and nine purposively-selected former grantees. The case study sites will be selected from among the grantees in the 2007 cohort (“current grantees”) and those in the 2002 and 2004 cohorts (“former grantees”), and will provide information on some of the pre-service and in-service teacher training models and approaches that current grantees are using, as well as strategies that former grantees have used to track newly-minted teachers after program completion and to plan for continuing program services after the federal grant period.

The study will collect data from the current grantees through site visits and from the former grantees through telephone interviews.
