

near beach communities, simulating natural fire processes on refuge habitats, and conducting wildlife and habitat monitoring. We would continue to offer hunting and fishing opportunities on refuge lands, and respond to requests for interpretive and school programs.

#### *Alternative B (Service-Preferred)*

This alternative is the Service-preferred alternative. It combines the actions we believe would most effectively achieve the refuge's purposes, vision, and goals and responds to the issues raised during the scoping period. Under alternative B, the refuge would actively manage habitat to mimic natural processes and restore habitat quality. At the same time, the refuge would strategically reduce management actions that are contrary to the directions of the biological integrity, diversity, and environmental health policy, such as artificial maintenance of extensive freshwater wetlands that are vulnerable to sea level rise. Alternative B would enhance visitor services through a proposed expansion of the hunting program with greater administrative efficiency, new hiking trails, and expanded fishing opportunities and environmental education programs. Under alternative B, we would not reinstate the cooperative farming program; instead, we would propose to restore areas previously farmed to native forest habitat.

#### *Alternative C (Historic Habitat Management)*

Alternative C emphasizes a return to habitat management programs that were conducted on the refuge through most of its existence, but were stopped in recent years for a variety of reasons. The historic habitat management programs conducted for the benefit of migratory birds include the use of cooperative farming in upland refuge fields and management of freshwater wetland impoundments. Under this alternative, we would conduct necessary infrastructure and duneline enhancements to re-establish management of freshwater impoundments. In contrast to alternatives A or B, alternative C less effectively addresses the refuge's purposes, mission, and Service policies, as it is less likely to be naturally sustainable, will require perpetual intervention to sustain dunes in their former location, and will be more vulnerable to coastal storm events that may overtop an artificially maintained barrier and introduce salt water into a managed freshwater marsh system. Upland fields previously enrolled in the

cooperative farming program would once again be managed through farming practices with the cooperation of local farmers. Alternative C would expand opportunities for hunting and have a greater emphasis on public outreach and education. Compared to alternative B, however, alternative C would decrease the amount of hunting areas and opportunities. Fishing, wildlife observation, and wildlife photography would be similar to those in alternative A. Under alternative C, we would further enhance local community outreach and partnerships, continue to support a friends group, and continue to provide valuable volunteer experiences. We would also promote research and the development of applied management practices through local universities to sustain and enhance natural composition, patterns, and processes within their range on the Delmarva Peninsula.

In addition to any methods in **ADDRESSES**, you can view or obtain documents on the refuge Web site: <http://www.fws.gov/northeast/planning/Prime%20Hook/ccphome.html>.

#### **Submitting Comments/Issues for Comment**

We are seeking substantive comments, particularly on the following issues:

- Issue 1—Climate change, sea-level rise, and marshes;
- Issue 2—Mosquito control;
- Issue 3—Cooperative farming;
- Issue 4—Hunting; and
- Issue 5—Nuisance species

We consider comments substantive if they:

- Question, with reasonable basis, the accuracy of the information in the document;
- Question, with reasonable basis, the adequacy of the EIS;
- Present reasonable alternatives other than those presented in the EIS; and/or
- Provide new or additional information relevant to the EIS.

#### **Next Steps**

After this comment period ends, we will analyze the comments and address them in the form of a final CCP/EIS.

#### **Public Availability of Comments**

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment

to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

#### **Notice of Intent To Prepare an Environmental Impact Statement for the Proposed Fee-to-Trust Transfer of Property and Subsequent Development of a Resort/Hotel and Ancillary Facilities in the City of Taunton, MA and Tribal Government Facilities in the Town of Mashpee, MA by the Mashpee Wampanoag Tribe**

**AGENCY:** Bureau of Indian Affairs, Interior.

**ACTION:** Notice.

**SUMMARY:** This notice advises the public that the Bureau of Indian Affairs (BIA) intends to gather the information necessary for preparing an environmental impact statement (EIS) for the conveyance into trust of 170.1 acres of land currently held by the Mashpee Wampanoag Tribe (Tribe) in the Town of Mashpee, Massachusetts, and 146.39 acres of land in the City of Taunton. The purpose of the proposed action is to help provide for the economic development of the Tribe and to create a tribal land base. The Tribe is currently federally recognized but does not currently have a federally protected reservation or have land that is held in trust for the Tribe by the United States. This notice also announces public scoping meetings to identify potential issues, alternatives, and content for inclusion in the EIS.

**DATES:** Written comments on the scope of the EIS or implementation of the proposal must arrive by July 2, 2012. The public scoping meetings will be held June 20, 2012, in Taunton, Massachusetts, and June 21, 2012, in Mashpee, Massachusetts. Both meetings will begin at 6 p.m. and last until the last public comment is received.

**ADDRESSES:** You may mail, hand deliver, or telefax written comments to Franklin Keel, Regional Director, Eastern Regional Office, Bureau of Indian Affairs, 545 Marriott Drive, Suite 700, Nashville, Tennessee 37214, Telefax (615) 564–6701. Please include your name, return address and the caption specifying “Scoping Comments

for Proposed Mashpee Wampanoag Tribe Property Trust and Development” on the first page of your written comments. The public scoping meetings will be held at the Taunton High School, 50 William Street, Taunton, Massachusetts and Mashpee High School, 500 Old Barnstable Road, Mashpee, Massachusetts.

**FOR FURTHER INFORMATION CONTACT:** Chet McGhee, Regional Environmental Scientist, Eastern Regional Office, Bureau of Indian Affairs, 545 Marriott Drive, Suite 700, Nashville, Tennessee 37214; telephone: (615) 564-6500.

**SUPPLEMENTARY INFORMATION:** The Tribe proposes that 146.39 acres in the City of Taunton, Massachusetts, be taken into trust and for the development of a casino, hotel, parking, and other facilities supporting the casino. The Tribe also proposes that 170.1 acres in the Town of Mashpee, Massachusetts, be taken into trust, for the continuation of its current uses of Tribal government and housing. The property in the City of Taunton is located within the current site of the Liberty & Union Industrial Park, generally bounded on the south by Route 140, on the west by Route 24, on the north by Middleborough Avenue, and on the east by Stevens Street. The proposed action is to develop a Class III gaming facility including a casino, parking structures, hotels, restaurants, retail, and a waterpark. The site is proposed to be accessible from Route 140 via Stevens Street. The property in the Town of Mashpee is located across eleven parcels totaling approximately 170.1 acres, including areas currently in use by the Tribe as council offices, a museum, and a burial ground. Proposed actions for the parcels include preserving these educational, recreational, and cultural sites as well as vacant land areas, in addition to developing some vacant land for tribal housing and building a permanent Tribal Government Center at the current site of Tribal Council Offices.

Areas of environmental concern so far identified that the EIS will address include traffic, air quality, wetland resources, cultural and historic resources, water supply, wastewater, storm water, land impacts, rare species and wildlife, environmental justice, soils and geology, land use, community character, and safety. The range of issues addressed in the EIS may also be expanded based on comments received in response to this notice and at the public scoping meeting.

#### Public Comment Availability

Comments, including names and addresses of respondents, will be

available for public review at all of the mailing addresses shown in the **ADDRESSES** section (except those for the public meetings) during business hours, 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
