DEPARTMENT OF ENERGY
Federal Energy Regulatory Commission

[Docket No. CP12–106–000]

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the Line 524J–200 Abandonment Project involving abandonment of facilities by Tennessee Gas Pipeline Company, L.L.C. (TGP) in Lafourche Parish, Louisiana. The Commission will use this EA in its decision-making process to determine whether the project is in the public convenience and necessity. This notice announces the opening of the scoping process which the Commission will use to gather input from the public and interested agencies on the project. Your input will help the Commission staff determine what issues they need to evaluate in the EA. Please note that the scoping period will close on May 31, 2012. This notice is being sent to the Commission’s current environmental mailing list for this project. State and local government representatives should notify their constituents of this proposed project and encourage them to comment on their areas of concern.

TGP provided landowners with a fact sheet prepared by the FERC entitled “An Interstate Natural Gas Facility On My Land? What Do I Need To Know?”. This fact sheet addresses a number of typically-asked questions, including the use of eminent domain and how to participate in the Commission’s proceedings. It is also available for viewing on the FERC Web site (www.ferc.gov).

Summary of the Proposed Project

TGP proposes to abandon in place approximately 9.8 miles of 24-inch-diameter natural gas pipeline, known as Line 254J–200, in Lafourche Parish, Louisiana. In order to comply with the U.S. Department of Transportation’s Pipeline and Hazardous Materials Safety Administration’s regulations, TGP must replace a portion of the pipeline or remove the pipeline from service by December 31, 2012. TGP proposes to cut, cap, and abandon the pipeline in place. Construction of the project would disturb less than one acre of land. The general location of the project facilities is shown in appendix 1.

The EA Process

The National Environmental Policy Act (NEPA) requires the Commission to take into account the environmental impacts that could result from an action whenever it considers the issuance of a Certificate of Public Convenience and Necessity. NEPA also requires us to discover and address concerns the public may have about proposals. This process is referred to as “scoping.” The main goal of the scoping process is to focus the analysis in the EA on the important environmental issues. By this notice, the Commission requests public comments on the scope of the issues to address in the EA. We will consider all filed comments during the preparation of the EA.

1 The appendices referenced in this notice will not appear in the Federal Register. Copies of appendices were sent to all those receiving this notice in the mail and are available at www.ferc.gov using the link called “eLibrary” or from the Commission’s Public Reference Room, 888 First Street NE., Washington, DC 20426, or call (202) 502–8371. For instructions on connecting to eLibrary, refer to the last page of this notice.
