Federal Food, Drug, and Cosmetic Act (the FD&C Act), added by section 901(d)(3)(A) of the Food and Drug Administration Amendments Act of 2007 (Pub. L. 110–85) (FDAAA). This section requires that the major statement in DTC television or radio advertisements relating to the side effects and contraindications of an advertised prescription drug intended for use by humans be presented in a clear, conspicuous, and neutral manner, and directs FDA to publish regulations establishing the standards for determining whether a major statement meets these requirements. As directed by section 901(d)(3)(B) of FDAAA, the proposed rule described standards that the Agency would consider in determining whether the major statement is clear, conspicuous, and neutral, and it provided a 90-day period for public comment, which closed on June 28, 2010.

On January 27, 2012 (77 FR 4273), FDA reopened the comment period on this rulemaking until February 27, 2012, to allow an opportunity for interested parties to comment on FDA’s analyses of the results of its study (see attachment in Docket No. FDA–2009–N–0582–0040) on the impact of distraction on consumer understanding of risk and benefit information in DTC prescription drug television advertisements (72 FR 47051, August 22, 2007) (Distraction Study) as it relates to the proposed standards. The Pharmaceutical Research and Manufacturers of America (PhRMA) submitted a letter dated February 20, 2012, requesting an additional 15 days for interested persons to comment. FDA believes that an additional 15 days to comment on the Distraction Study as it relates to the proposed standards is appropriate.

II. Comments

Interested persons may submit to the Division of Dockets Management (see ADDRESSES) either electronic or written comments regarding the Distraction Study as it relates to the proposed standards. It is only necessary to send one set of comments. Identify comments with the docket number found in brackets in the heading of this document and label them “ATTN: Distraction Study.” The data and received comments may be seen in the Division of Dockets Management between 9 a.m. and 4 p.m., Monday through Friday.

Dated: March 16, 2012.

Basis and Purpose

The legal basis for this proposed rule is 33 U.S.C. 1223, which authorizes the Coast Guard to define Special Local Regulations. These temporary special local regulations are necessary to ensure the safety of vessels and spectators from hazards associated with the Ocean State Tall Ships Festival 2012.

Discussion of Proposed Rule

Newport, Rhode Island, will host the Ocean State Tall Ships Festival 2012 from July 6–9, 2012. This visit of Class A, B, and C sailing vessels is part of a recurring series of sail training races, rallies, cruises, and port festivals organized by Tall Ships America in conjunction with port hosts in the United States and Canada. The Ocean State Tall Ships Festival 2012, including a Parade of Sail, is akin to similar events held several times in the past in Newport, Rhode Island, the most recent being in 2007.

The Tall Ships visit to Newport, which will occur from July 6–9, 2012, will include a Parade of Sail on July 9, 2012. About 20 Class A, B, and C vessels are expected to participate in the Parade of Sail. These temporary special local regulations will provide for the safety of life and protection of property on the navigable waters of Narragansett Bay and Newport Harbor, Rhode Island, by providing for the organized viewing of Tall Ships at their assigned berths during the festival and by preventing the large number of spectator vessels from interfering with the organized and controlled Parade of Sail. There may be vessels participating in the event from several foreign countries and the high visibility of this event warrants that temporary special local regulations be established to ensure the safety of vessels and spectators from hazards associated with the Ocean State Tall Ships Festival 2012.

The participating vessels will berth at assigned facilities in Newport, Rhode Island, from July 5–9 2012. The festival begins on July 6, 2012, when visitors will be permitted to get a relatively close view of the Tall Ships from recreational vessels in Newport Harbor, and also to board the berthed vessels from shore. On the morning of July 9, 2012, the Tall Ships will depart Newport Harbor and transit up the East Passage, Narragansett Bay, to a turning point just north of Gould Island. The vessels will then transit back down the East Passage, exit Narragansett Bay, and head for sea.

The Coast Guard believes that vessel congestion due to the large number of participating and spectator vessels may pose a significant hazard to navigation. To reduce the risk associated with congested waterways the Coast Guard is proposing to establish regulated areas to restrict vessel movement around the location of the participating Tall Ships while berthed at Newport, Rhode Island, and also while participating in the Parade of Sail in Narragansett Bay. These temporary special local regulations would be in effect at various times in Narragansett Bay beginning on July 6, 2012 through July 9, 2012.

