protected species under the Endangered Species Act, or impacts to essential fish habitat covered by the Magnuson-Stevens Fisheries Management Act are expected. There are no impacts to historical and cultural resources. Therefore, no changes or different types of non-radiological environmental impacts are expected as a result of the proposed exemption.

Accordingly, the NRC staff concludes that there are no significant environmental impacts associated with the proposed action. The details of the staff’s safety evaluation will be provided in the exemption, when it is issued.

Environmental Impacts of the Alternatives to the Proposed Action

As alternatives to the proposed action, the NRC staff is considering denial of the proposed action (i.e., the “no-action” alternative) or requiring the licensee to modify the facility to achieve compliance with Appendix R. Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

Alternative Use of Resources

The action does not involve the use of any different resources than those previously considered in the U.S. Atomic Energy Commission’s 1973 “Final Environmental Statement Related to the Continuation of Construction of Unit 2 and the Operation of Units 1 and 2, Millstone Nuclear Power Station.”

Agencies and Persons Consulted

On May 14, 2012, the NRC staff consulted with the Connecticut State official, Michael Firsick of the Department of Environmental Protection, regarding the environmental impact of the proposed action. Mr. Firsick had no comments.

Finding of No Significant Impact

On the basis of the environmental assessment, the NRC staff concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC staff has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee’s application dated June 30, 2011, as supplemented by letter dated February 29, 2012. The licensee’s application and supplemental submission are accessible electronically under ADAMS Accession Nos. ML11188A213 and ML12069A016. Publicly available versions of the documents may be examined, and/or copied for a fee, at the NRC’s Public Document Room (PDR), located at One White Flint North, Room O1–F21, 11555 Rockville Pike (first floor), Rockville, Maryland 20852. FOR FURTHER INFORMATION CONTACT: Stephen L. Sharfman, General Counsel at 202–789–6820.

SUPPLEMENTARY INFORMATION:

Introduction. On June 25, 2012, the Postal Service filed notice with the Commission of a proposal characterized as a minor classification change under 39 CFR parts 3090 and 3091, along with a conforming revision to the Mail Classification Schedule (MCS). The change adds the Express Mail International (EMI) Padded Flat Rate Envelope as a Flat Rate Envelope option in the EMI product category. Notice at 1. The stated purpose of the change is to increase customer Flat Rate Envelope options.

In support of its filing, the Postal Service states that the dimensions of the EMI Padded Flat Rate Envelope (12.5 inches by 9.5 inches) are the same as those of the EMI Flat Rate Envelope. It states that the price for the Padded Flat Rate Envelope ($29.25 to Canada and $39.00 to all other countries that offer EMI service) is the same as the price for the current EMI Flat Rate Envelope and EMI Legal Flat Rate Envelope. In addition, it notes that all standards that apply to the EMI Flat Rate Envelope and EMI Legal Flat Rate Envelope (e.g., maximum weight limit of 20 pounds) apply to the EMI Padded Flat Rate Envelope. Id. The Postal Service asserts that the changes are consistent with 39 U.S.C. 3642 and should be incorporated by the Commission into the MCS. Id. at 2.

The Commission establishes Docket No. MC2012–30 for consideration of matters related to the Postal Service’s filing. It appoints Kenneth E. Richardson to represent the interests of the general public (Public Representative) in this proceeding. (citing notice of the United States Postal Service of Changes in Rates of General Applicability for a Competitive Product, Established in Governors’ Decision No. 12–1, PRC Docket No. CP2012–39, June 22, 2012).2

The instant notice would likewise appear to effect a change in rates of general applicability. Accordingly, the Postal Service is requested to address, no later than July 6, 2012, why a filing similar to that made in Docket No. CP2012–39 was not made with respect to the change in EMI rates. If, on reconsideration, the instant filing should have been filed pursuant to 39 CFR part 3015, the Postal Service
