The solution will accept output from a wide range of ophthalmic devices and input formats, and convert to standard DICOM formats (e.g. using freeware tools).
- Usability and interface for image viewing
- The solution will have an easy-to-use interface for clinicians with a range of experience and comfort level with technology.
- The solution will provide the ability to view and annotate diagnostic-quality ophthalmic images.
- Integration with workflow
- The solution will be convenient to integrate into clinical ophthalmology workflow, to install on existing office hardware platforms, and to integrate with existing EHR systems (e.g. “single sign-on”).
- Platform Neutrality

Additional Information
Ownership of intellectual property is determined by the following:
- Each entrant retains title and full ownership in and to their submission. Entrants expressly reserve all intellectual property rights not expressly granted under the challenge agreement.
- By participating in the challenge, each entrant hereby irrevocably grants to Sponsor and Administrator a limited, non-exclusive, royalty free, worldwide, license and right to reproduce, publicly perform, publicly display, and use the Submission to the extent necessary to administer the challenge, and to publicly perform and publicly display the Submission, including, without limitation, for advertising and promotional purposes relating to the challenge.
