

assigned to the parties responding to this information collection include NAICS code 236220 (Commercial and Institutional Building Construction), Sector 11 (Agriculture, Forestry, Fishing and Hunting), and Sector 42 (Wholesale Trade). The majority of responses come from entities that fall under NAICS code 325300 (Pesticide and Other Agricultural Chemical Manufacturing).

Estimated Number of Respondents: 28,000.

Frequency of Response: On occasion.

Estimated Total Annual Hour Burden: 12,040.

Estimated Total Annual Cost: \$685,146, includes \$0 annualized capital or O&M costs.

Changes in the Estimates: There is an increase of 4540 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This increase is a result of an increase in the annual number of NOAs submitted and an increase in the burden hours per response. The average, annual number of NOAs submitted to EPA increased from 25,000 to 28,000. The average burden hours per response will change from 0.3 hours for the previous ICR renewal to 0.43 hours for this ICR renewal. This change in burden hours per response is a result of changes to the data items on EPA Form 3450-1, and well as an accounting of the burden of voluntarily submitting certain information. Specifically, this burden estimate accounts for the new burdens related to providing information for the telephone numbers and email addresses of the shipper, importer of record, and licensed customs broker, when supplying name and address information, and for the complete address, including telephone and email address, of the carrier be provided. In addition, EPA is accounting for the burden of voluntarily providing active ingredients and percentage of each, supporting documentation for registered and unregistered pesticides, as well as intended use information for unregistered pesticides. This change is an adjustment.

Title: NESHAP for Printing, Coating and Dyeing of Fabrics and other Textiles (Renewal).

ICR Numbers: EPA ICR Number 2071.05, OMB Control Number 2060-0522.

ICR Status: This ICR is scheduled to expire on August 31, 2012. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB.

Abstract: The affected entities are subject to the General Provisions of the NESHAP at 40 CFR part 63, subpart A, and any changes, or additions to the Provisions specified at 40 CFR part 63, subpart OOOO.

Owners or operators of the affected facilities must submit initial notification, performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is

inoperative. Reports, at a minimum, are required semiannually.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 69 hours per response. "Burden" means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners or operators of printing, coating and dyeing of fabrics and other textiles.

Estimated Number of Respondents: 143.

Frequency of Response: Initially, occasionally, and semiannually.

Estimated Total Annual Hour Burden: 21,271.

Estimated Total Annual Cost: \$2,044,793, which includes \$2,038,122 in labor costs, \$2,953 in capital/startup costs, and \$3,718 in operation and maintenance (O&M) costs.

Changes in the Estimates: There is an adjustment increase in the total estimated burden hours and costs for both the respondents and the Agency as currently identified in the OMB Inventory of Approved Burdens. This increase is not due to any program changes. The increase in the burden and cost reflects a growth in the respondent universe since the last ICR renewal and an increase in labor rates. This ICR uses updated labor rates in estimating the costs for all labor categories.
