requires certain labeling on these products and their packaging to identify the name and address of the manufacturer or distributor and the model number of the product. Additionally, the exemption regulation requires that records be established and maintained for 3 years that relate to testing, inspection, sales, and distributions of these products. The regulation does not specify a particular form or format for the records. Manufacturers and importers may rely on records kept in the ordinary course of business to satisfy the recordkeeping requirements, if those records contain the required information.

If a manufacturer or importer distributes products that violate the banning rule, the records required by section 1500.86(a)(4) can be used by the manufacturer or importer and the CPSC: (i) To identify specific models of products that fail to comply with applicable requirements, and (ii) to notify distributors and retailers if the products are subject to recall.

The OMB approved the collection of information requirements in the regulations under control number 3041–0019. OMB’s most recent extension of approval expires on August 31, 2012. The CPSC now proposes to request an extension of approval, without change, for the collection of information requirements.

B. Estimated Burden

CPSC staff estimates that about 25 firms are subject to the testing and recordkeeping requirements of the regulations. Firms are expected to test on the average two new models per year per firm. CPSC staff estimates further that the burden imposed by the regulations on each of these firms is approximately 1 hour per year on the recordkeeping requirements and 30 minutes or less per model on the label requirements. Thus, the annual burden imposed by the regulations on all manufacturers and importers is approximately 30 hours on recordkeeping (25 firms × 2 hours) and 25 hours on labeling (25 firms × 1 hour) for a total annual burden of 75 hours per year.

CPSC staff estimates that the hourly wage for the time required to perform the required testing and recordkeeping is approximately $61.24 (Bureau of Labor Statistics: Total compensation rates for management, professional, and related occupations in private goods-producing industries, December 2011). The annualized total cost to the industry is estimated to be $3,745.

The Commission will expend approximately 2 days of professional staff time reviewing records required to be maintained by the regulations for baby-bouncers, and walker-jumpers. The annual cost to the federal government of the collection of information in these regulations is estimated to be about $165. This is based on an average hourly wage rate of $57.13 (the equivalent of a GS–14 Step 5 employee) with an additional 30.2 percent added for benefits (BLS, Percentage of total compensation comprised by benefits for all civilian management, professional, and related employees, December 2011), or $82.56 × 2 hours.

C. Request for Comments

The Commission solicits written comments from all interested persons about the proposed collection of information. The Commission specifically solicits information relevant to the following topics:

—Whether the collection of information described above is necessary for the proper performance of the Commission’s functions, including whether the information would have practical utility;

—Whether the estimated burden of the proposed collection of information is accurate;

—Whether the quality, utility, and clarity of the information to be collected could be enhanced; and

—Whether the burden imposed by the collection of information could be minimized by use of automated, electronic, or other technological collection techniques, or other forms of information technology.

Dated: June 14, 2012.

Todd A. Stevenson,
Secretary, Consumer Product Safety Commission.

DEPARTMENT OF DEFENSE

Office of the Secretary

[Docket ID DoD–2012–OS–0070]

Proposed Collection; Comment Request

AGENCY: Office of the Under Secretary of Defense for Personnel and Readiness.

ACTION: Notice.

In compliance with Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Office of the Under Secretary of Defense for Personnel and Readiness announces a proposed public information collection and seeks public comment on the provisions thereof. Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency’s estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Consideration will be given to all comments received by August 20, 2012.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

• Federal eRulemaking Portal: http://www.regulations.gov. Follow the instructions for submitting comments.
Instructions: All submissions received must include the agency name, docket number and title for this Federal Register document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the Internet at http://www.regulations.gov as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to the Office of the Interoperability Services Layer, Attn: Ron Chen, 400 Gigling Road, Seaside, CA 93955.

Title: Associated Form; and OMB Number: Interoperability Services Layer; OMB Control Number 0704–TBD.

Needs and Uses: IoLS will be created as an enterprise level application supporting physical access control systems. IoLS will be a single application with multiple interfaces for different functionalities. A registration inquiry interface will accept a person identifier consisting of last name, first name, birthday, sex code, identifier type code and identifier number, search the “Local Population”, a federated authoritative data source, and return data necessary to register a subject in a PACS.

A Registry Data Service will provide credential verification, registry data and any prior security alerts that have been obtained from the CIME. In addition it provides the capability to add or update local facility access persons, otherwise known as “Locals” within the DoD, to a central data source so they too can be included in the update service.

An Update Data Service will provide updates to information affecting registry like credential revocations and security alerts.

Affected Public: Business or other for profit (non-Military or Federal Employee).

Annual Burden Hours: 25,688.

Number of Respondents: 308,258.

Responses per Respondent: 1.

Average Burden per Response: 5 minutes.

Frequency: On occasion.

SUPPLEMENTARY INFORMATION:

Summary of Information Collection

IoLS (Interoperability Layer Services) is an application in a set DMDC enterprise services specifically targeted to enhance DoD capability to support rapid electronic authentication for local/non-DoD population persons (i.e., vendors, contractors, laborers) requesting access to DoD Installations. IoLS is designed to enable disparate Physical Access Control Systems (PACS) within DoD to share identity and security related information. IoLS requires personal data collection to facilitate the initiation, investigation and adjudication of person security status by communicating with Continuous Information Management Engine (CIME) on Security Alert relevant to DoD security clearances and employment suitability determinations.

Patricia L. Toppings,
OSD Federal Register Liaison Officer,
Department of Defense.

DEPARTMENT OF DEFENSE

Office of the Secretary

[Docket ID: DOD–2012–OS–0072]

Privacy Act of 1974; System of Records

AGENCY: Office of the Secretary, DoD.

ACTION: Notice to delete a system of records.

SUMMARY: The Office of the Secretary of Defense is deleting a systems of record notice from its existing inventory of record systems subject to the Privacy Act of 1974 (5 U.S.C. 552a), as amended.

DATES: This proposed action will be effective without further notice on July 20, 2012 unless comments are received which result in a contrary determination.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

• Mail: Federal Docket Management System Office, 4800 Mark Center Drive, East Tower, 2nd Floor, Suite 02G09, Alexandria, VA 22350–3100.

Instructions: All submissions received must include the agency name, and docket number for this Federal Register document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the Internet at http://www.regulations.gov as they are received without change, including any personal identifiers or contact information.

SUPPLEMENTARY INFORMATION: The Office of the Secretary of Defense systems of records notices subject to the Privacy Act of 1974, (5 U.S.C. 552a), as amended, have been published in the Federal Register and are available from the address in FOR FURTHER INFORMATION CONTACT.

The proposed deletion is not within the purview of subsection (r) of the Privacy Act of 1974 (5 U.S.C. 552a), as amended, which requires the submission of a new or altered system report.

Aaron Siegel, Alternate OSD Federal Register Liaison Officer, Department of Defense.

Deletion:

DFMP 07

DOD OVERSEAS EMPLOYMENT PROGRAM

(February 22, 1993, 58 FR 10227).

Reason: Based on a recent review of DFMP 07, DoD Overseas Employment Program, it has been determined the program ended December 1, 1996, and all records associated with this program were destroyed in accordance with the NARA approved retention and disposal schedule; therefore this system can now be deleted.