Area “Newport Harbor”:

This Area would include all waters of Newport Harbor within an area bounded by Aquidneck Island to the east and south, by the Goat Island Causeway to the north, and by a line extending from the southernmost tip of Goat Island due south to Aquidneck Island. This area is needed to protect the maritime public and participating vessels from hazards to navigation associated with numerous spectator craft approaching participating Tall Ships berthed at various facilities in the Newport area for the Ocean State Tall Ships Festival 2012.

Area “Potter Cove”:

In connection with the Parade of Sail on July 9, 2012, this area would be of the same size as being available in the docket, go to http://www.regulations.gov, type the docket number USCG–2012–0073 in the “SEARCH” box and click “SEARCH.” Click on Open Docket Folder on the line associated with this rulemaking.
Below we summarize our analyses based on 14 of these statutes or executive orders.

**Executive Order 12866 and Executive Order 13563**

This proposed rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, as supplemented by Executive Order 13563, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order.

We expect the economic impact of this proposed rule to be minimal. These proposed regulations involve only the southern portion of Narragansett Bay and would close the East Passage to commercial traffic only for several hours during the actual Parade of Sail on July 9, 2012. The West Passage would remain open to vessel traffic at all times. The impact of these proposed regulations will not be significant because the majority of these proposed regulations would be in effect for only a portion of one day centered on the Parade of Sail, and most vessel traffic can pass safely around affected areas of the East Passage by transiting through the West Passage, Narragansett Bay.

Notice of these special local regulations would be provided prior to the event through the Local Notice to Mariners and Broadcast Notice to Mariners. In addition, the sponsoring organization, Ocean State Tall Ships, Inc., is planning to publish information of the event in local newspapers, pamphlets, Internet sites, television, and radio broadcasts. Maritimers will be able to adjust their plans accordingly based on the extensive advance information.

Moreover, the Areas created by these special local regulations have been narrowly tailored to impose the least impact on maritime interests yet provide the level of safety and protection deemed necessary.

**Small Entities**

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered the impact of this proposed rule on small entities. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule will not have a significant economic impact on a substantial number of small entities.

This proposed rule may affect the following entities, some of which might be small entities: the owners or operators of vessels intending to transit or anchor in a portion of Narragansett Bay between July 6 and July 9, 2012, particularly during the Parade of Sail on July 9, 2012, when the navigation channel in the East Passage, Narragansett Bay, is closed for a period of time to all traffic except vessels participating in the Parade of Sail.

These proposed regulations would not have a significant economic impact on a substantial number of small entities for the following reasons: the regulations affecting navigation in the East Passage, Narragansett Bay, would be in effect temporarily, and only for those periods of time necessary for the safety of the Ocean State Tall Ships Festival 2012 participants and spectators in boats viewing the Parade of Sail from waters adjacent to the parade route. The East Passage would remain open to all vessel traffic for the entire Festival from July 6–8, 2012, and would only be closed to vessel traffic for several hours during the Parade of Sail on July 9, 2012. While the East Passage is closed, the West Passage would remain open and is capable of being used by all recreational and most commercial vessels.

Notice of these special local regulations would be provided prior to the event through Local Notice to Mariners and Broadcast Notice to Mariners. In addition, the sponsoring organization, Ocean State Tall Ships, Inc., is planning to publish information of the event in local newspapers, pamphlets, Internet sites, television, and radio broadcasts.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (see ADDRESSES) explaining why you think it qualifies and how to what degree this rule would economically affect it.

**Assistance for Small Entities**

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this proposed rule so that they can better evaluate its effects on them and participate in the rulemaking. If the proposed rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed under FOR FURTHER INFORMATION CONTACT. The Coast Guard will not retaliate against small entities that question or complain about this proposed rule or any policy or action of the Coast Guard.

**Collection of Information**

This proposed rule calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

**Federalism**

A proposed rule has implications for federalism under Executive Order 13132, Federalism. It has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this proposed rule under that Order and have determined that it does not have implications for federalism.

