of the following meetings.

The meetings will be closed to the public in accordance with the provisions set forth in sections 552(b)(4) and 552(b)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.
Name of Committee: Center for Scientific Review Special Emphasis Panel; Member Conflict: Epidemiology and Genetics of Chronic Disease.
Date: March 28–29, 2012.
Time: 10 a.m. to 4 p.m.
Agenda: To review and evaluate grant applications.
Place: National Institutes of Health, 6701 Rockledge Drive, Bethesda, MD 20892, (Virtual Meeting).
Contact Person: Julia Krushkal, Ph.D., Scientific Review Officer, Center for Scientific Review, National Institutes of Health, 6701 Rockledge Drive, Room 4214, MSC 7770, Bethesda, MD 20892, 301–435–1782, krushkalj@csr.nih.gov.

Name of Committee: Center for Scientific Review Special Emphasis Panel; Epidermal, Lupus, and Wound Healing.
Date: March 28–29, 2012.
Time: 10 a.m. to 5 p.m.
Agenda: To review and evaluate grant applications.
Place: National Institutes of Health, 6701 Rockledge Drive, Bethesda, MD 20892, (Virtual Meeting).
Contact Person: Baljit S Moonga, Ph.D., Scientific Review Officer, Center for Scientific Review, National Institutes of Health, 6701 Rockledge Drive, Room 4214, MSC 7806, Bethesda, MD 20892, 301–435–1777, moongals@mail.nih.gov.

Dated: February 29, 2011.
Jennifer S. Spaeth,
Director, Office of Federal Advisory Committee Policy.