**Unfunded Mandates Reform Act**

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of $100,000,000 (adjusted for inflation) or more in any one year. Though this proposed rule will not result in such expenditure, we do discuss the effects of this proposed rule elsewhere in this preamble.

**Taking of Private Property**

This proposed rule will not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

**Civil Justice Reform**

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

**Protection of Children**

We have analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This proposed rule is not an economically significant rule and does not create an environmental risk to health or risk to safety that may disproportionately affect children.

**Indian Tribal Governments**

This proposed rule does not have tribal implications under Executive Order 13176.
Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

**Energy Effects**

We have analyzed this proposed rule under Executive Order 12291, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a “significant energy action” under that order because it is not a “significant regulatory action” under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

**Technical Standards**

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies. This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

**Environment**

We have analyzed this proposed rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.1D, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have made a preliminary determination that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. A preliminary environmental analysis checklist supporting this determination is available in the docket where indicated under ADDRESSES. It appears that this proposed rule will qualify for Coast Guard categorical exclusion 34(h), as described in figure 2–1 of the Instruction. This proposed rule establishes temporary special local regulations. We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.

   (b) **Special Local Regulations.**

   (1) Definitions.

   (i) As used in this section, designated representative means a Coast Guard Patrol Commander, including a Coast Guard coxswain, petty officer, or other officer operating a Coast Guard vessel and a Federal, State, or local officer designated by the Captain of the Port (COTP).

   (ii) Excursion vessel, as used in this section, refers to any vessel granted an excursion permit as such term is defined in 46 CFR 2.01–45.

   (iii) Vessel carrying passengers-for-hire, as used in this section, refers to, but is not limited to, vessels subject to regulation under Subchapters H, K, and T of Title 46 of the Code of Federal Regulations.

   (2) In accordance with the general regulations in section 100.35 of this part, entering into, transiting through, anchoring or remaining within the regulated areas is prohibited unless designated for vessels of that size or entry is authorized by the Captain of the Port (COTP) Southeastern New England or designated representative.

   (3) All persons and vessels are authorized by the COTP Southeastern New England to enter areas of these special location regulations in accordance with the following restrictions:

   (i) **Area Newport Harbor:** Vessels transiting this Area must do so at a speed of at least three (3) knots or at no wake speed, whichever is more, while not exceeding six (6) knots. Vessels must not maneuver within 20 yards of a moored Tall Ship. Vessels must transit...
this Area in a counterclockwise direction, entering Newport Harbor from the west, then proceeding north along the eastern side of the harbor to a turning point south of the Goat Island caisway in approximate position 41°29′28″ N and 71°19′40″ W, then proceeding south along the western side of Newport Harbor to the exit of the Area.

Vessels proceeding under sail will not be allowed in Area Newport Harbor unless also propelled by machinery, due to increased difficulty in maintaining required speed of advance while sailing as well as limited maneuvering ability to proceed in a single file behind numerous other spectator craft viewing the moored Tall Ships.

(iii) Area Parade of Sail: This will be closed to all vessel traffic, except those vessels designated as participants.

(4) All persons and vessels shall comply with the instructions of the COTP Southeastern New England or designated representative. Upon being hailed by a U.S. Coast Guard vessel by siren, radio, flashing lights, or other means the operator of a vessel shall proceed as directed.

(5) Persons and vessels desiring to enter, transit through, anchor in, or remain within the regulated areas must contact the COTP Southeastern New England by telephone at 508–457–3211, or designated representatives via VHF radio on channel 16, to request authorization. If authorization to enter, transit through, anchor in, or remain within the regulated areas is granted by the COTP Southeastern New England or designated representative, all persons and vessels receiving such authorization must comply with the instructions of the COTP Southeastern New England or designated representative.

(6) The Coast Guard will provide notice of the regulated areas prior to the event through the Local Notice to Mariners and Broadcast Notice to Mariners. Notice will also be provided by on-scene designated representatives.

(c) Enforcement Period: This section will be enforced during the following times.

(1) Area Newport Harbor, from 6 a.m. on July 6, 2012, to noon on July 9, 2012.
(2) Area Potter Cove, from 9 a.m. to 4 p.m. on July 9, 2012.
(3) Area Parade of Sail, from 9 a.m. to 4 p.m. on July 9, 2012.
